

LUO HERITAGE / SELF-STUDY SLIDES

LANGUAGE • CULTURE • LIVING MEMORY

Uploaders

Prepare accurate drafts and send them for review

You will be able to add the right material, record permission and follow its review status.

READ • TRY • CHECK

25 October 2026 | Edition 1.0

Start here: learn at your own pace

1. Read a slide, try its action, then check the result. Tap means click. Gold circles mark important controls in the screenshots.
2. Use your own account. Your organisation supplies the correct website address and any staff access.
3. Screenshots show the current interface with practice details. Actual names, content and menus may differ.

Read the step → **Try it yourself** → **Check the result**

If your menu looks different, first check My access. Do not ask someone to lend you their account.

CHECK: You will be able to add the right material, record permission and follow its review status.

What this guide covers

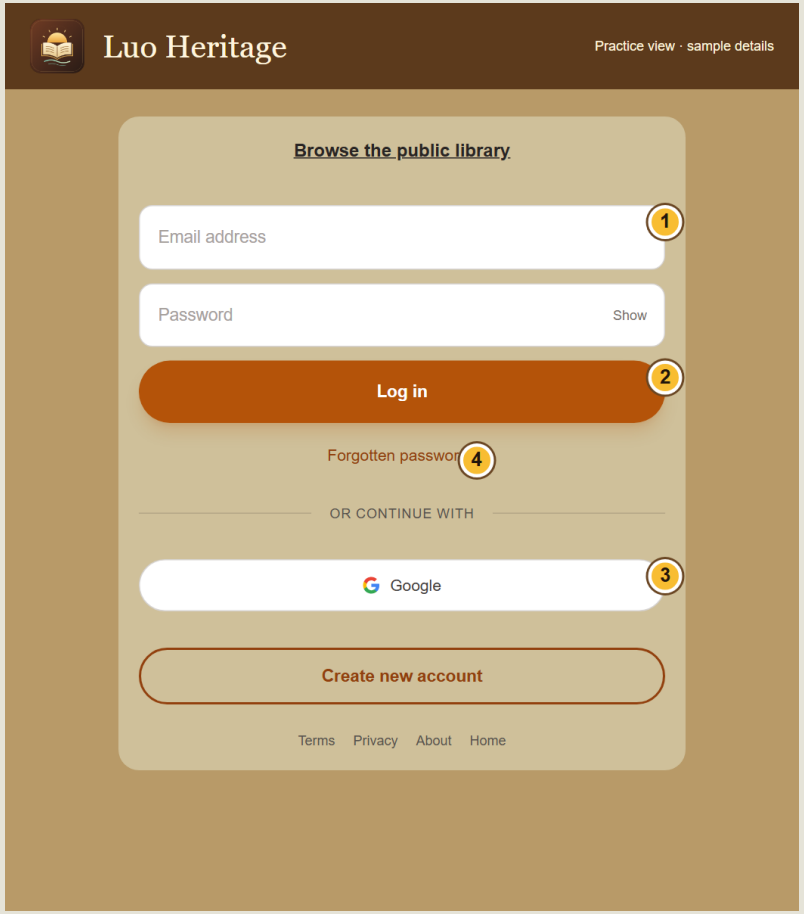

1. Confirm your assigned language and find Upload Content.
2. Prepare text, attachments, source details and private drafts.
3. Submit once and follow any requested corrections.

CHECK: Use the slide numbers to return to a task. The PDF has page bookmarks; PowerPoint has a contents view.

Sign in to your own account

1. Open the Luo Heritage address supplied by your organisation. Choose Sign in or Log in.
2. Enter your email and password, then choose Log in. Check your spelling if it fails.
3. Community members may also use Google. Staff should use the account supplied by their administrator.

Never share your password. Use only an address you trust.

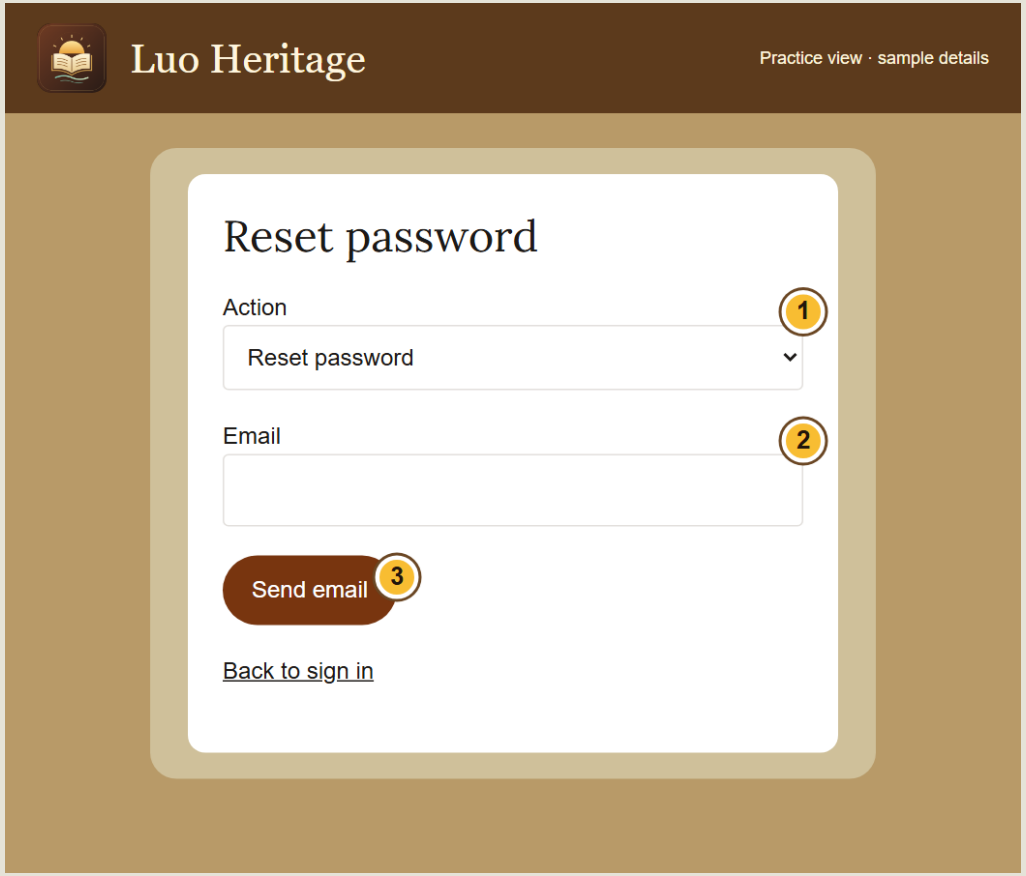

CHECK: Your account or dashboard opens.

Forgot your password?

1. On the sign-in screen, choose Forgotten password? Select Reset password.
2. Enter your account email. Choose Send email, then check your inbox and spam folder.
3. Open the newest reset link within 30 minutes. A link can be used only once.

If no email arrives, contact the person who manages your account. Do not keep requesting links.

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: An account email arrives if the address is eligible and the email service is available.

Choose a new password

1. Open the password reset link from your own inbox.
2. Enter a new password of at least 12 characters. A short phrase with several words is easier to remember.
3. Choose Confirm. Return to sign in and use the new password on each device.

Do not forward the reset link. If it has expired, request a new one.

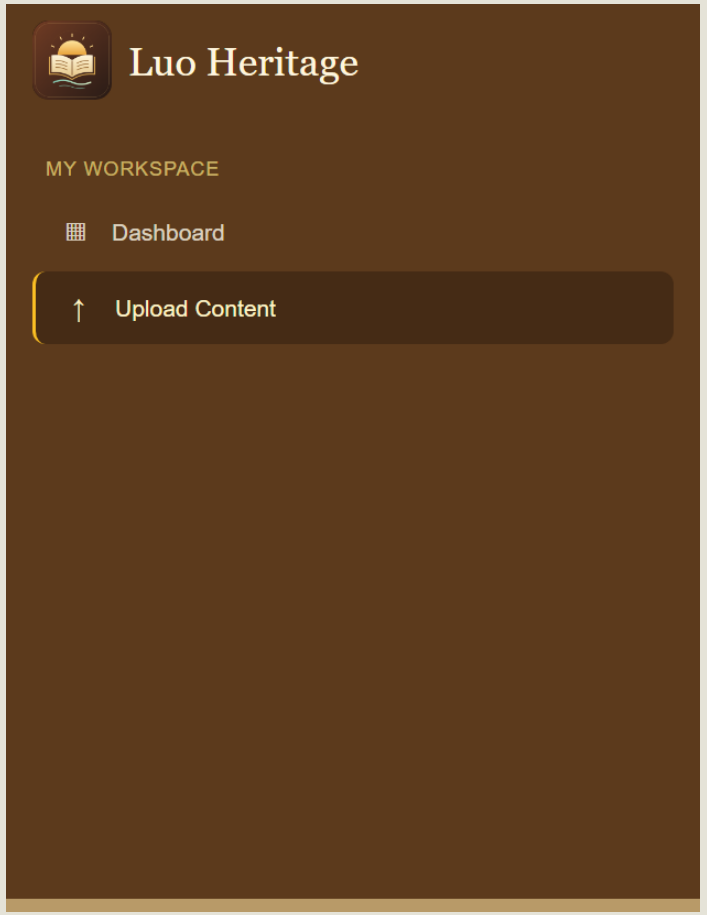

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The password changes and old sign-ins are ended.

Open your uploading workspace

1. Sign in using the account supplied to you. Open the admin dashboard.
2. Choose Upload Content. Work only in the language assigned to you.
3. If no collection can be created, check your assigned language with the administrator.

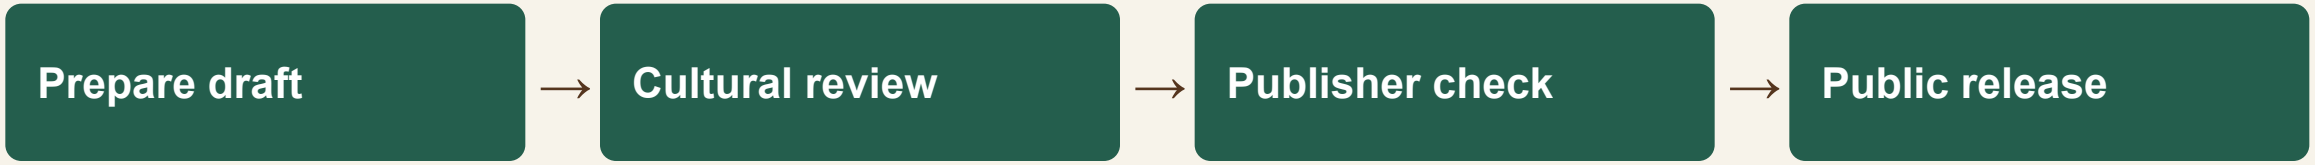

Uploaders normally see Dashboard and Upload Content. Other duties require a separate assignment.

CHECK: Your content list opens for the languages you are allowed to upload.

How a contribution reaches readers

1. The uploader or contributor prepares a draft and submits it.
2. A cultural reviewer checks accuracy. An editor makes requested corrections and returns the item for review.
3. A publisher checks the final item and permission. Only an approved public release becomes visible to readers.

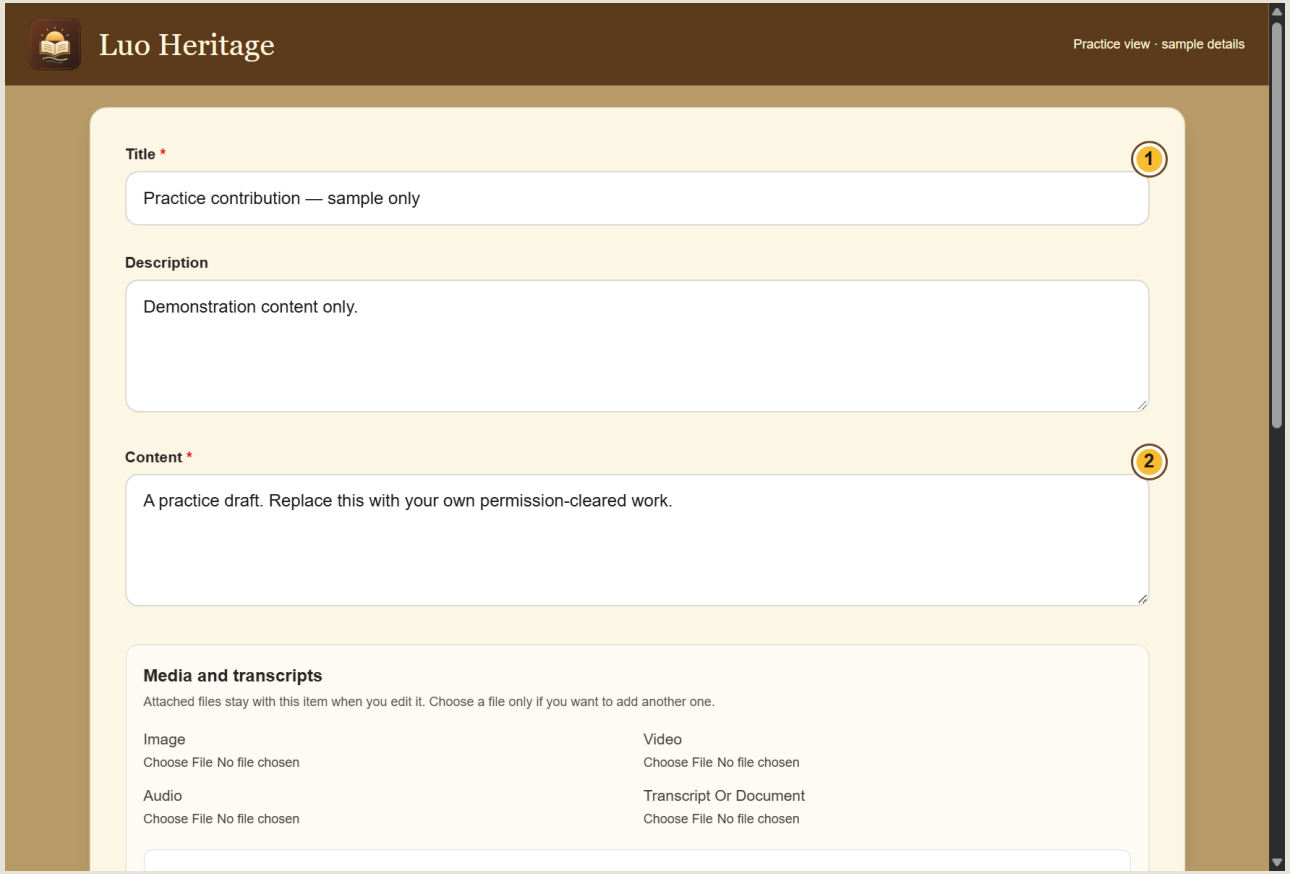

Different people should perform the independent checks. Do not approve your own work.

CHECK: An item may return for changes. Drafts and private approvals are not public publication.

Prepare before you upload

1. Check the collection, language, title and file names before starting.
2. Confirm who supplied the material and what permission was given. Keep evidence through the organisation’s approved process.
3. Use a draft when a meaning, translation or permission is uncertain. Do not guess.

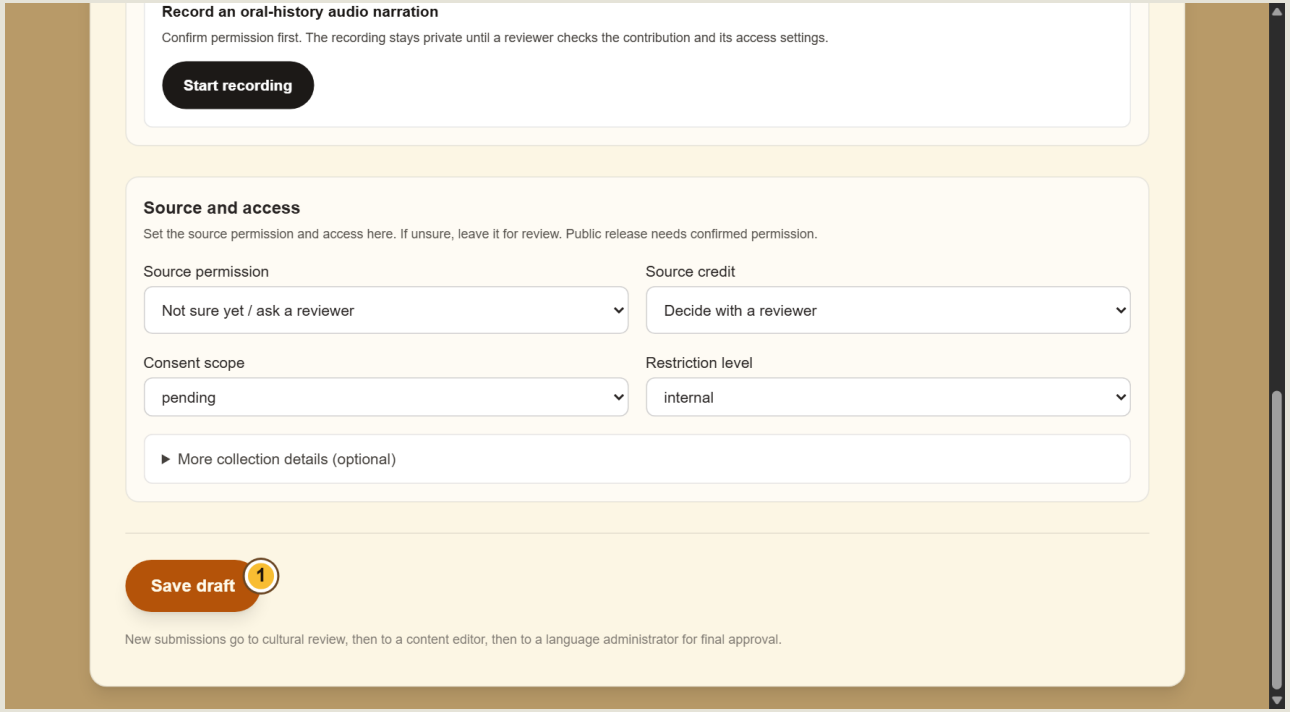

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You have the information needed for a useful draft.

Enter the contribution details

1. Open the appropriate new-content form from Upload Content.
2. Enter the title and all required collection fields. Read the text again for missing words.
3. Add a clear description and choose Save draft. An admin upload is a draft until submitted for review.

Admin forms use Save draft or Save changes. Community forms use Save private draft and Submit for reviewer.

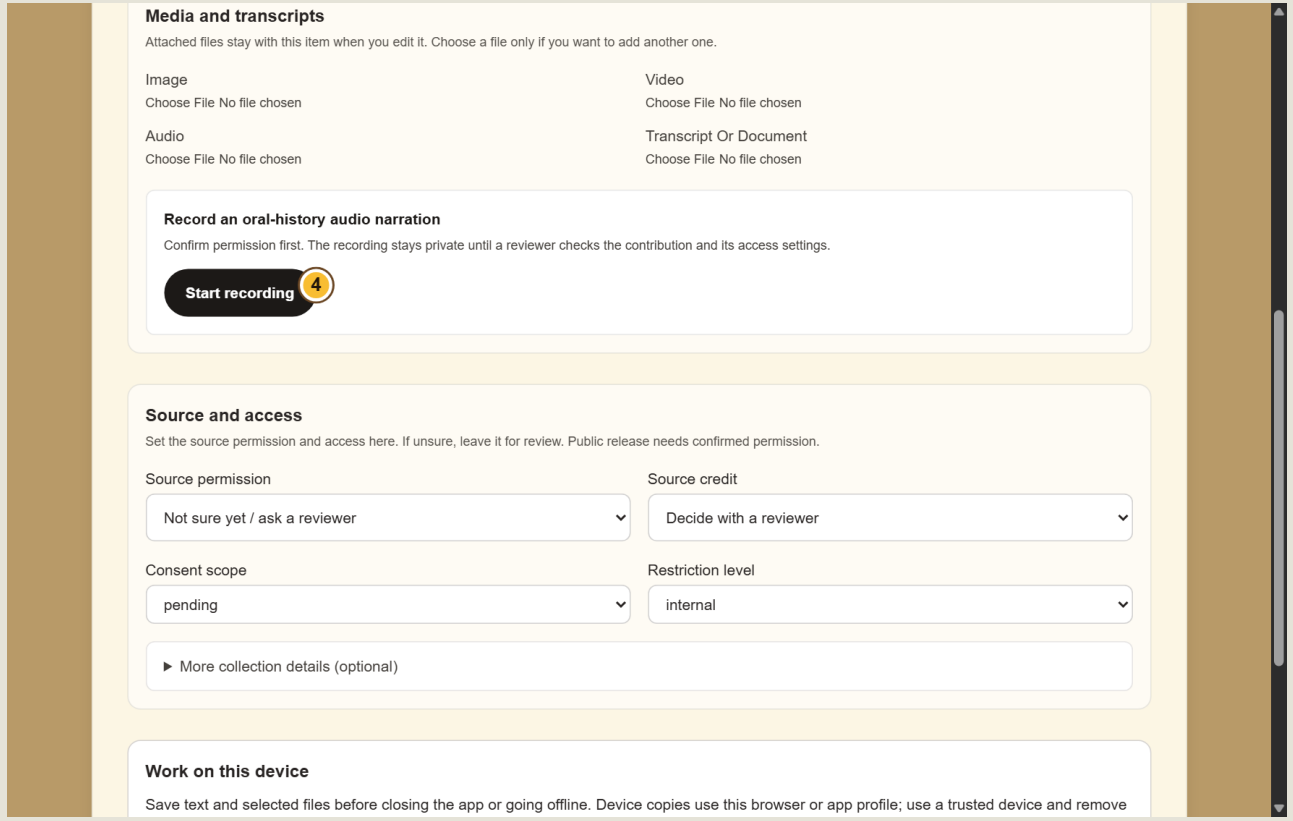

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The online draft appears in your content list.

Add pictures, audio or documents

1. Find Media and transcripts. Choose a file under the matching type.
2. For an oral history, confirm permission before choosing Start recording. Stop when finished.
3. Check that the correct files are selected. Keep the app open while an upload is in progress.

If microphone access is refused, allow it in your device settings or attach an existing recording.

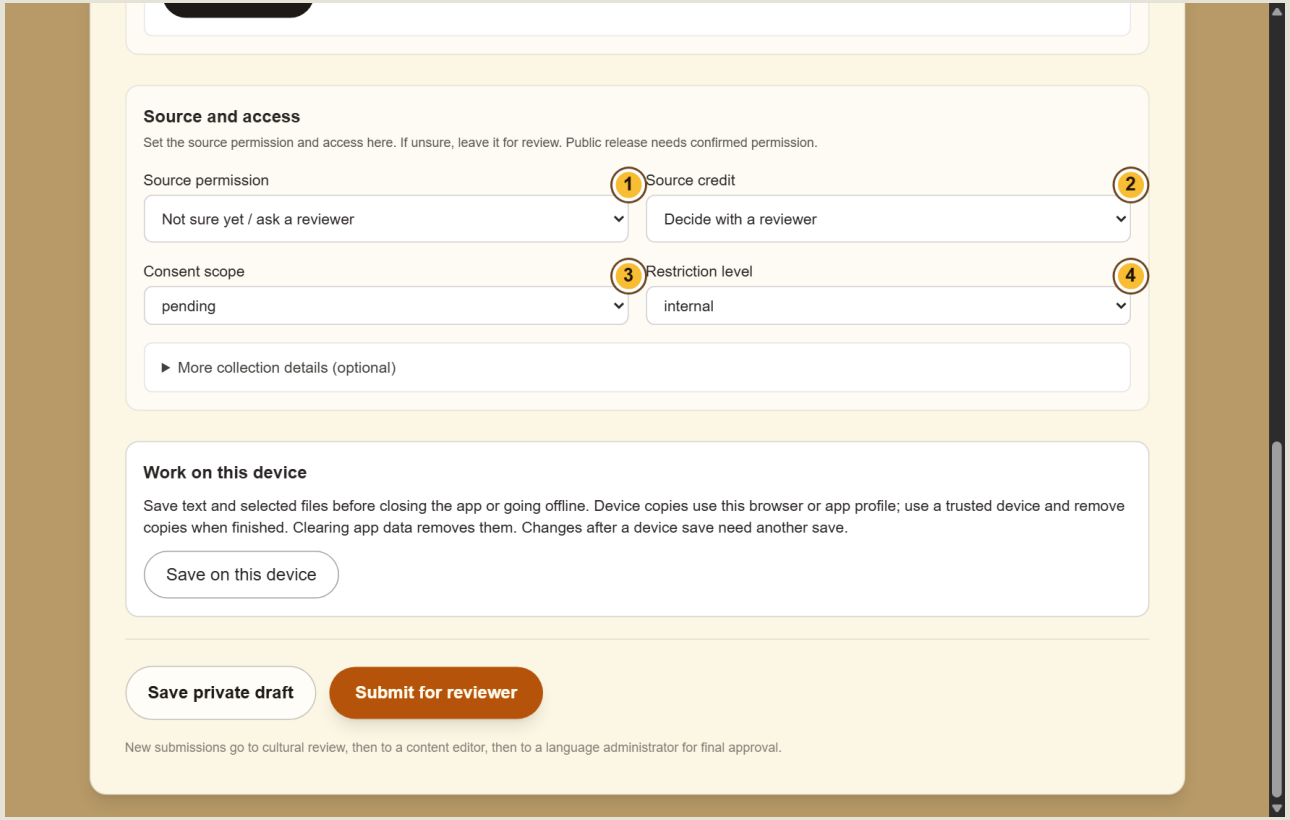

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The selected files stay with the contribution when it is saved successfully.

Check permission before sharing

1. Under Source and access, choose Source permission. If unsure, leave Not sure yet / ask a reviewer.
2. Choose how to credit the source. Use a person’s name only when they agree.
3. Keep restricted, sacred or research-only material private. Ask a reviewer before changing access.

Permission to collect material is not automatically permission to publish it.

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The draft records who may use the material and how the source should be credited.

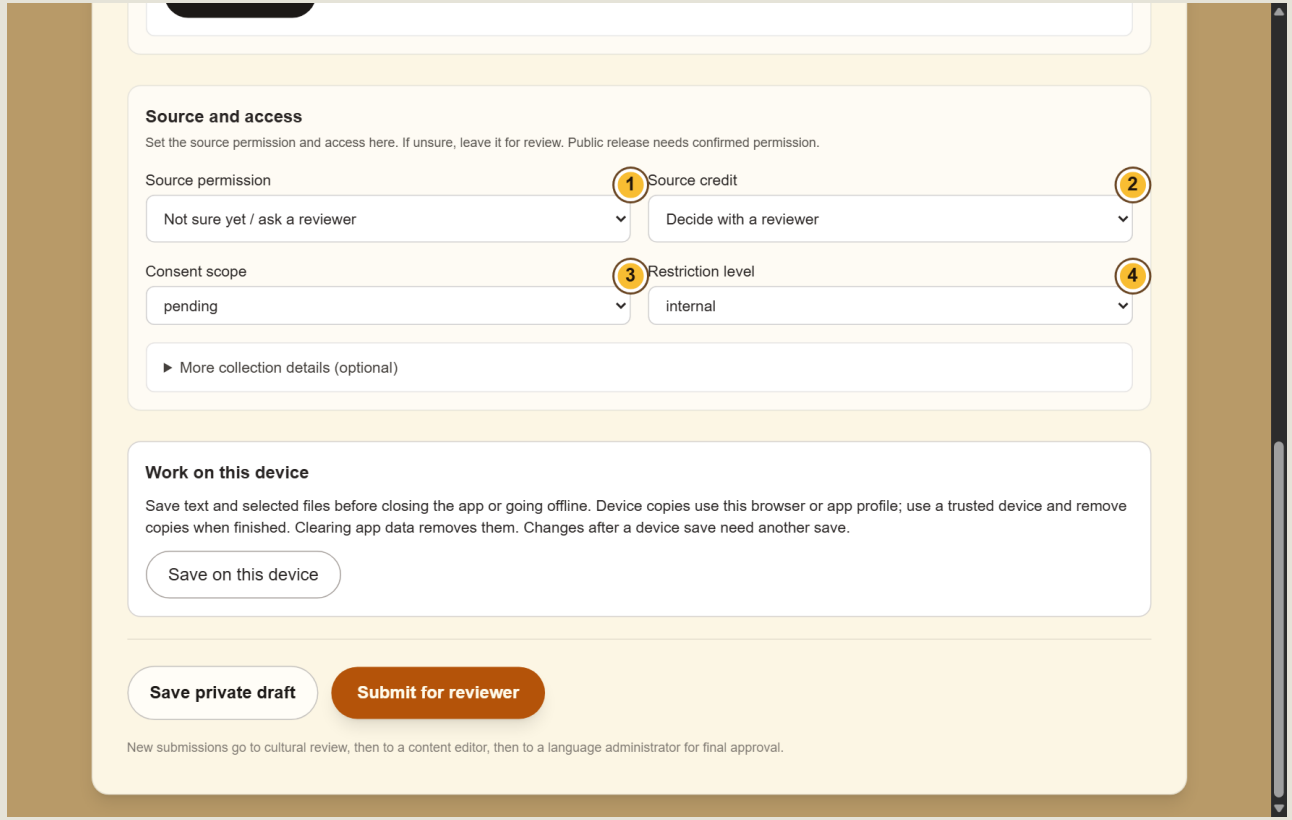

What the permission labels mean

1. Source permission: has the source agreed to the proposed use? Choose Not sure yet when you do not know.

2. Consent scope: what use was agreed? Public excerpt means an approved public part; research only and teaching have different limits.

3. Restriction level: who may see it? Internal and restricted are not public. Sacred material needs the collection owner's special care.

If the permission record is unclear, keep the item private and ask the responsible reviewer.

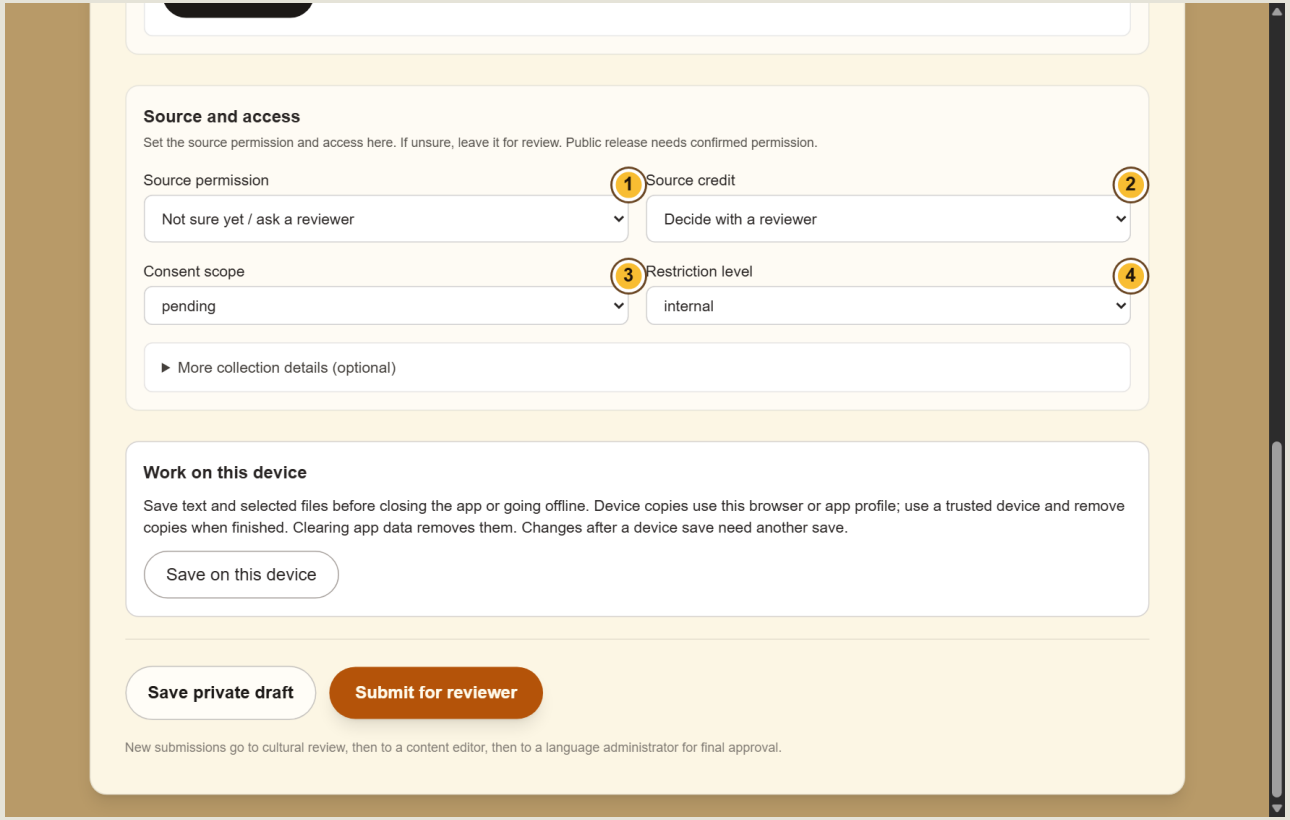

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You understand the labels before you change them.

Add collection details when required

1. Open the extra source or collection details section.
2. Record the known collection date, source reference, location and collector. Leave unknown details for review.
3. Do not put personal phone numbers, sacred site coordinates or private participant details in a public description.

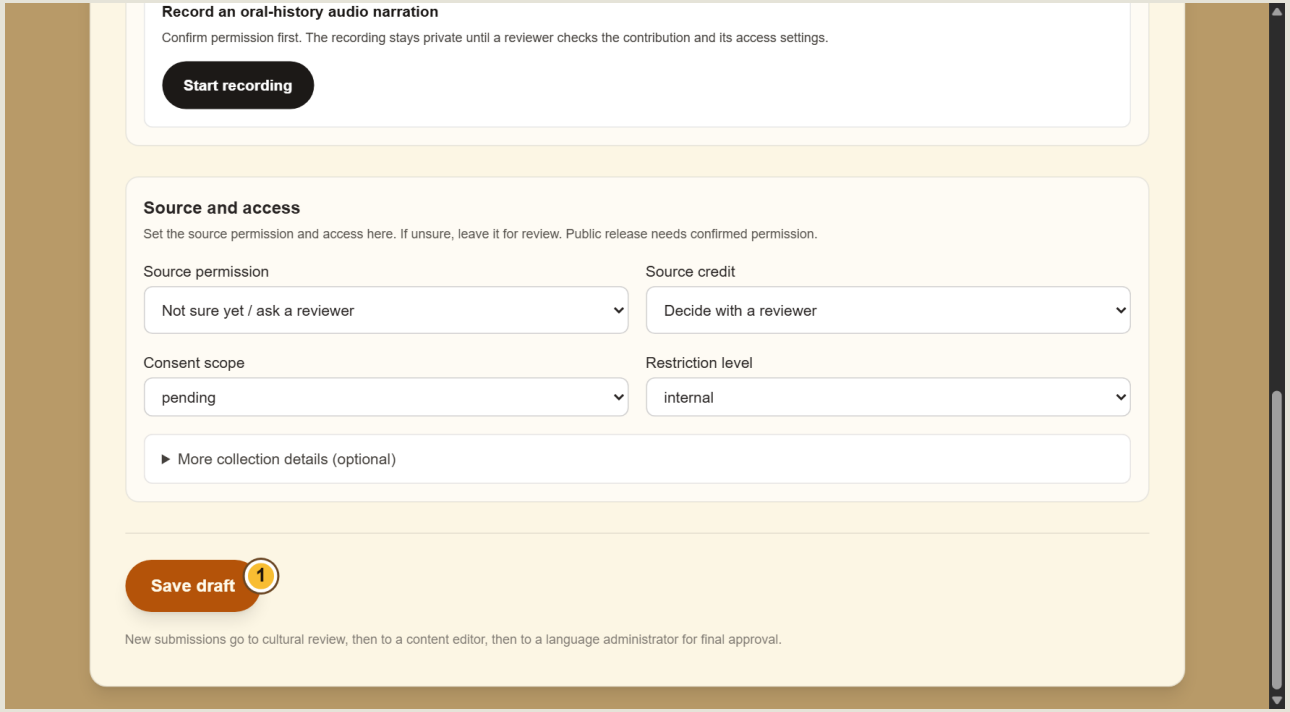

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Reviewers can understand where the material came from without exposing private details.

Know where your draft is saved

1. In Upload Content, Save draft or Save changes saves the item online. Wait for confirmation and check the list.
2. The community Contribute & submissions form also offers device copies. That is a separate route from the admin upload form.
3. A device copy is never submitted automatically. To send an admin draft, use Send to cultural review in the online list.

Keep the original file until the online item and its attachments have been checked.

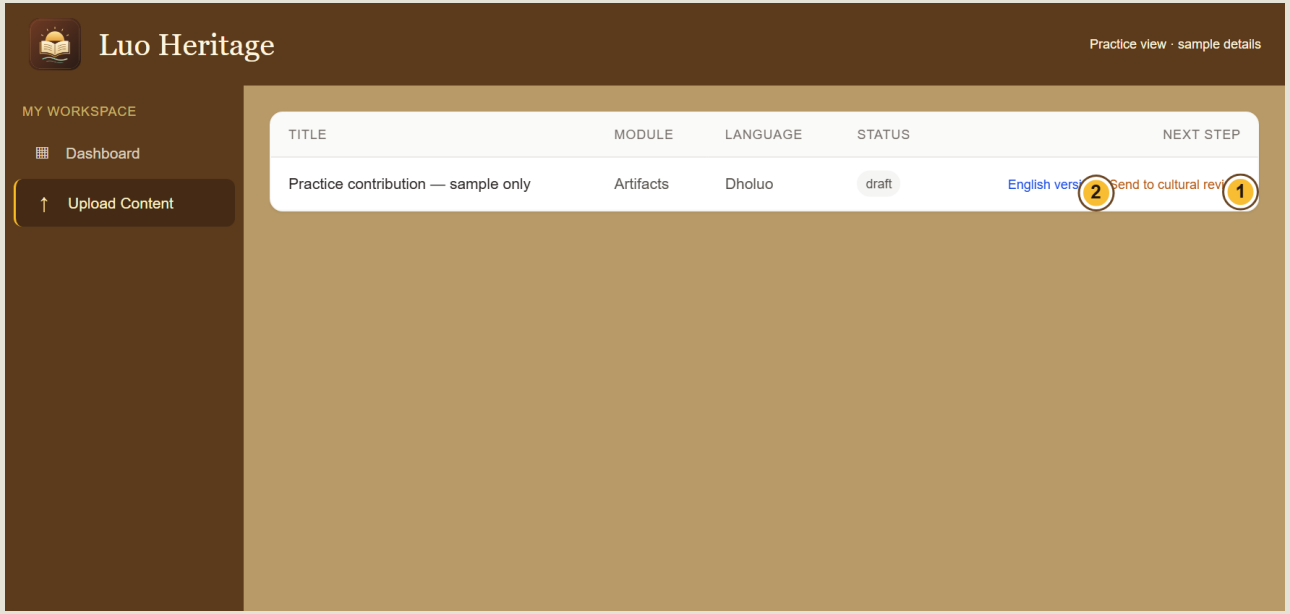

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You know which copy is saved and which action sends it for review.

Send the online draft for cultural review

1. Return to Upload Content and find the saved draft.
2. Choose Send to cultural review beside the intended item. Send it only once.
3. Refresh the list and check its status. You cannot publish an item using only the uploader role.

The English version link opens a separate translation. Complete it where required before review.

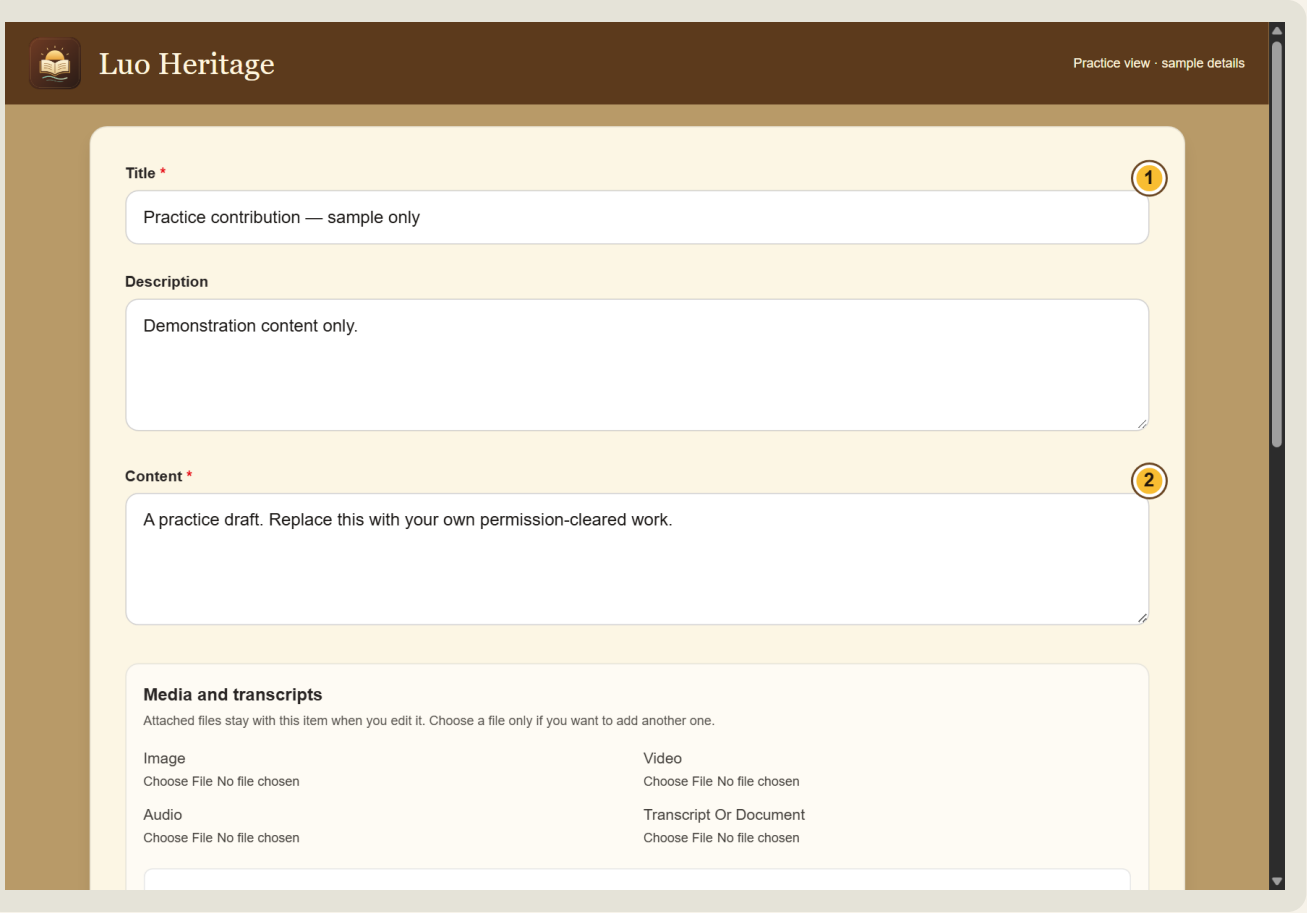

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The draft is marked as submitted or under review.

Respond to a correction request

1. Find the returned item and read the reviewer’s notes.
2. Open the editable draft, make only the necessary corrections and save.
3. Submit the corrected item again or follow the editor’s handover. Tell the reviewer what changed.

Editors use Editor Queue. Uploaders use the editable items available in Upload Content.

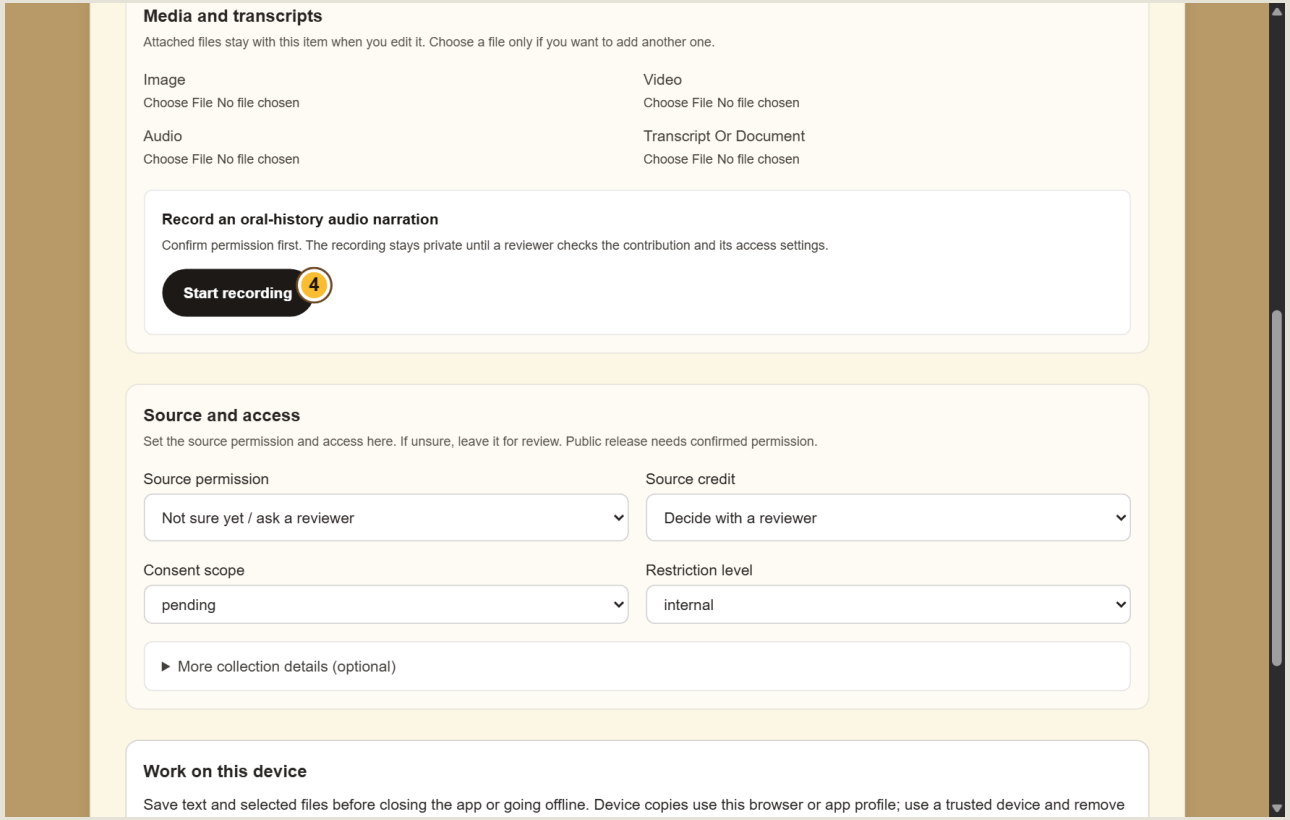

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The corrected version is ready for another independent check.

Check files before you finish

1. Reopen the saved item and inspect every attached file.
2. If an upload failed, reconnect and check whether the text or file was already saved before retrying.
3. Keep your original source file until the organisation confirms it is safely stored.

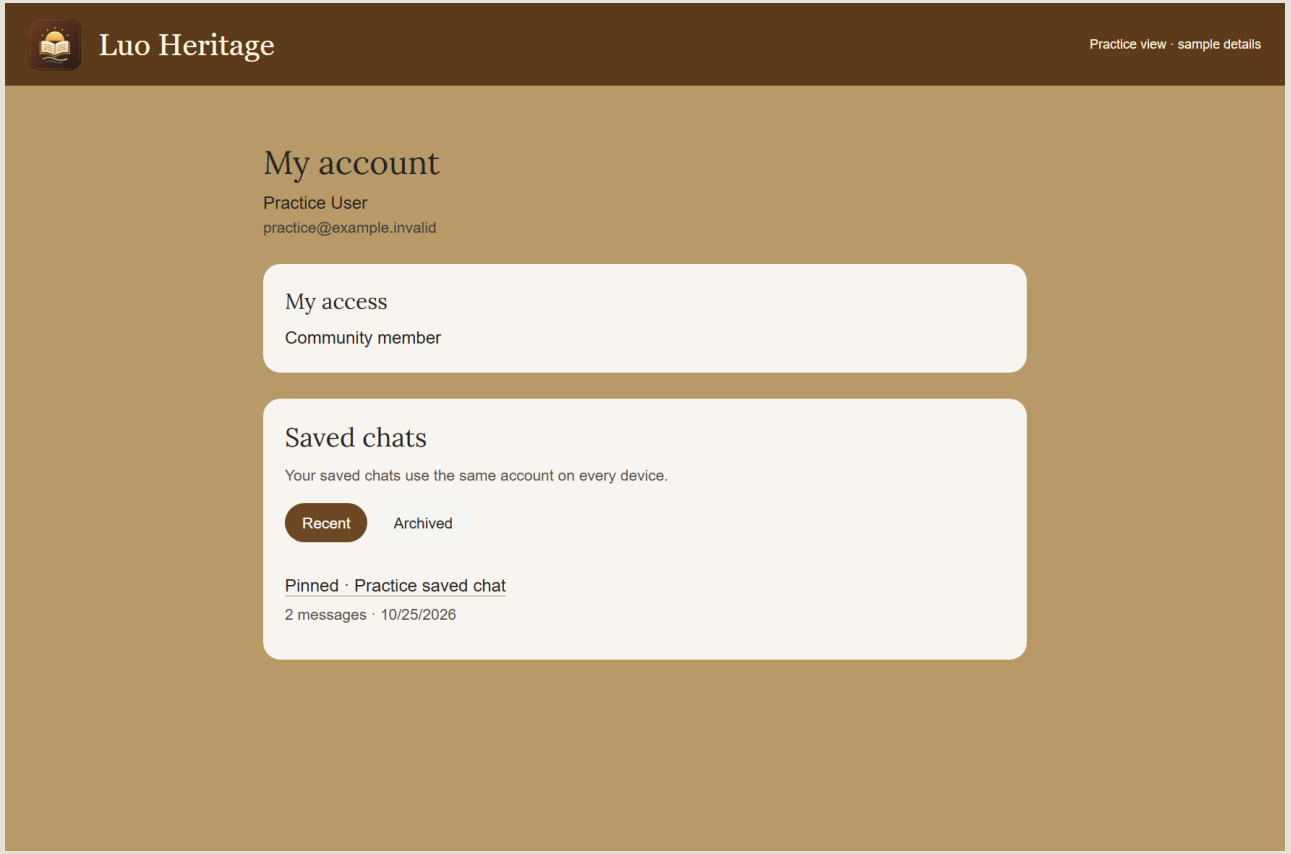

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The item has the intended files and no accidental duplicate uploads.

Protect your account and other people

1. Use your own account. Sign out on a shared computer or phone.
2. Do not copy private interviews, class results or account lists into public chats or messages.
3. If a screen shows information you should not see, stop and tell the account administrator.

Send support the screen name and error message, never your password or a reset link.

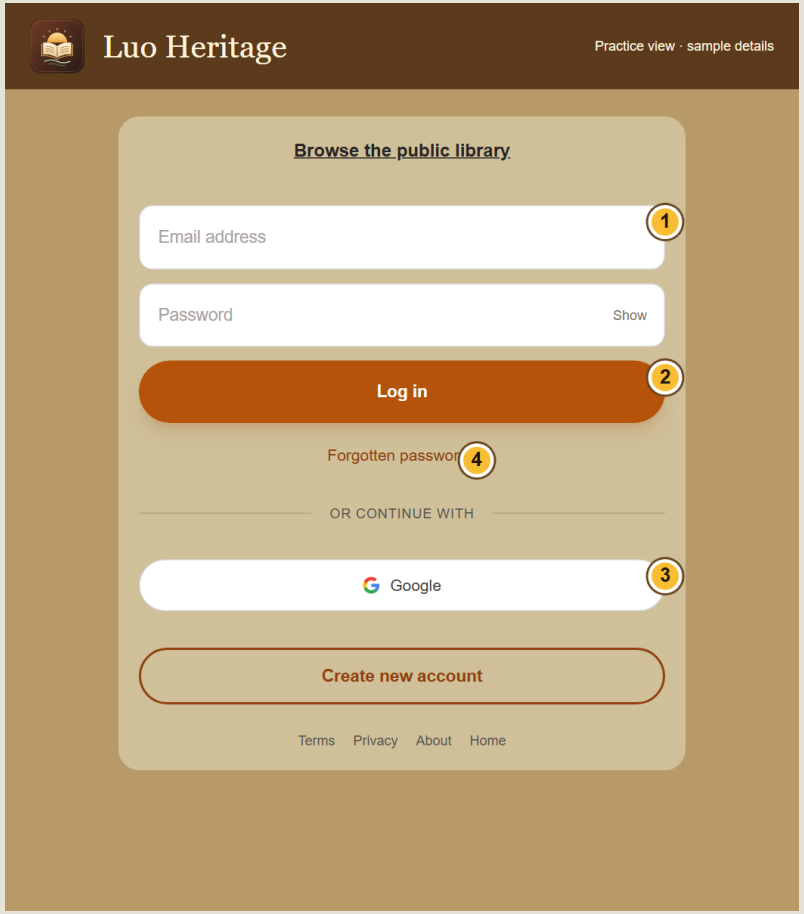

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Your work remains linked to the right person and private information stays protected.

When something does not work

1. Check your internet connection. Read the message on screen before trying again.
2. If your sign-in has expired, sign in again. If a button is missing, ask which role and language you have.
3. If it still fails, note the time, screen, button and exact message. Send these to your account administrator.

Before repeating an upload or submission, check whether the first attempt was already saved.

CHECK: You can explain the problem clearly without exposing private information.

Try it yourself: your readiness check

1. Locate your assigned collection and create a private practice draft.
2. Explain the permission setting you would choose when permission is uncertain.
3. Show where you would submit the draft, and explain why you cannot publish it yourself.

Try → **Check** → **Ask if unsure**

Use only approved practice material. Do not publish, delete accounts or change live settings just to practise.

CHECK: You are ready for routine work when you can complete these steps without help.
