

LUO HERITAGE / SELF-STUDY SLIDES

LANGUAGE • CULTURE • LIVING MEMORY

Students and learners

Study lessons, join classes and keep your progress

You will be able to enroll, join a class, study and find your feedback.

READ • TRY • CHECK

25 October 2026 | Edition 1.0

Start here: learn at your own pace

1. Read a slide, try its action, then check the result. Tap means click. Gold circles mark important controls in the screenshots.
2. Use your own account. Your organisation supplies the correct website address and any staff access.
3. Screenshots show the current interface with practice details. Actual names, content and menus may differ.

Read the step → **Try it yourself** → **Check the result**

If your menu looks different, first check My access. Do not ask someone to lend you their account.

CHECK: You will be able to enroll, join a class, study and find your feedback.

What this guide covers

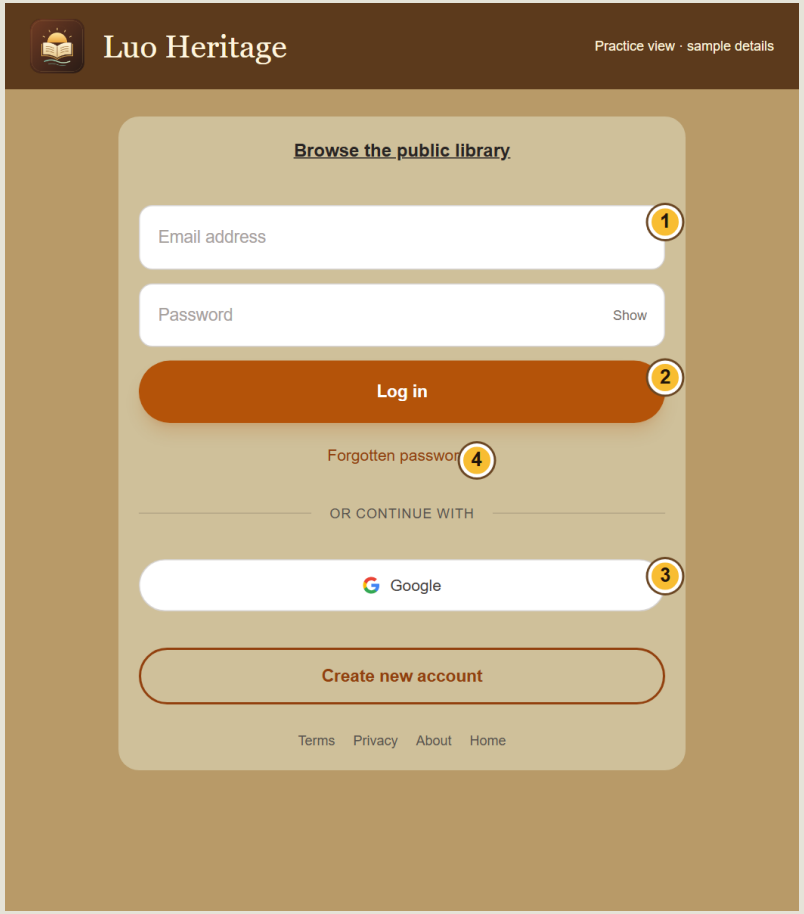

1. Sign in, recover access and find your learning screens.
2. Study lessons and courses, including downloaded text.
3. Join a class, submit work and read teacher feedback.

CHECK: Use the slide numbers to return to a task. The PDF has page bookmarks; PowerPoint has a contents view.

Sign in to your own account

1. Open the Luo Heritage address supplied by your organisation. Choose Sign in or Log in.
2. Enter your email and password, then choose Log in. Check your spelling if it fails.
3. Community members may also use Google. Staff should use the account supplied by their administrator.

Never share your password. Use only an address you trust.

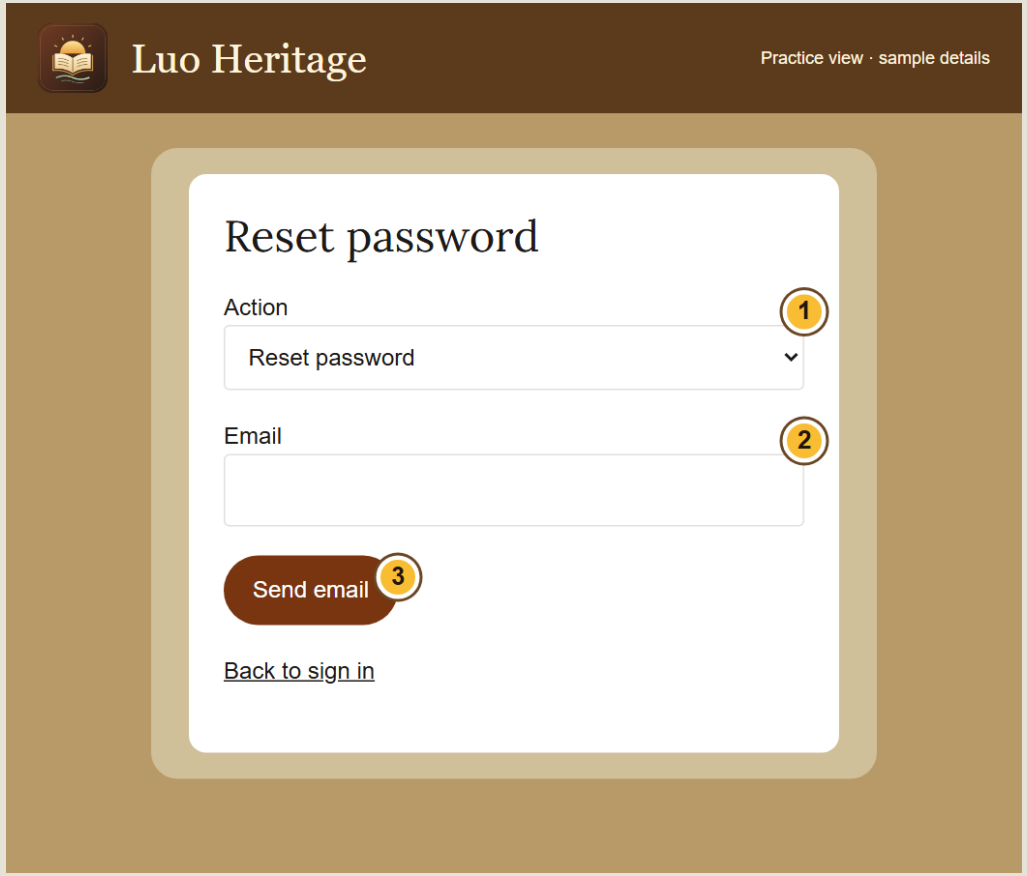

CHECK: Your account or dashboard opens.

Forgot your password?

1. On the sign-in screen, choose Forgotten password? Select Reset password.
2. Enter your account email. Choose Send email, then check your inbox and spam folder.
3. Open the newest reset link within 30 minutes. A link can be used only once.

If no email arrives, contact the person who manages your account. Do not keep requesting links.

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: An account email arrives if the address is eligible and the email service is available.

Choose a new password

1. Open the password reset link from your own inbox.
2. Enter a new password of at least 12 characters. A short phrase with several words is easier to remember.
3. Choose Confirm. Return to sign in and use the new password on each device.

Do not forward the reset link. If it has expired, request a new one.

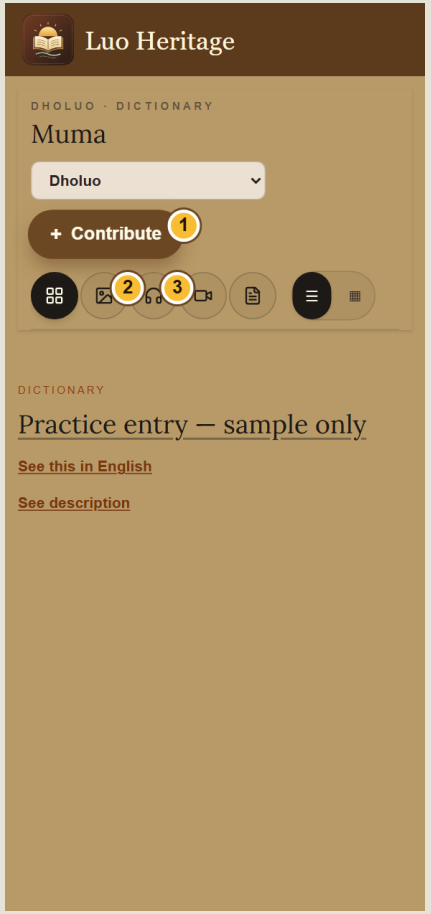

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The password changes and old sign-ins are ended.

Use the library on a phone

1. Open a collection, such as Muma (Dictionary), from the menu.
2. Use the picture, headphones, video or page icon to choose a type of content. The four-square icon shows all types.
3. Choose the list or grid button to change the view. Scroll the entries below the controls.

An empty result can mean there are no published entries of that type. Try All.

CHECK: The collection shows entries matching your chosen filter.

Join a learning course

1. Open Learning pathways & courses. Choose a published course and read its description.
2. Open the course and enroll using the button shown. Start with the available lesson.
3. Use My enrollments to return later. If lessons are locked, complete the earlier lesson and required score first.

If no courses are available, ask your teacher which published course to use.

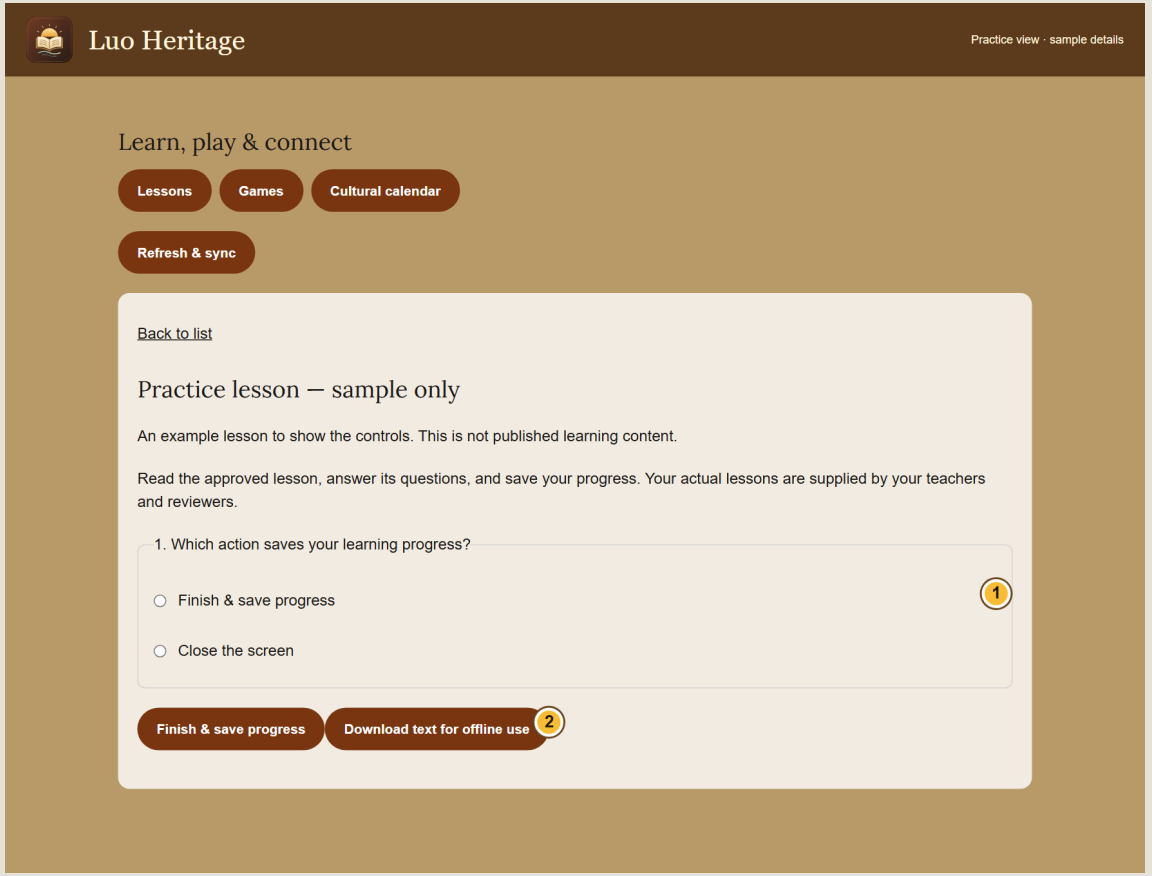

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The course appears among your enrollments and shows your lesson progress.

Open a lesson and keep your progress

1. Choose Lessons, games & calendar. Open a published lesson.
2. Read the lesson and answer its questions. Choose Finish & save progress.
3. Read the result and feedback. Sign in with the same account on another device to keep your learning together.

A score helps you learn; it does not replace a teacher’s review.

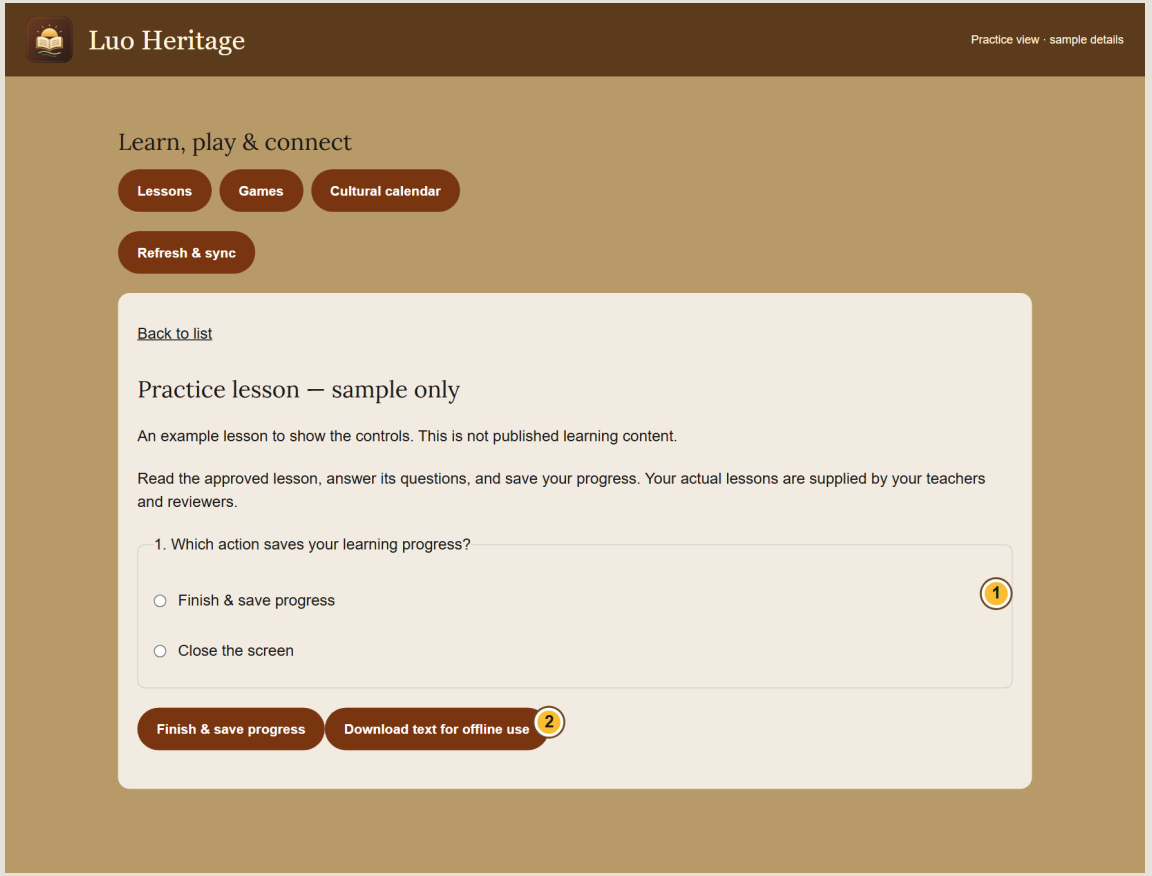

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You see a saved result or a message saying the attempt is waiting to go online.

Prepare to study without internet

1. While connected, open a lesson that allows downloads. Choose Download text for offline use.
2. Keep using the same browser or app profile. Downloaded text can be read without internet for up to seven days.
3. Reconnect and choose Refresh & sync. Keep the app open until waiting attempts have been saved online.

These downloads contain text, not the audio or video files. Some lessons cannot be downloaded.

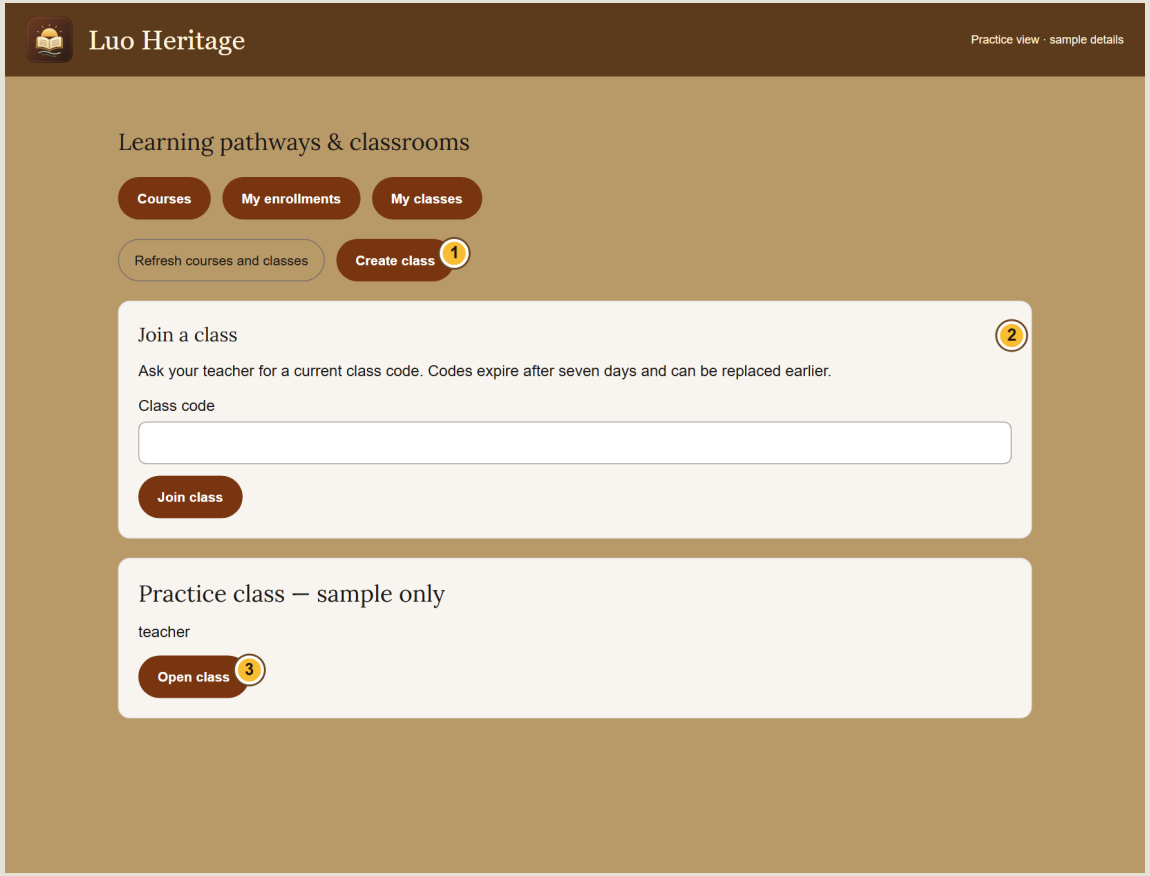

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Permitted lesson text is available offline and saved attempts can synchronize later.

Join a class with your teacher’s code

1. Sign in. Open Teaching & my classes and choose My classes.
2. Ask your teacher for a current code. Enter it under Join a class, then choose Join class.
3. Open the class and read its assignments. Use your own account for all submissions.

Class codes expire after seven days and may be replaced earlier. Ask for a new code if needed.

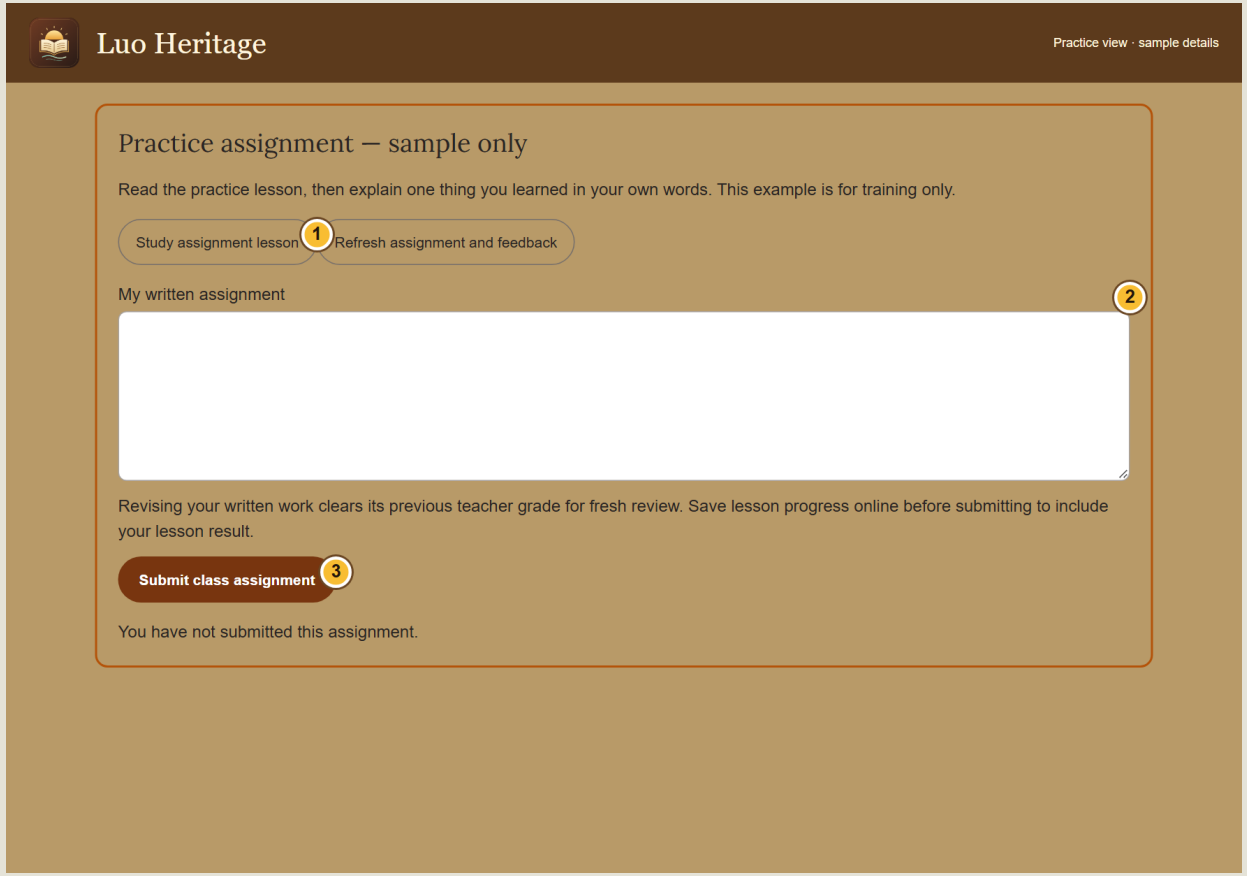

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Your class appears in My classes.

Complete a class assignment

1. Open your class, then choose Open assignment. Read the instructions and due date.
2. Choose Study assignment lesson and complete the lesson. Return to the assignment when ready.
3. Enter the work requested and use the submission button shown. Wait for a saved confirmation.

If the assignment is closed or the lesson unavailable, contact your teacher; do not submit to a different class.

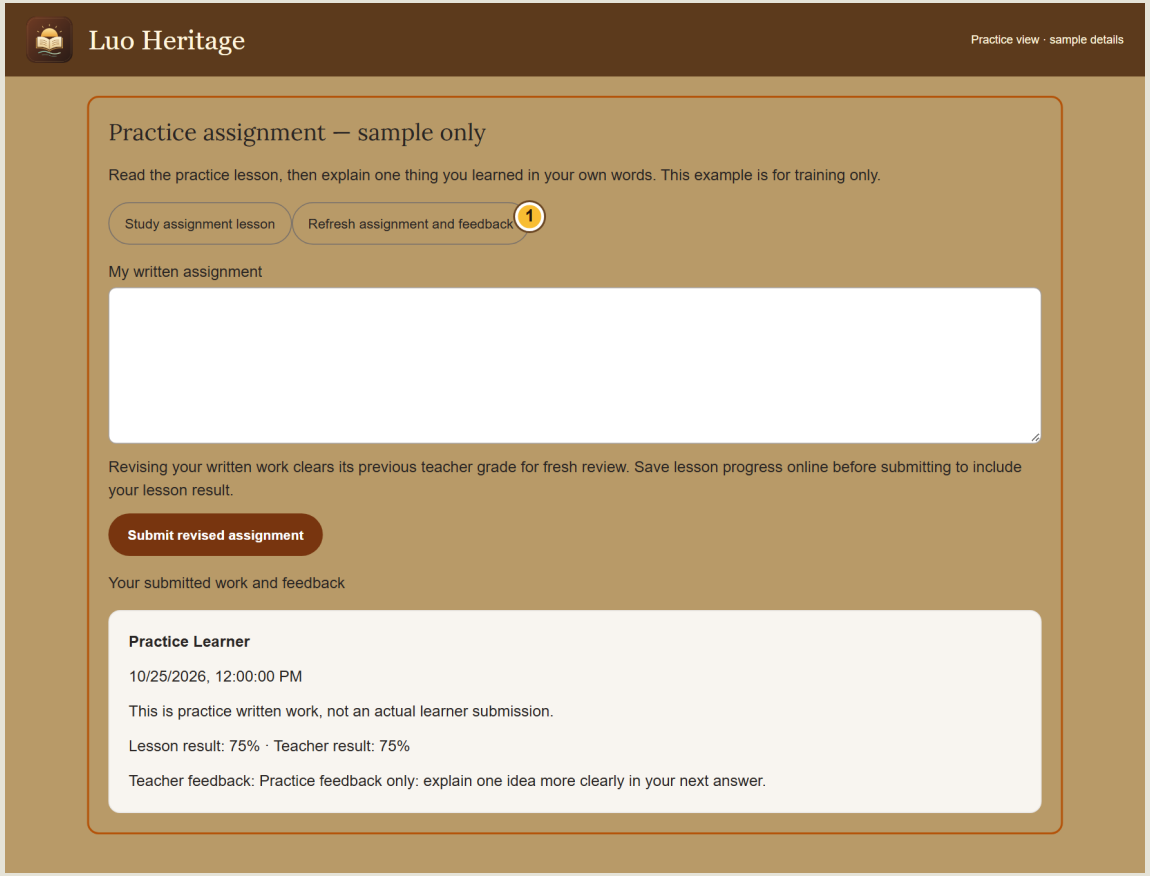

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Your assignment shows your submission rather than an unsaved answer.

Read feedback and try again

1. Open the same class assignment after your teacher reviews it.
2. Choose Refresh assignment and feedback. Read the score and the teacher’s comments.
3. If a new submission is requested and allowed, correct your work and submit it again.

Sending revised written work clears its previous teacher grade so the teacher can review it again.

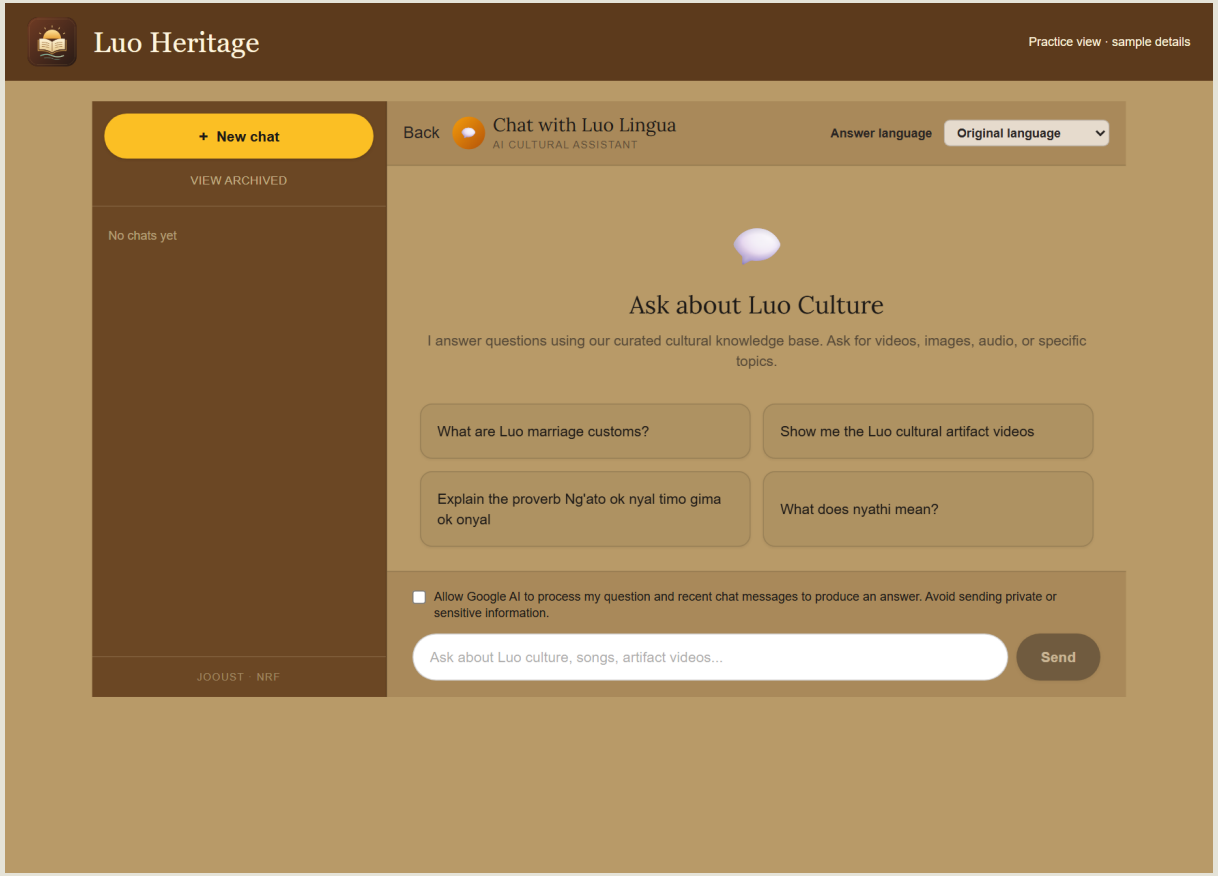

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You know what to improve and which result belongs to you.

Ask the AI chatbot a clear question

1. Open Chat or Chatbot. Choose your answer language and read the processing permission notice.
2. If you agree, allow AI processing. Ask one clear question and wait for the response.
3. Open any sources provided. Ask a follow-up question if you need a simpler explanation.

AI can make mistakes. Do not enter private interviews, passwords or learners' personal information.

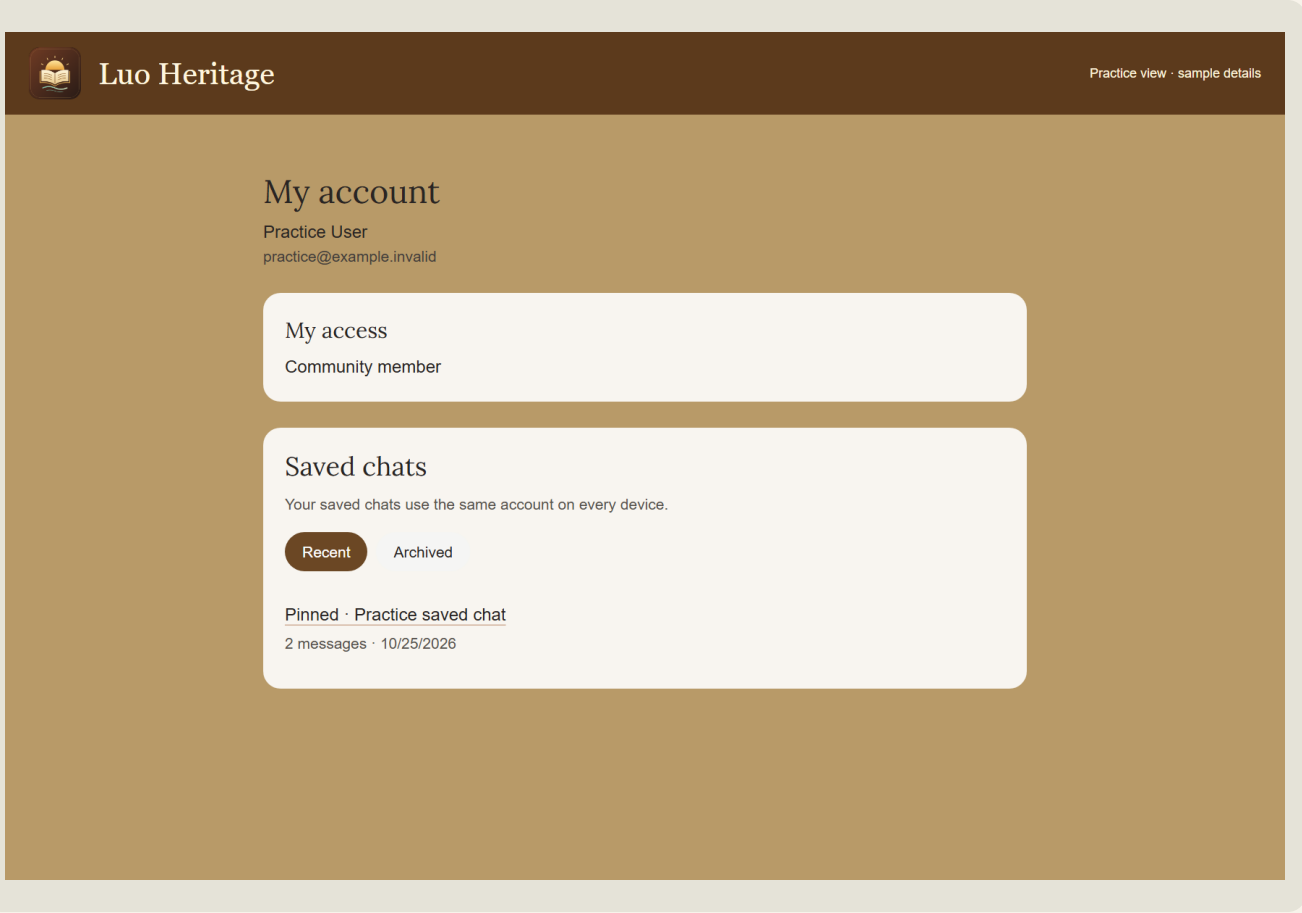

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You can read an answer and inspect any linked sources.

Find your access and saved chats

1. Open the account menu and choose My account & saved chats.
2. Read My access to check your assigned role. Open a chat from Recent or Archived.
3. For your name, sessions or notifications, open Profile, sessions & notifications from the menu.

Choosing an interest such as teacher or researcher does not give staff access.

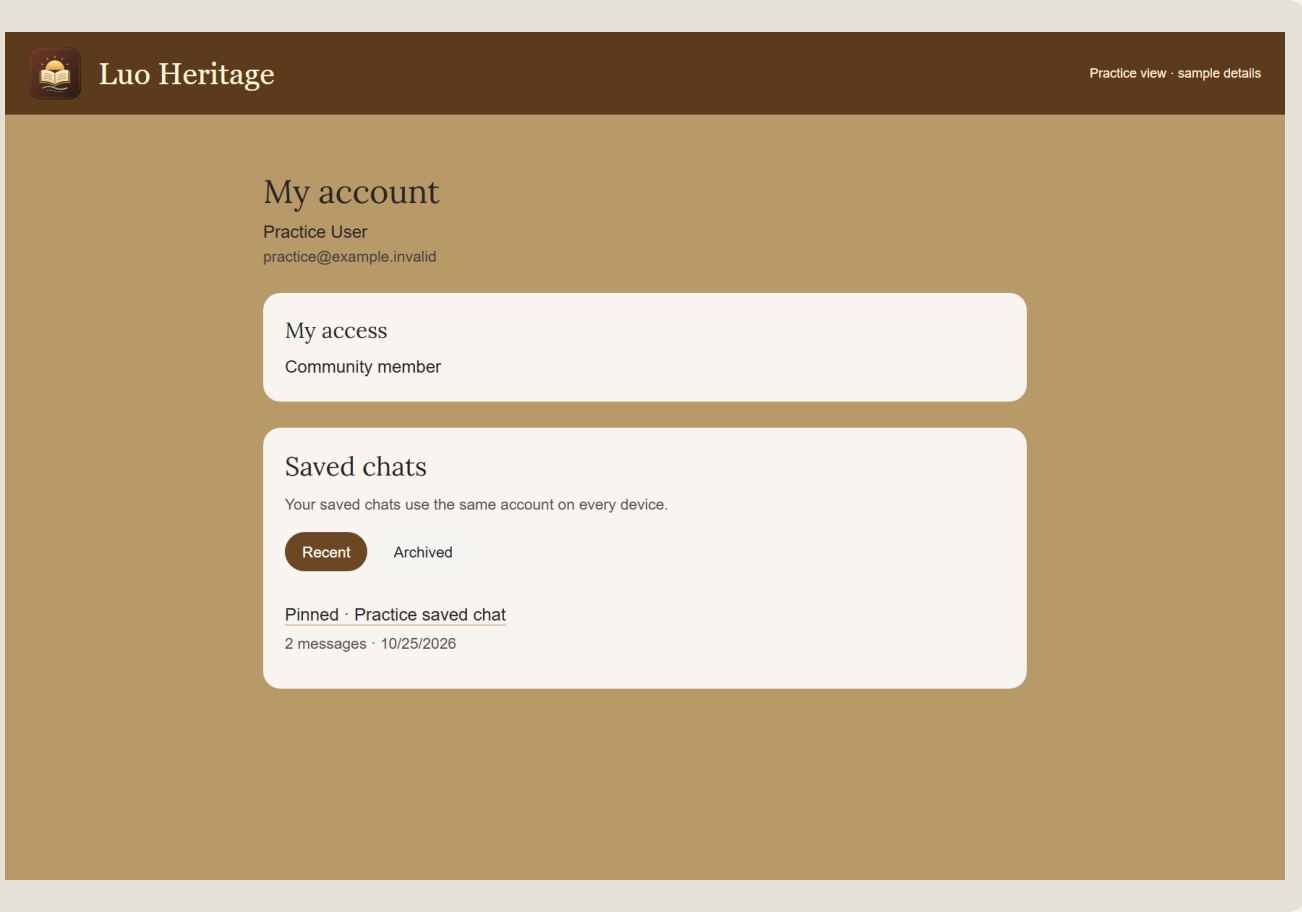

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You can find your own account details and earlier conversations.

Keep your own learning record

1. Use the same account on your phone and computer.
2. Before changing devices, reconnect and use Refresh & sync for waiting attempts.
3. Do not leave a class just to change devices: leaving can delete your work in that class.

Tell your teacher if you accidentally created two accounts.

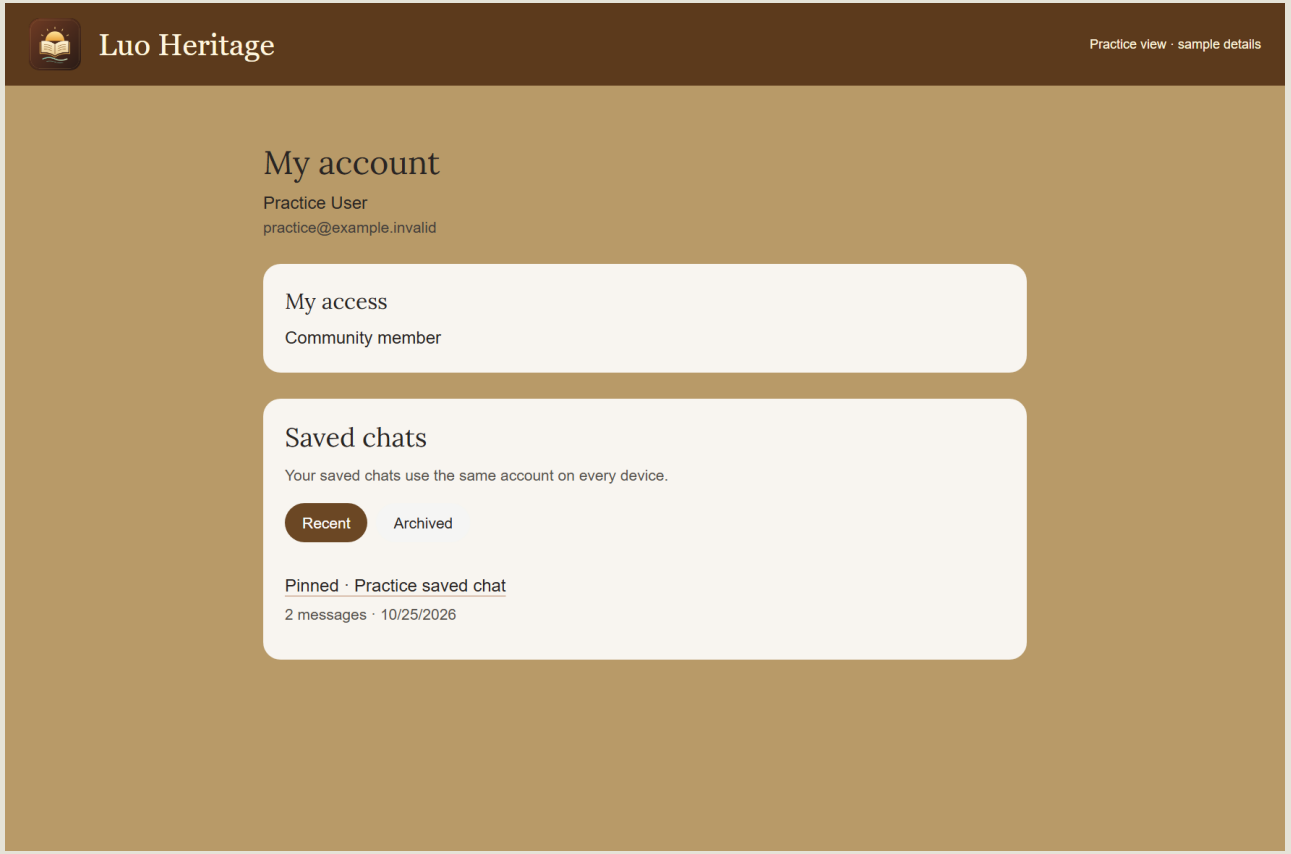

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Your work stays linked to the intended account.

Protect your account and other people

1. Use your own account. Sign out on a shared computer or phone.
2. Do not copy private interviews, class results or account lists into public chats or messages.
3. If a screen shows information you should not see, stop and tell the account administrator.

Send support the screen name and error message, never your password or a reset link.

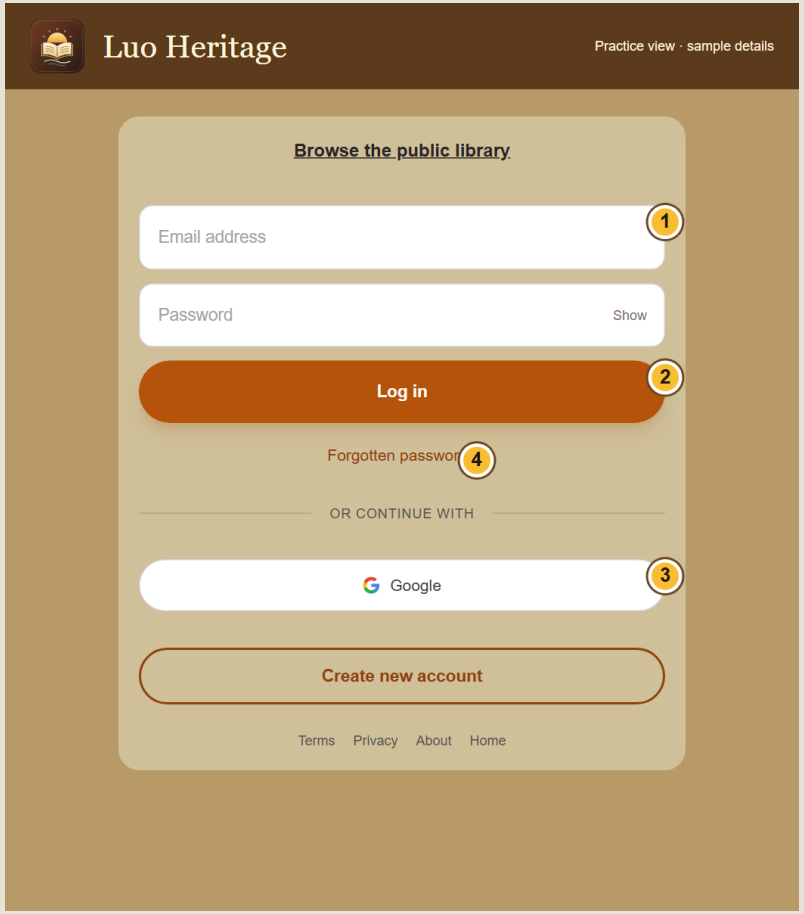

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Your work remains linked to the right person and private information stays protected.

When something does not work

1. Check your internet connection. Read the message on screen before trying again.
2. If your sign-in has expired, sign in again. If a button is missing, ask which role and language you have.
3. If it still fails, note the time, screen, button and exact message. Send these to your account administrator.

Before repeating an upload or submission, check whether the first attempt was already saved.

CHECK: You can explain the problem clearly without exposing private information.

Try it yourself: your readiness check

1. Enroll in the course your teacher names and open its first available lesson.
2. Join your class with a current code and find the assignment instructions.
3. Save one practice result and show where you would read teacher feedback.

Try → **Check** → **Ask if unsure**

Use only approved practice material. Do not publish, delete accounts or change live settings just to practise.

CHECK: You are ready for routine work when you can complete these steps without help.
