

LUO HERITAGE / SELF-STUDY SLIDES

LANGUAGE • CULTURE • LIVING MEMORY

Community members

Read, learn, contribute and manage your account

You will be able to find cultural material, ask questions and submit your own contribution.

READ • TRY • CHECK

25 October 2026 | Edition 1.0

Start here: learn at your own pace

1. Read a slide, try its action, then check the result. Tap means click. Gold circles mark important controls in the screenshots.
2. Use your own account. Your organisation supplies the correct website address and any staff access.
3. Screenshots show the current interface with practice details. Actual names, content and menus may differ.

Read the step → **Try it yourself** → **Check the result**

If your menu looks different, first check My access. Do not ask someone to lend you their account.

CHECK: You will be able to find cultural material, ask questions and submit your own contribution.

What this guide covers

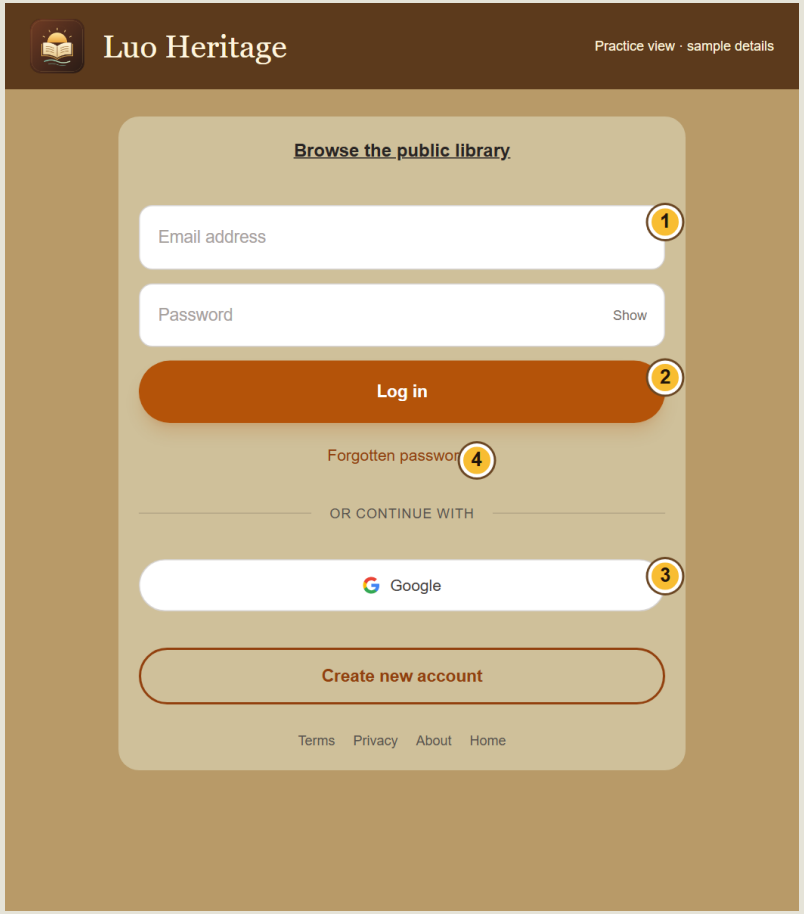

1. Create and recover an account; understand the menu.
2. Read collections, save items, learn and ask questions.
3. Prepare a private contribution and send it for review.

CHECK: Use the slide numbers to return to a task. The PDF has page bookmarks; PowerPoint has a contents view.

Sign in to your own account

1. Open the Luo Heritage address supplied by your organisation. Choose Sign in or Log in.
2. Enter your email and password, then choose Log in. Check your spelling if it fails.
3. Community members may also use Google. Staff should use the account supplied by their administrator.

Never share your password. Use only an address you trust.

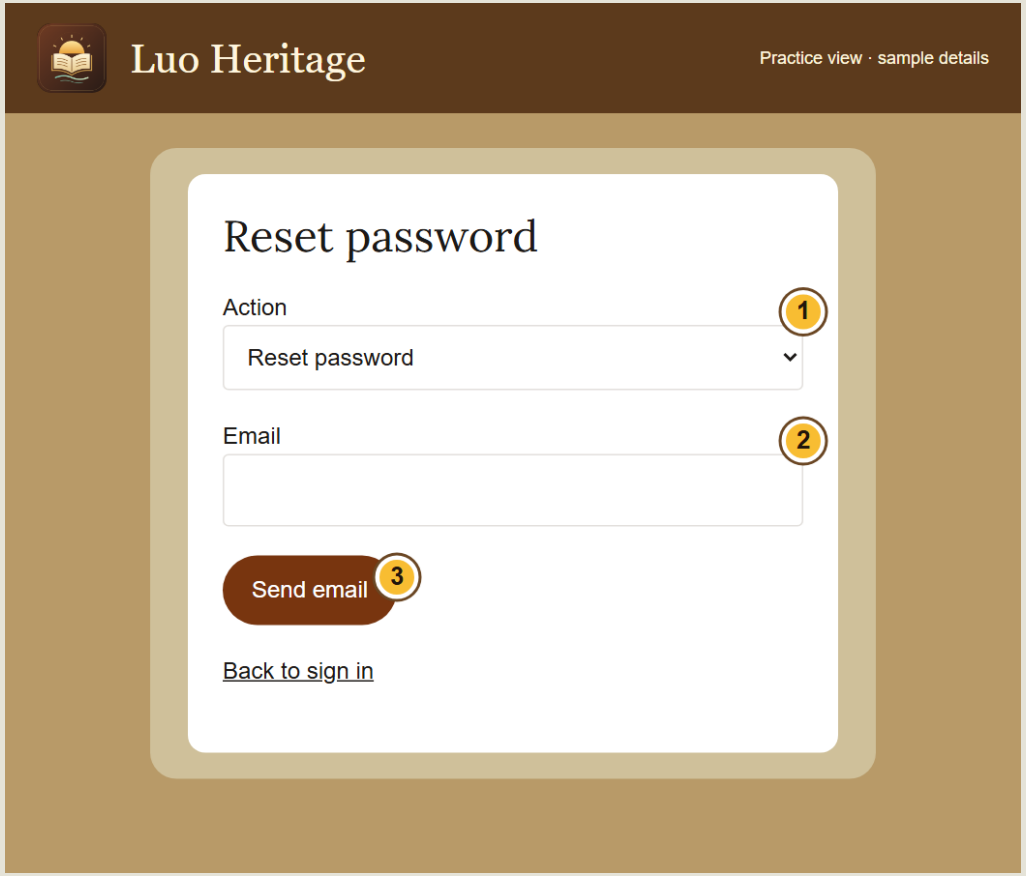

CHECK: Your account or dashboard opens.

Forgot your password?

1. On the sign-in screen, choose Forgotten password? Select Reset password.
2. Enter your account email. Choose Send email, then check your inbox and spam folder.
3. Open the newest reset link within 30 minutes. A link can be used only once.

If no email arrives, contact the person who manages your account. Do not keep requesting links.

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: An account email arrives if the address is eligible and the email service is available.

Choose a new password

1. Open the password reset link from your own inbox.
2. Enter a new password of at least 12 characters. A short phrase with several words is easier to remember.
3. Choose Confirm. Return to sign in and use the new password on each device.

Do not forward the reset link. If it has expired, request a new one.

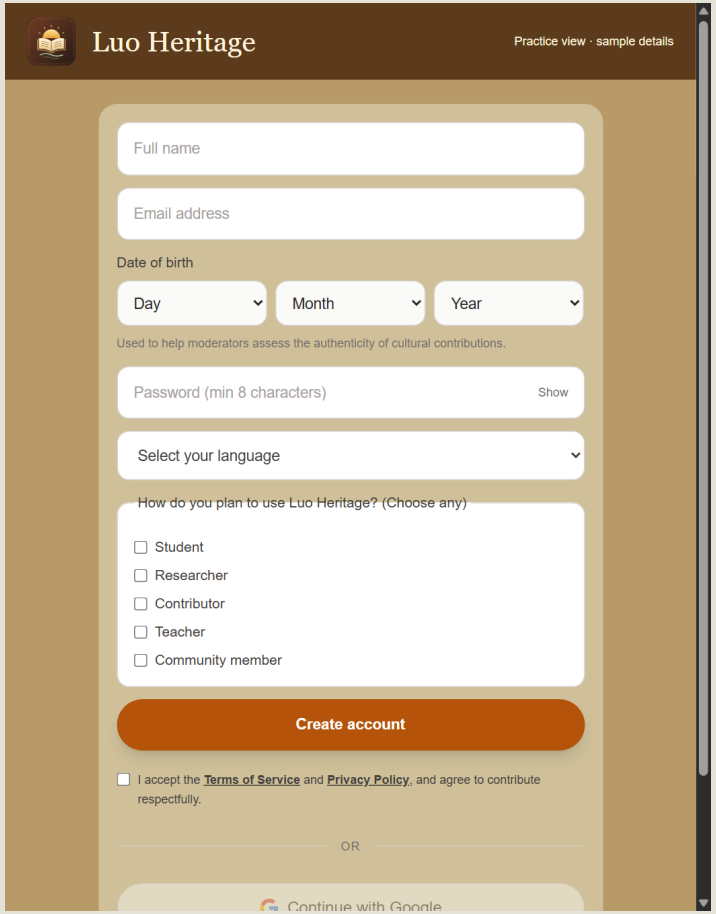

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The password changes and old sign-ins are ended.

Create a community account

1. Choose Create new account from the sign-in screen. Enter your name, email and date of birth.
2. Choose your language and interests. Read and accept the Terms and Privacy Policy.
3. Set your password and submit. If approval is required, wait for confirmation before signing in.

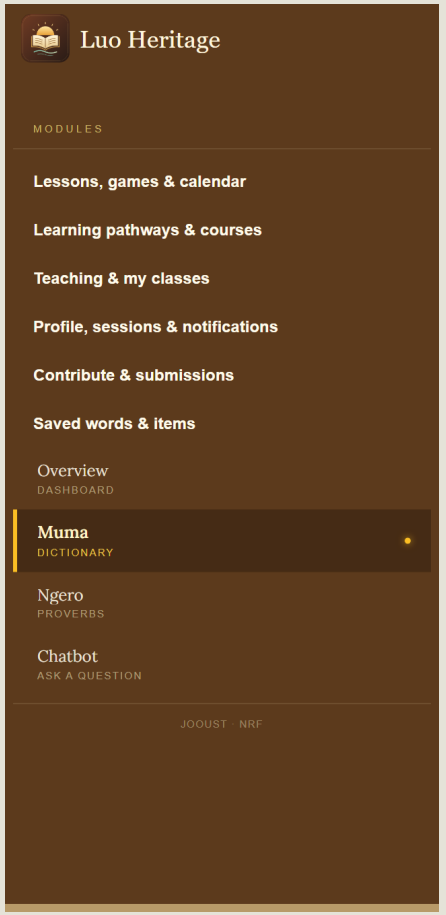

You can choose Google registration if offered, then complete any requested profile information.

CHECK: Your account is created or clearly marked as awaiting approval.

Find your way around

1. Open the menu on the left. On a phone, use the menu button first.
2. Choose a collection such as Muma, Ngero or stories. The smaller label explains its content.
3. Use the same menu for lessons, courses, saved items, contributions and your account.

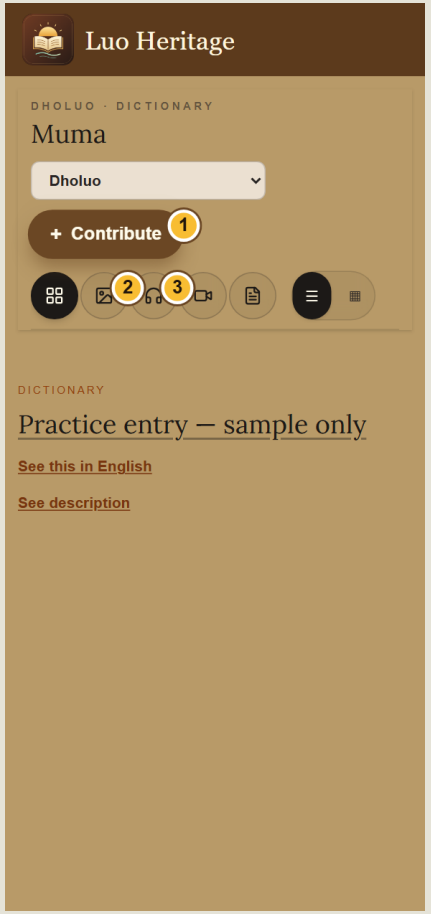

CHECK: You can return to a collection or personal screen without starting again.

Use the library on a phone

1. Open a collection, such as Muma (Dictionary), from the menu.
2. Use the picture, headphones, video or page icon to choose a type of content. The four-square icon shows all types.
3. Choose the list or grid button to change the view. Scroll the entries below the controls.

An empty result can mean there are no published entries of that type. Try All.

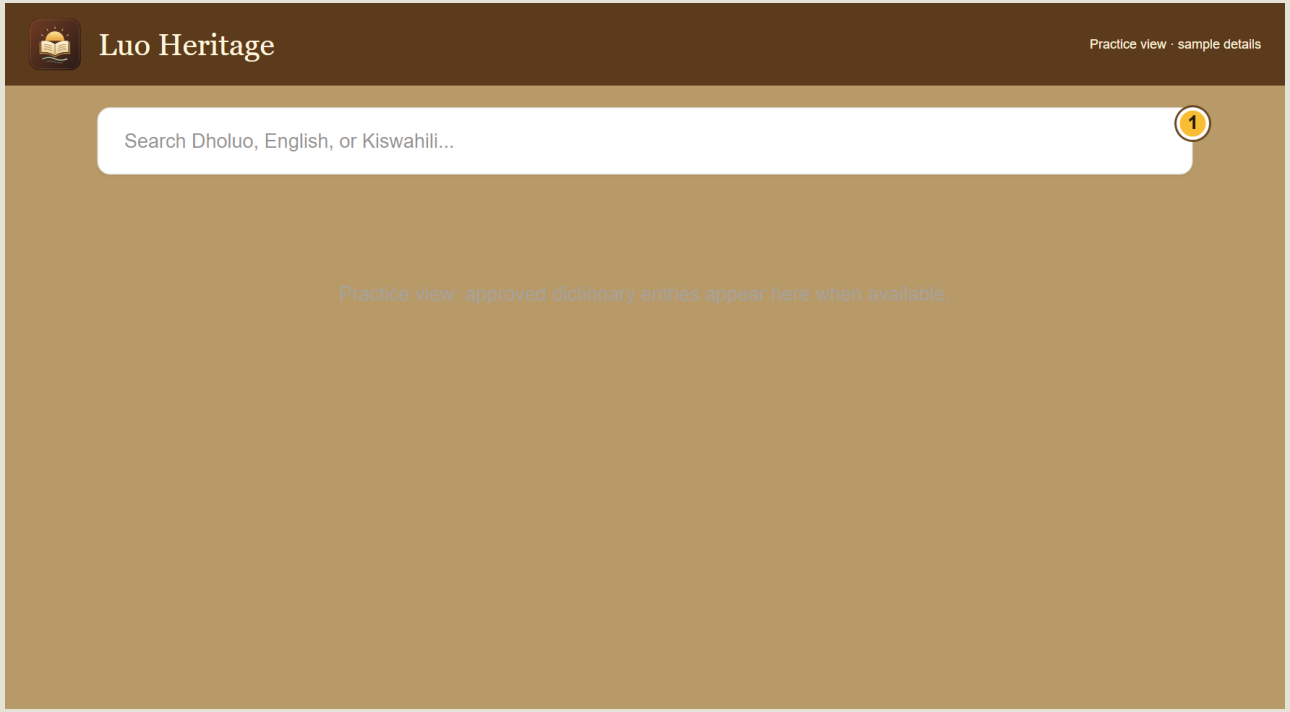

CHECK: The collection shows entries matching your chosen filter.

Find a word in the public dictionary

1. On the public website, open the dictionary page and find its search box.
2. Enter a Dholuo word or an English or Kiswahili meaning. Wait for the results, then read the relevant entry.
3. If there is no result, check spelling or try another word. A missing published entry is not proof that the word does not exist.

The shared app’s Muma screen uses collection filters; it may not show this website search box.

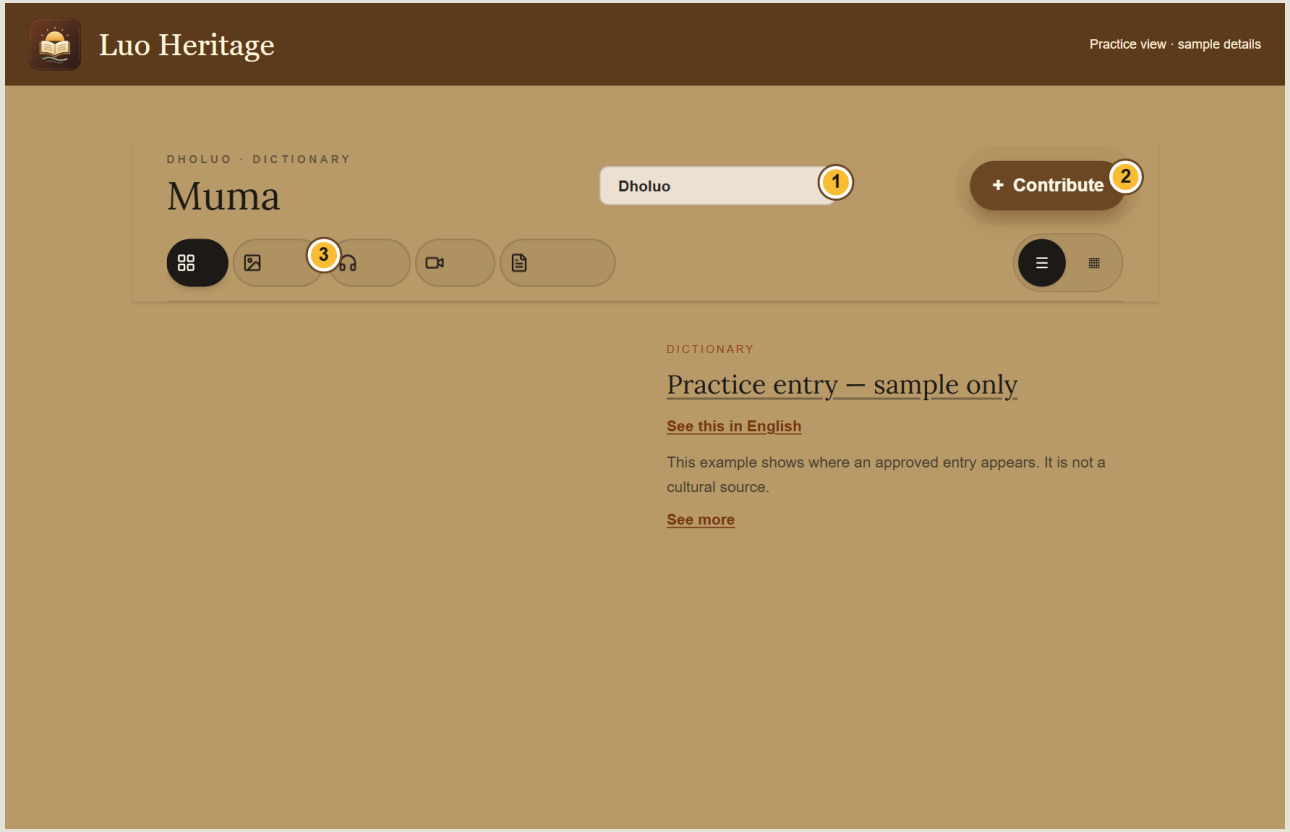

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You can use the dictionary search where it is offered.

Read, listen and change the view

1. Open an entry or choose the grid button, then select its card.
2. Use See description or See this in English when offered. Audio and video use their own play controls.
3. Use All if a filter shows no results. Save item is available in signed-in views that offer it.

An unavailable English description does not mean the original entry is missing.

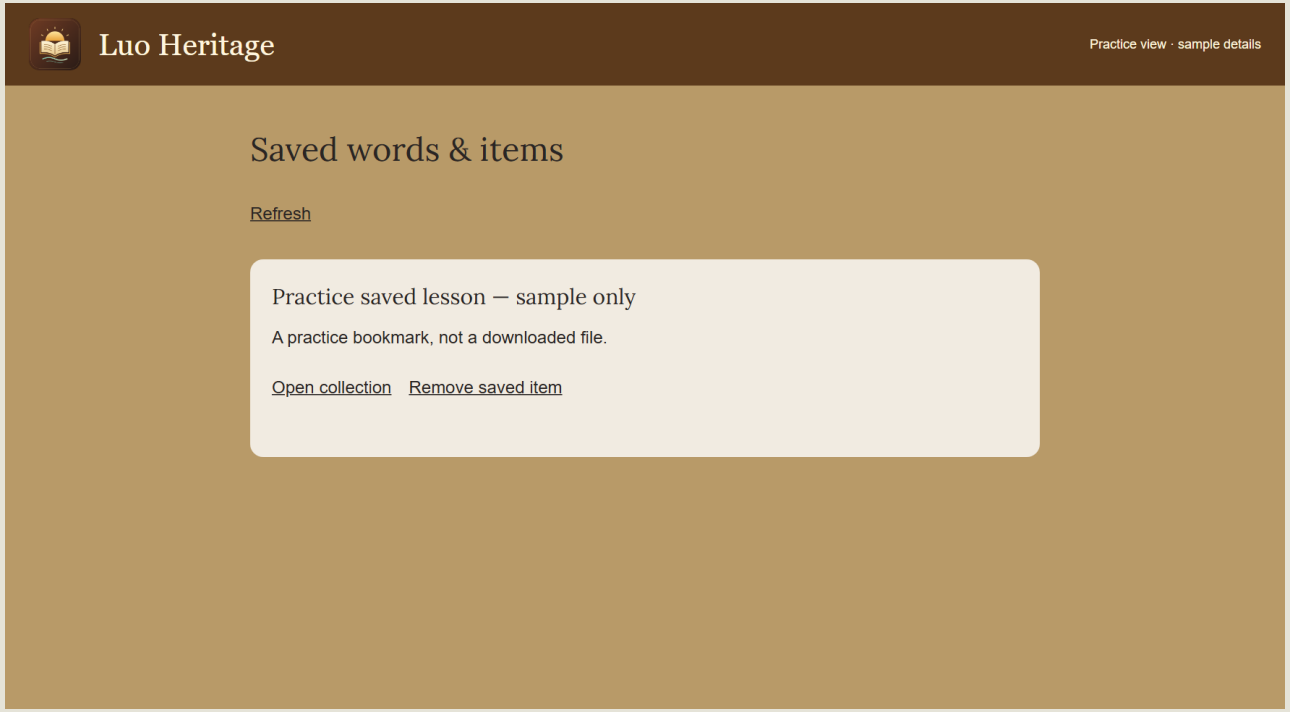

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You can read the entry and use the media that has actually been published.

Return to saved words and items

1. Sign in and choose Save item on an entry or lesson where that button is available.
2. Open Saved words & items from the menu. Choose Open collection to return to its source.
3. Choose Remove saved item when you no longer need the bookmark.

Saving a bookmark does not download a file for offline use.

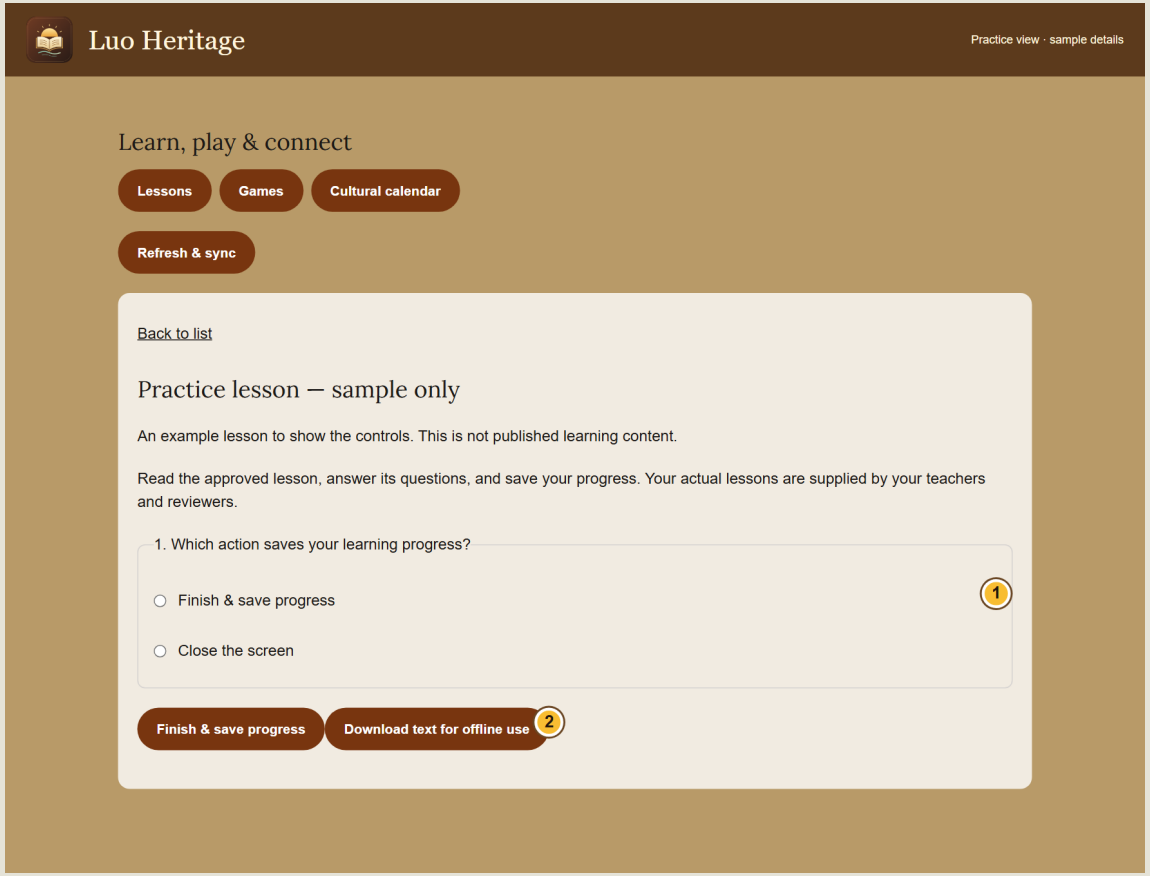

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Your saved list helps you find material again on the same account.

Open a lesson and keep your progress

1. Choose Lessons, games & calendar. Open a published lesson.
2. Read the lesson and answer its questions. Choose Finish & save progress.
3. Read the result and feedback. Sign in with the same account on another device to keep your learning together.

A score helps you learn; it does not replace a teacher's review.

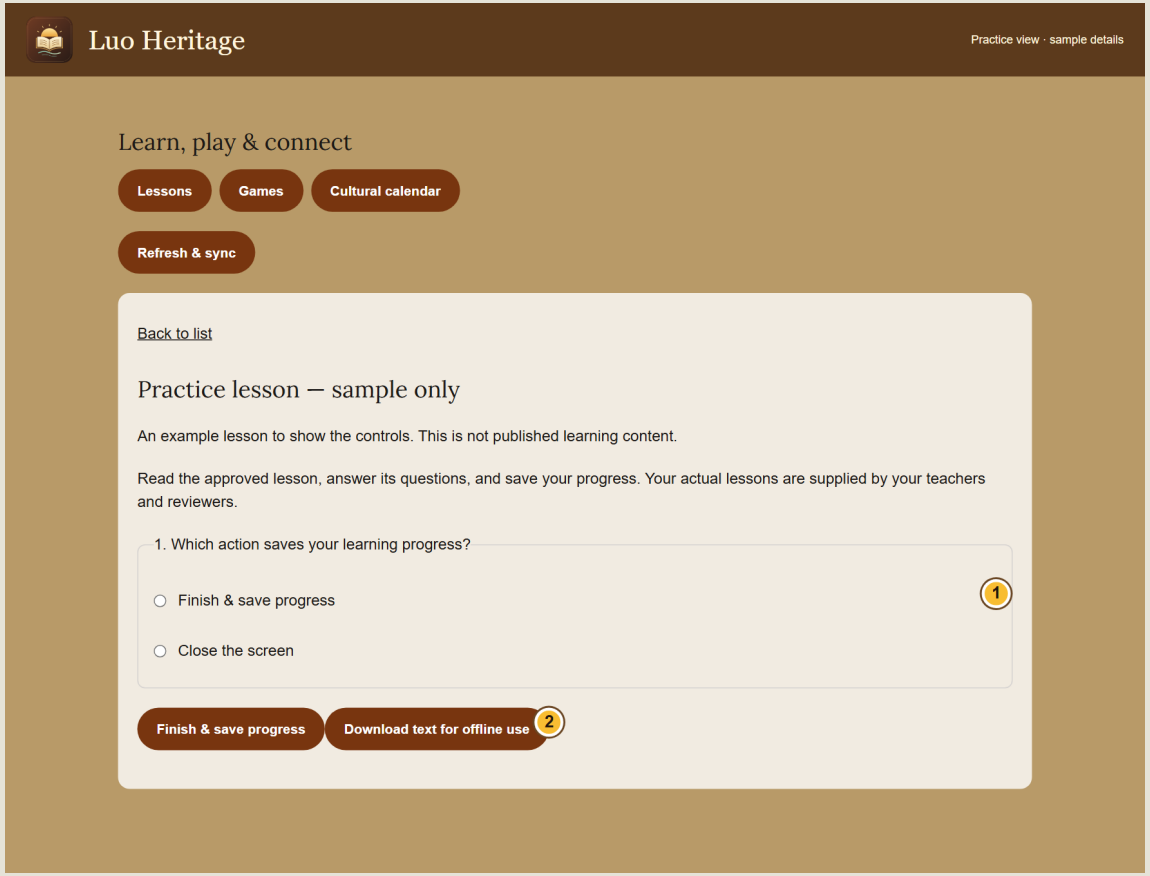

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You see a saved result or a message saying the attempt is waiting to go online.

Prepare to study without internet

1. While connected, open a lesson that allows downloads. Choose Download text for offline use.
2. Keep using the same browser or app profile. Downloaded text can be read without internet for up to seven days.
3. Reconnect and choose Refresh & sync. Keep the app open until waiting attempts have been saved online.

These downloads contain text, not the audio or video files. Some lessons cannot be downloaded.

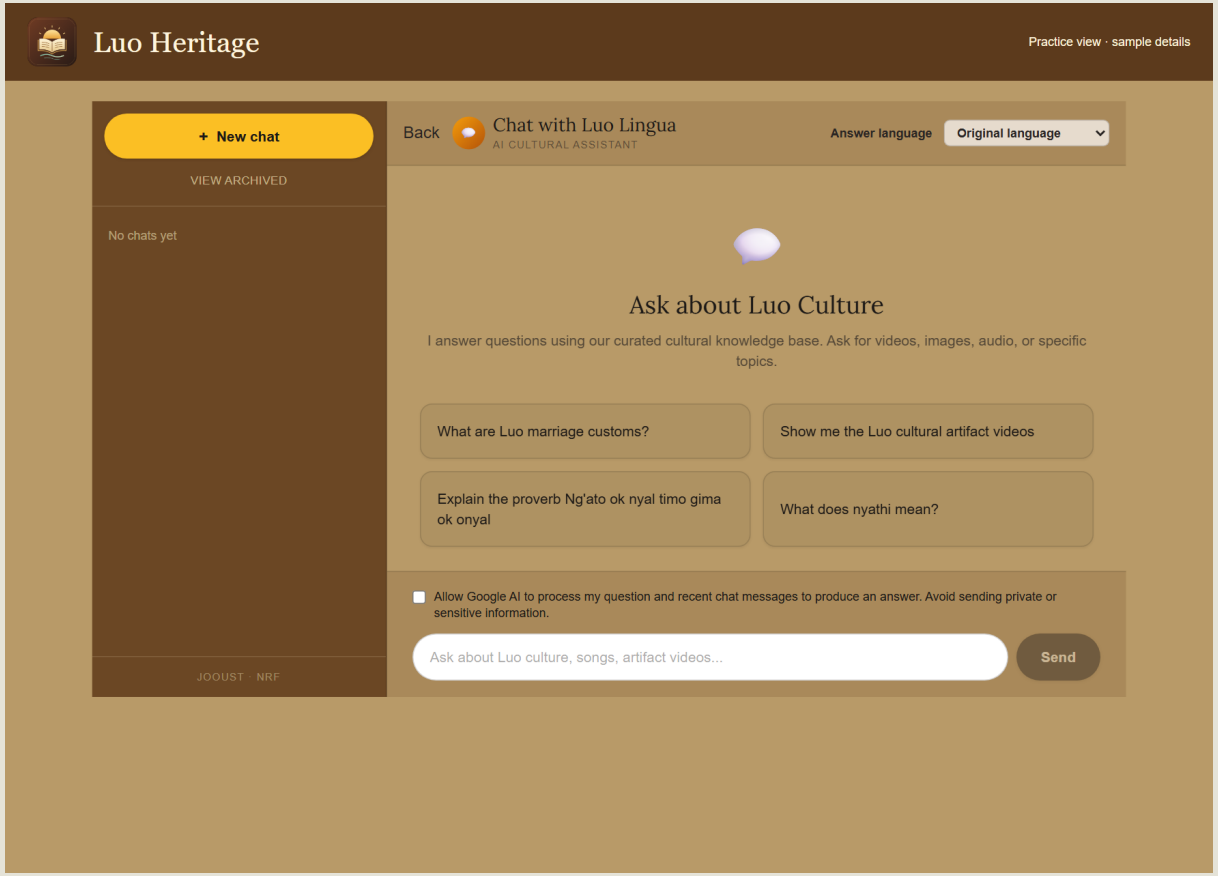

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Permitted lesson text is available offline and saved attempts can synchronize later.

Ask the AI chatbot a clear question

1. Open Chat or Chatbot. Choose your answer language and read the processing permission notice.
2. If you agree, allow AI processing. Ask one clear question and wait for the response.
3. Open any sources provided. Ask a follow-up question if you need a simpler explanation.

AI can make mistakes. Do not enter private interviews, passwords or learners' personal information.

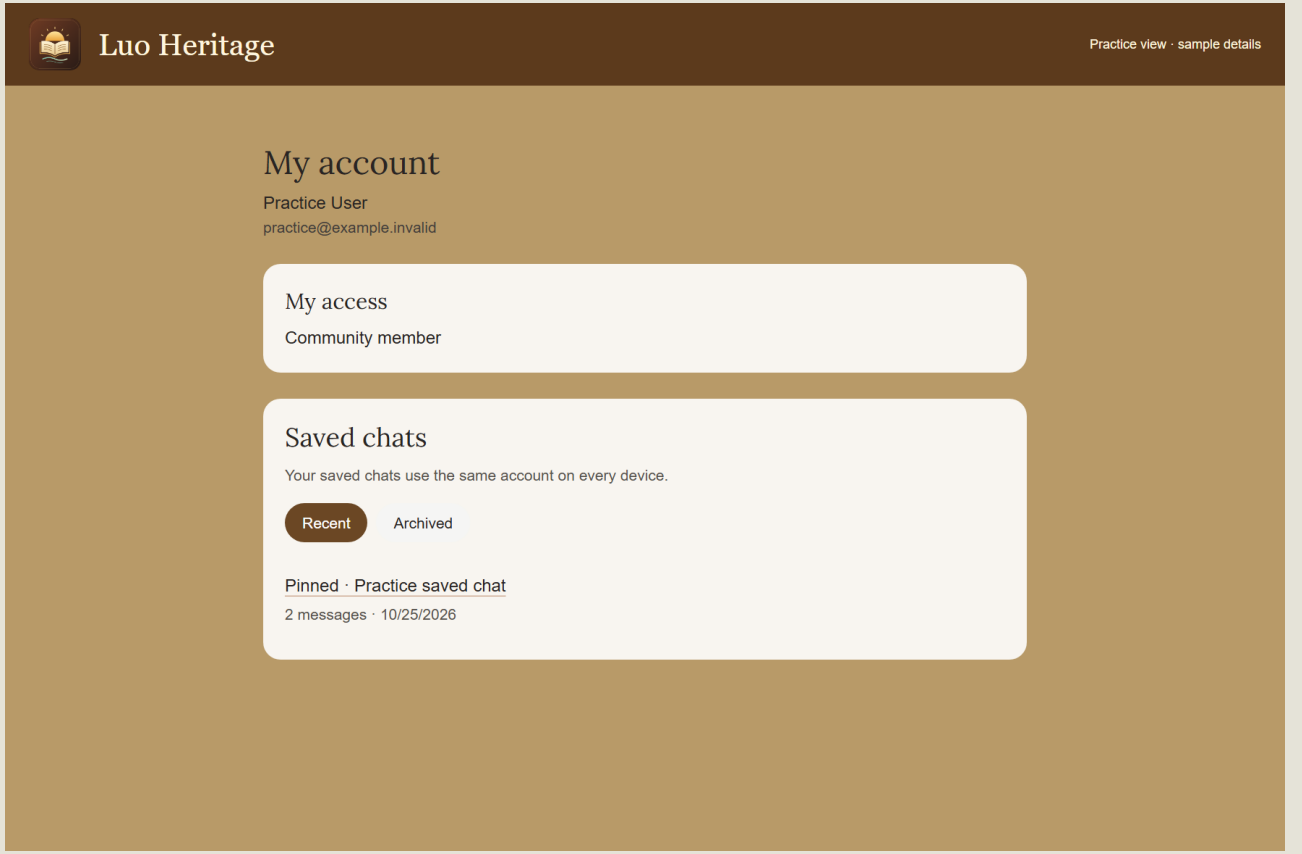

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You can read an answer and inspect any linked sources.

Find your access and saved chats

1. Open the account menu and choose My account & saved chats.
2. Read My access to check your assigned role. Open a chat from Recent or Archived.
3. For your name, sessions or notifications, open Profile, sessions & notifications from the menu.

Choosing an interest such as teacher or researcher does not give staff access.

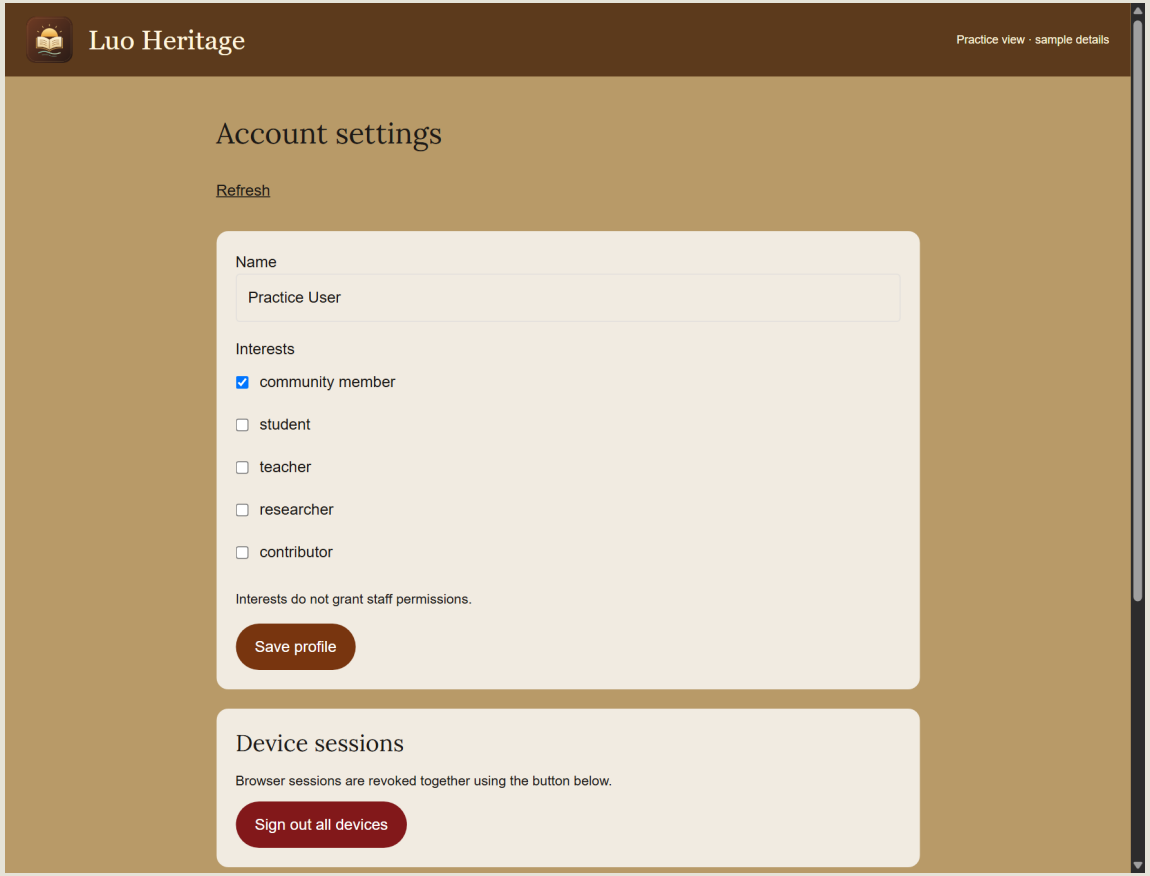

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You can find your own account details and earlier conversations.

Update your profile and read notices

1. Open Profile, sessions & notifications from the menu.
2. Change your name or interests and choose Save profile. Interests describe you; they do not grant staff duties.
3. Read your notifications and use Mark read when offered. Check Device sessions if you need to end an old app sign-in.

Sign out all devices ends your current sign-in too. Sign in again afterwards if you use it.

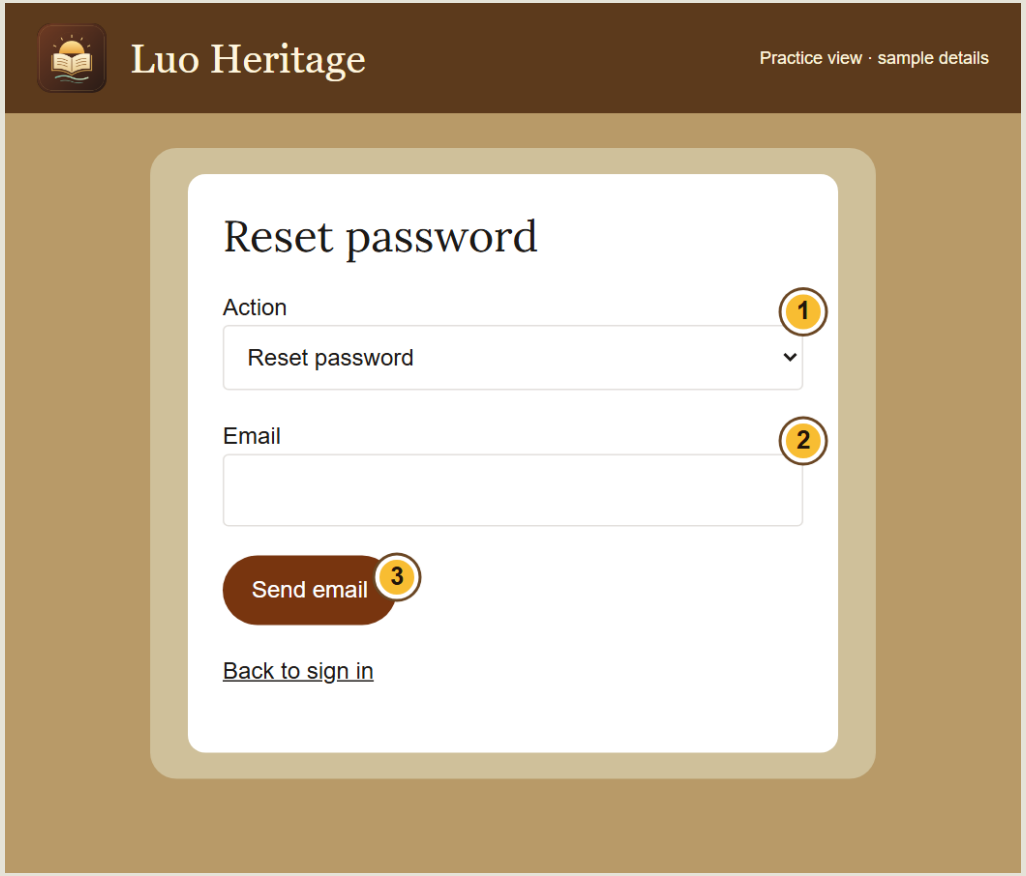

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Your profile changes are saved and notices are easy to find.

Verify your email address

1. Open account verification and recovery from your account settings.
2. Choose Verify email under Action, enter your own account email and choose Send email.
3. Open the newest email link within 30 minutes and choose Confirm. Use a new link if the earlier one has expired.

The screenshot shows the same form set to Reset password. Change Action to Verify email for this task.

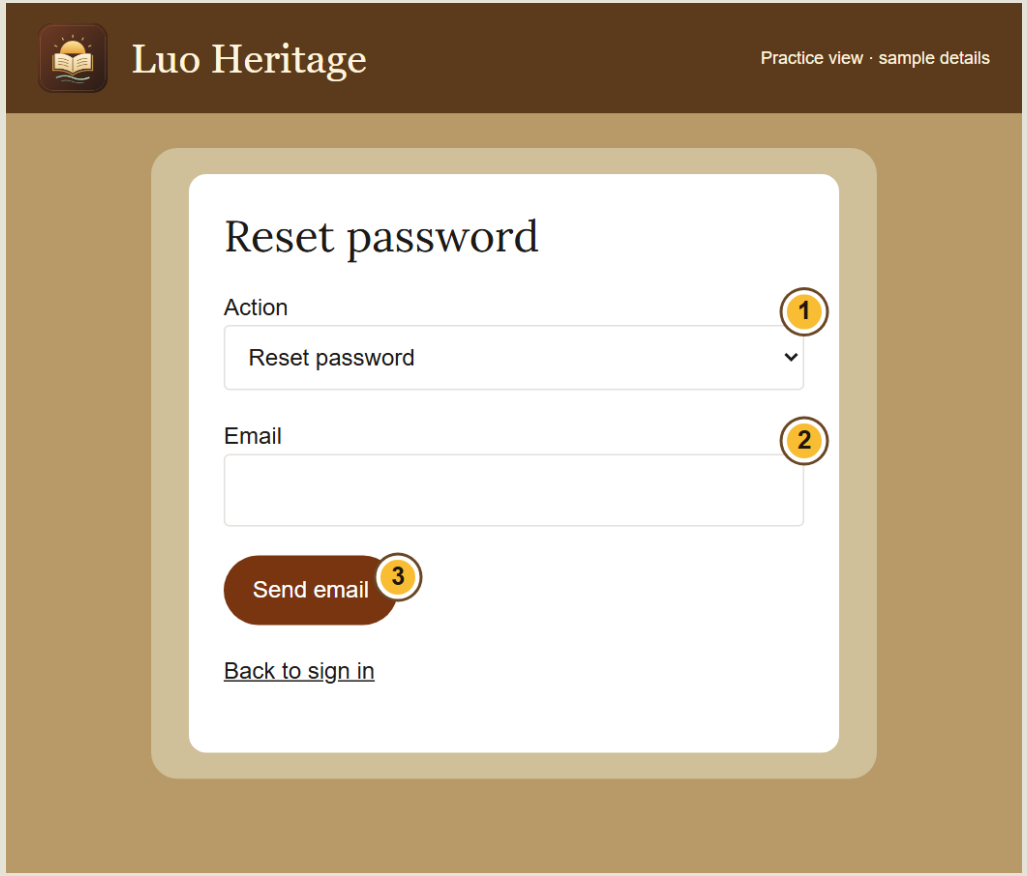

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The confirmation verifies the address for the intended account.

If you decide to delete your account

1. Read the warning first. Deletion removes your sign-in, profile, saved chats and personal progress.
2. In account recovery, choose Delete account. Request the email link only if you intend to continue.
3. Open the link and read the confirmation before choosing Confirm. Required cultural-source and review records can be retained.

This is optional, not a practice task. Active class teachers and the Master Super Admin may need to resolve their responsibilities first.

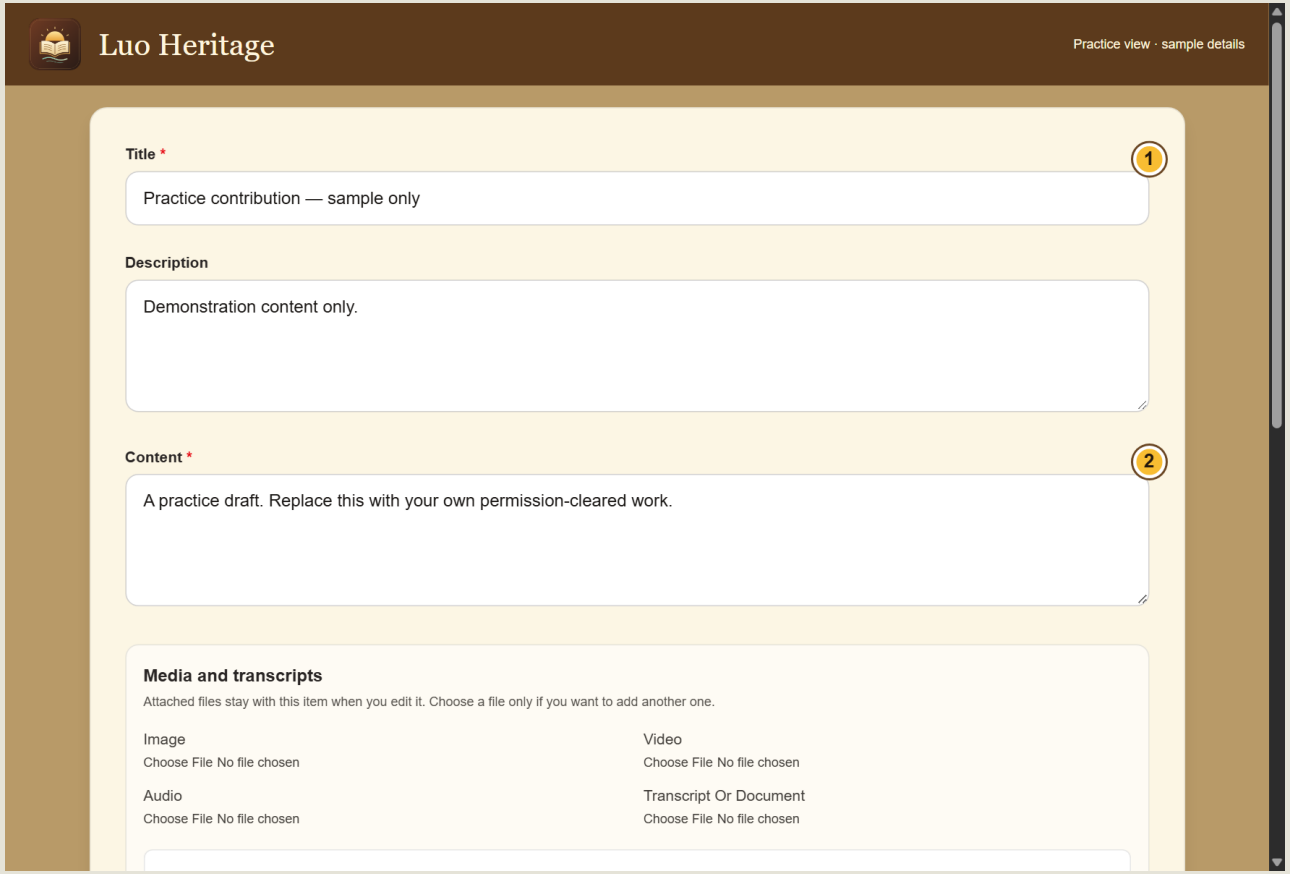

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You understand the consequences before requesting deletion.

Start your own contribution

1. Choose Contribute & submissions or the Contribute button inside a collection.
2. Select the collection and choose New private draft. Enter a short title and the requested details.
3. Use your own material or material you have permission to share. Mark uncertain facts for review.

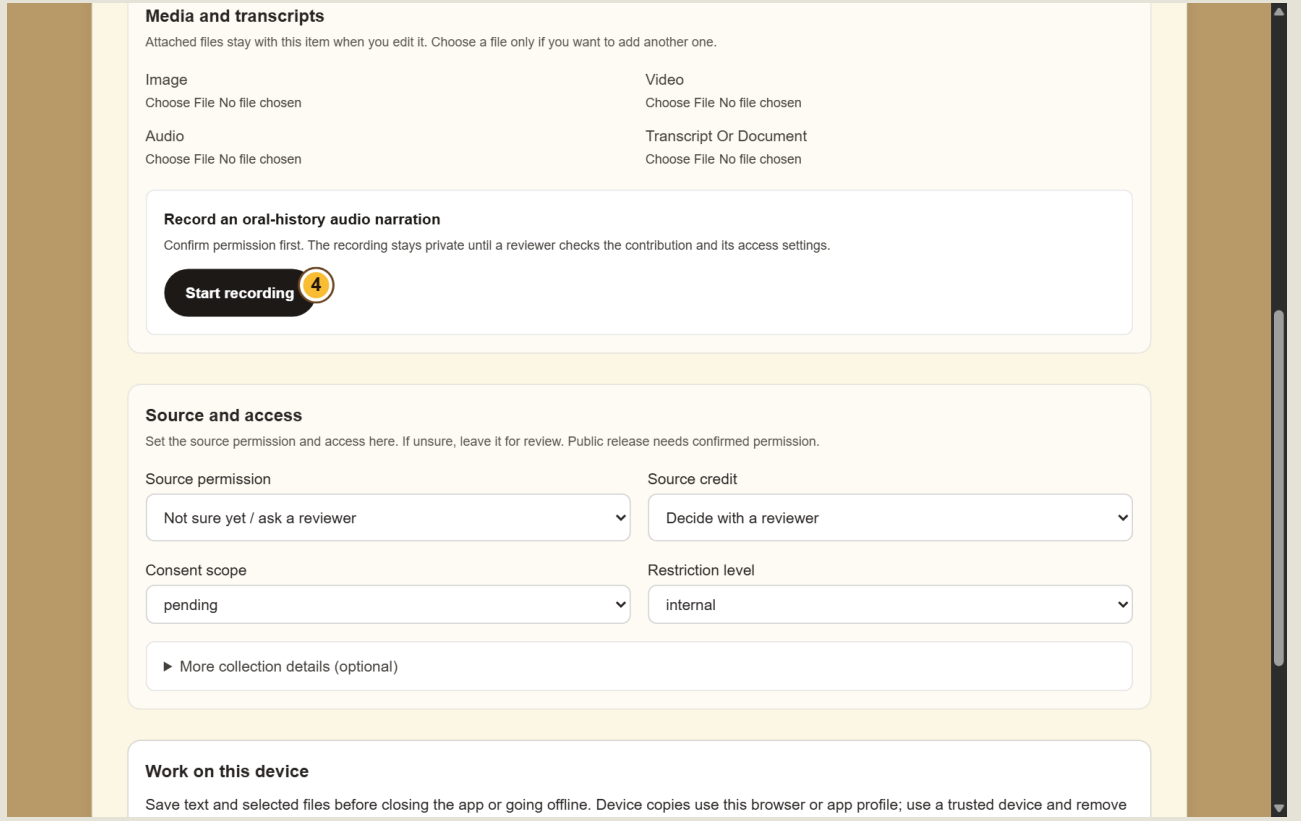

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: A contribution form contains your draft; it is not published.

Add pictures, audio or documents

1. Find Media and transcripts. Choose a file under the matching type.
2. For an oral history, confirm permission before choosing Start recording. Stop when finished.
3. Check that the correct files are selected. Keep the app open while an upload is in progress.

If microphone access is refused, allow it in your device settings or attach an existing recording.

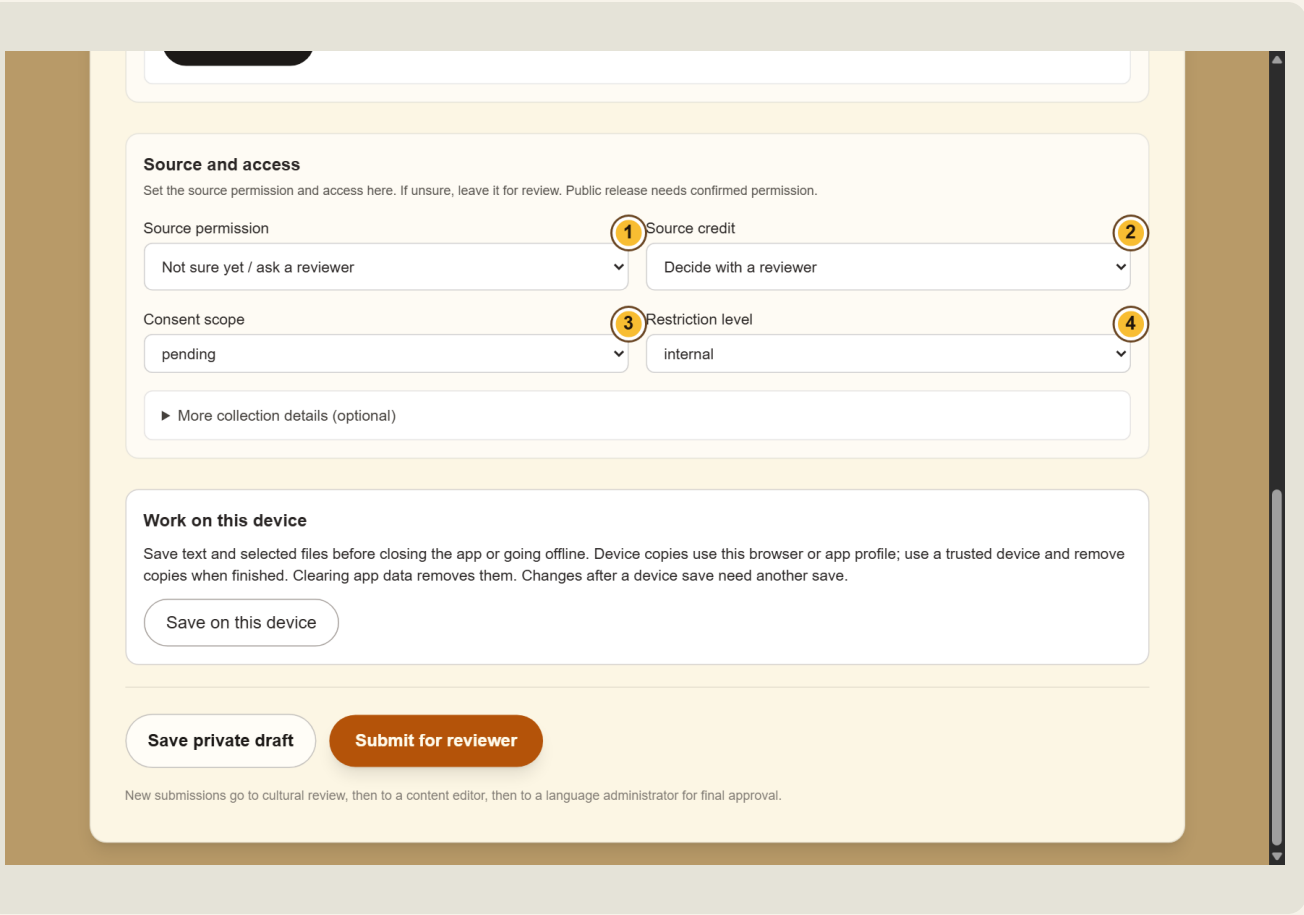

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The selected files stay with the contribution when it is saved successfully.

Check permission before sharing

1. Under Source and access, choose Source permission. If unsure, leave Not sure yet / ask a reviewer.
2. Choose how to credit the source. Use a person’s name only when they agree.
3. Keep restricted, sacred or research-only material private. Ask a reviewer before changing access.

Permission to collect material is not automatically permission to publish it.

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The draft records who may use the material and how the source should be credited.

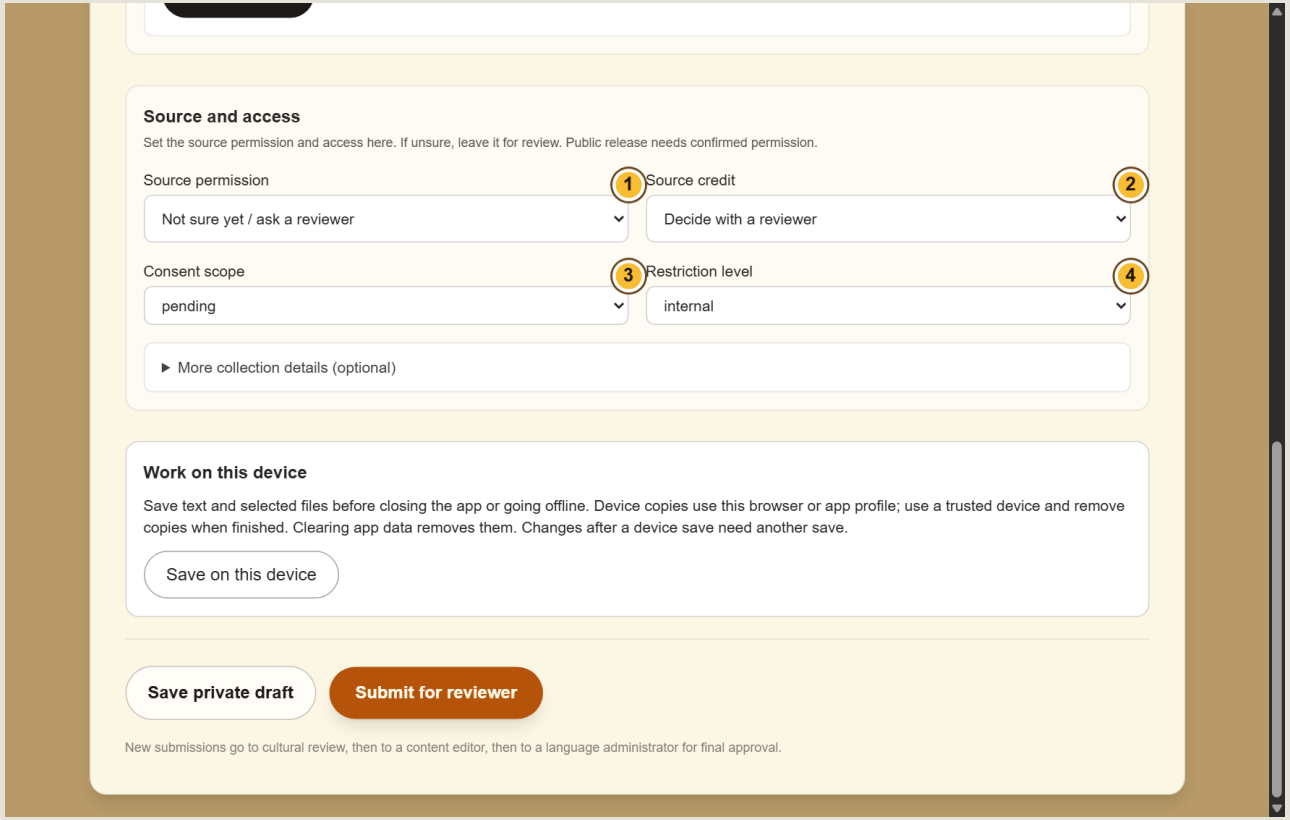

What the permission labels mean

1. Source permission: has the source agreed to the proposed use? Choose Not sure yet when you do not know.

2. Consent scope: what use was agreed? Public excerpt means an approved public part; research only and teaching have different limits.

3. Restriction level: who may see it? Internal and restricted are not public. Sacred material needs the collection owner's special care.

If the permission record is unclear, keep the item private and ask the responsible reviewer.

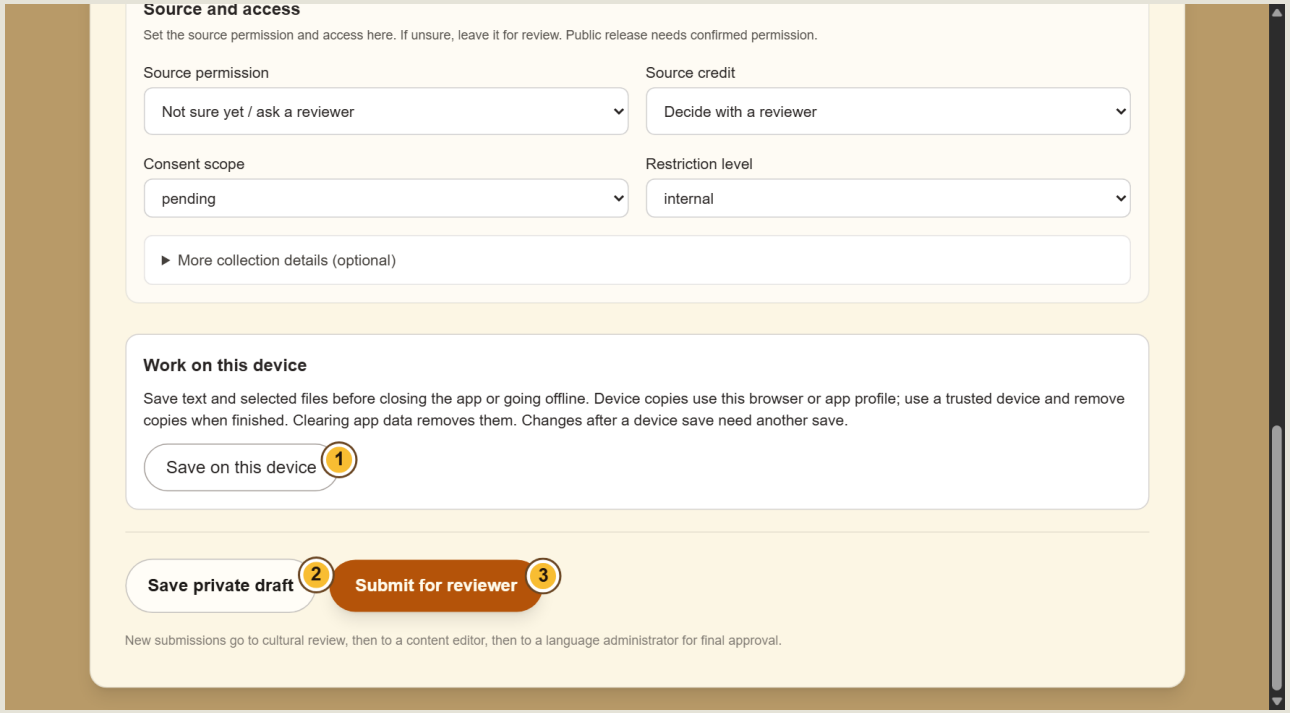

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You understand the labels before you change them.

Understand the three save choices

1. Save on this device keeps a local copy, including selected files. It does not submit your work.
2. Save private draft saves an online draft for your account. You need a connection.
3. Submit for reviewer sends the contribution for checking. Wait for confirmation before leaving.

Clearing browser or app data can remove local drafts. Save again after making changes.

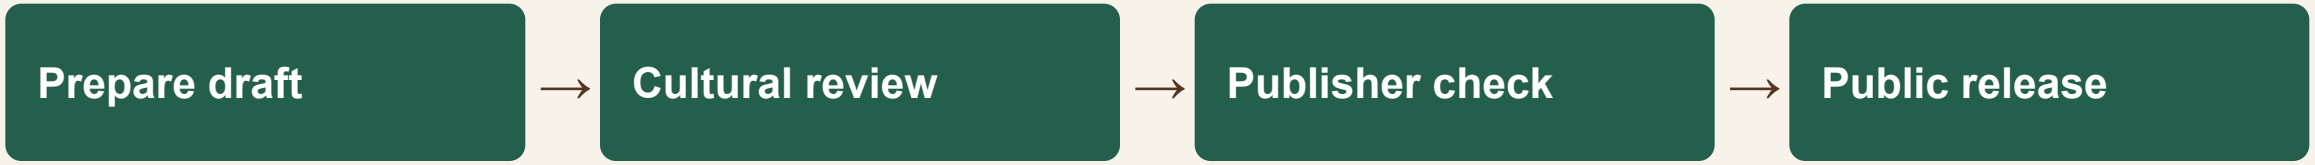

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You know whether the work is on this device, saved online, or sent for review.

How a contribution reaches readers

1. The uploader or contributor prepares a draft and submits it.
2. A cultural reviewer checks accuracy. An editor makes requested corrections and returns the item for review.
3. A publisher checks the final item and permission. Only an approved public release becomes visible to readers.

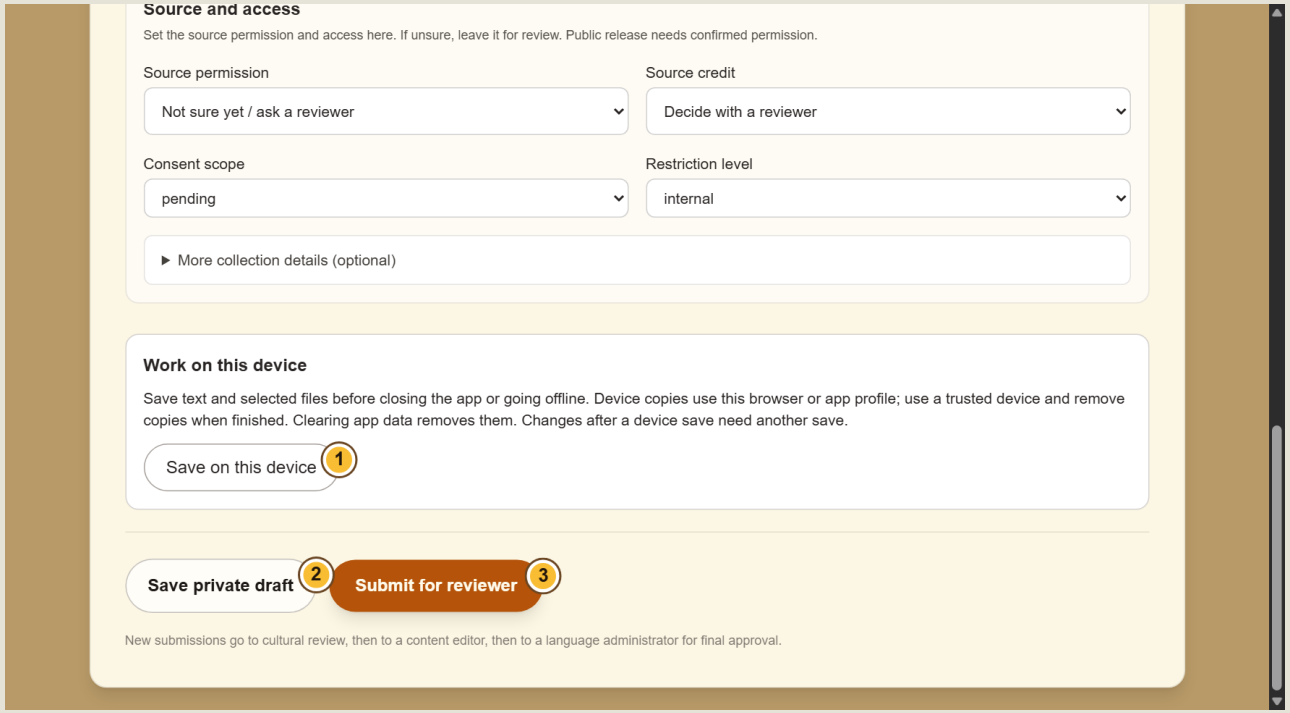

Different people should perform the independent checks. Do not approve your own work.

CHECK: An item may return for changes. Drafts and private approvals are not public publication.

Check what happened to your submission

1. Open Contribute & submissions, then find My online submissions.
2. Read the status. If asked to make changes, choose Edit draft or requested revision.
3. Read the reviewer’s request, make the correction, and submit again when ready.

If an item is locked for review, ask the reviewer to return it rather than creating a duplicate.

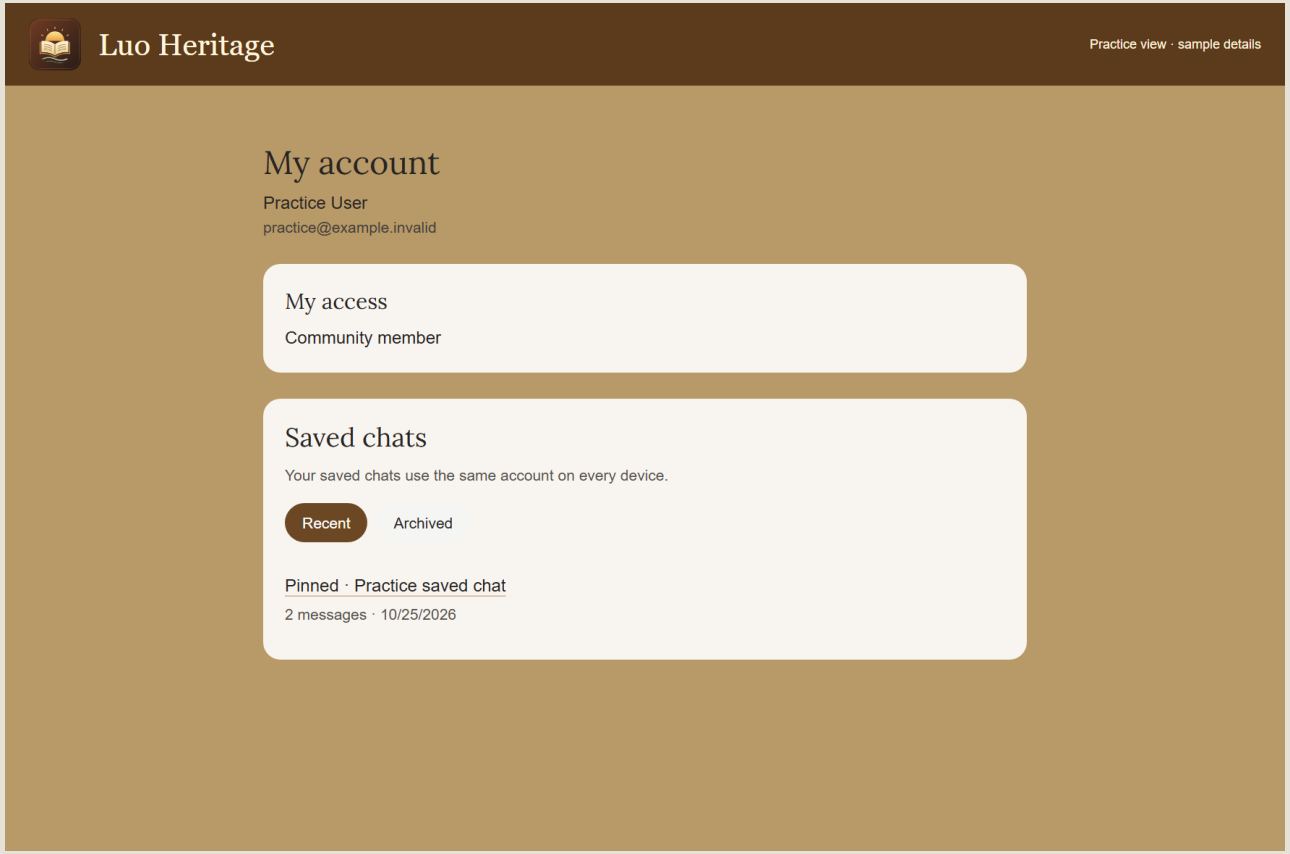

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You can tell the difference between a draft, an item under review and published material.

Protect your account and other people

1. Use your own account. Sign out on a shared computer or phone.
2. Do not copy private interviews, class results or account lists into public chats or messages.
3. If a screen shows information you should not see, stop and tell the account administrator.

Send support the screen name and error message, never your password or a reset link.

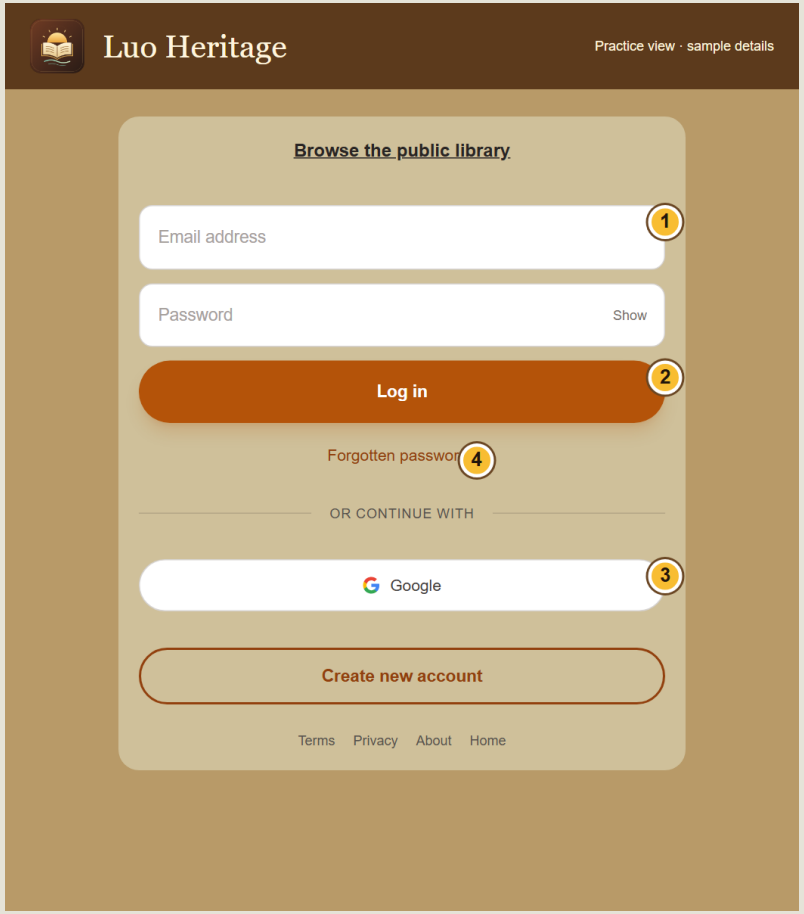

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Your work remains linked to the right person and private information stays protected.

When something does not work

1. Check your internet connection. Read the message on screen before trying again.
2. If your sign-in has expired, sign in again. If a button is missing, ask which role and language you have.
3. If it still fails, note the time, screen, button and exact message. Send these to your account administrator.

Before repeating an upload or submission, check whether the first attempt was already saved.

CHECK: You can explain the problem clearly without exposing private information.

Try it yourself: your readiness check

1. Find one collection and change its content filter.
2. Open a lesson or ask a simple AI question, then check any source.
3. Prepare a private practice draft and identify the option that sends it for review.

Use only approved practice material. Do not publish, delete accounts or change live settings just to practise.

CHECK: You are ready for routine work when you can complete these steps without help.
