LANGUAGE • CULTURE • LIVING MEMORY

Content editors

Make clear corrections and return work for review

You will be able to correct content without bypassing the review process.

READ • TRY • CHECK

25 October 2026 | Edition 1.0

Start here: learn at your own pace

1. Read a slide, try its action, then check the result. Tap means click. Gold circles mark important controls in the screenshots.
2. Use your own account. Your organisation supplies the correct website address and any staff access.
3. Screenshots show the current interface with practice details. Actual names, content and menus may differ.

Read the step → **Try it yourself** → **Check the result**

If your menu looks different, first check My access. Do not ask someone to lend you their account.

CHECK: You will be able to correct content without bypassing the review process.

What this guide covers

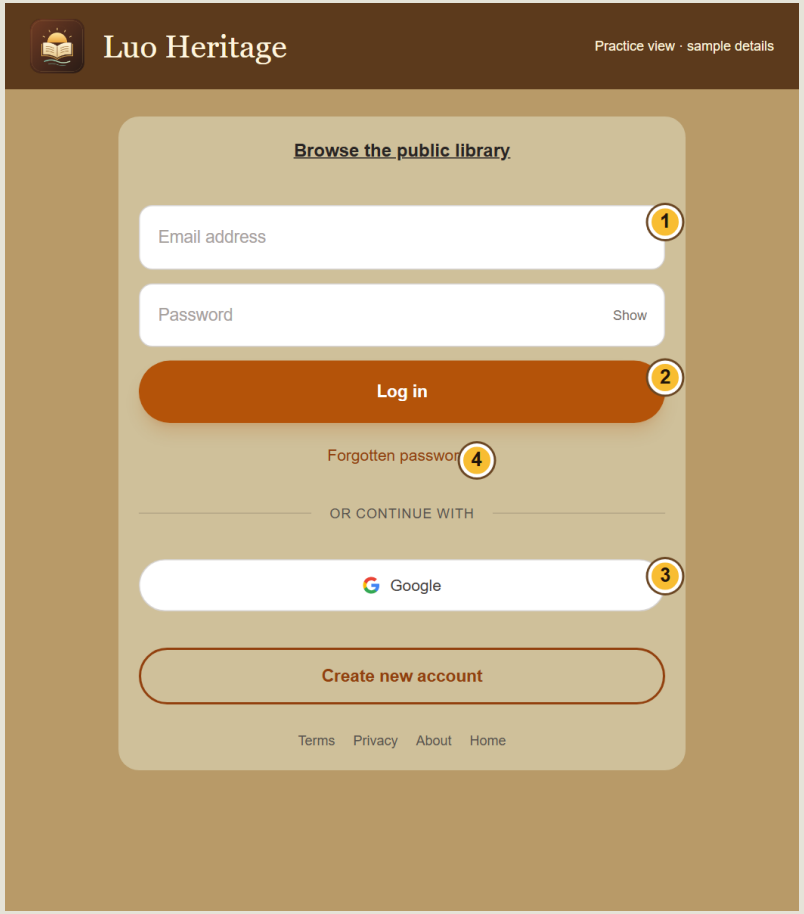

1. Find returned items in Editor Queue.
2. Correct text, translations and files while protecting the source.
3. Save the changed version and return it for cultural review.

CHECK: Use the slide numbers to return to a task. The PDF has page bookmarks; PowerPoint has a contents view.

Sign in to your own account

1. Open the Luo Heritage address supplied by your organisation. Choose Sign in or Log in.
2. Enter your email and password, then choose Log in. Check your spelling if it fails.
3. Community members may also use Google. Staff should use the account supplied by their administrator.

Never share your password. Use only an address you trust.

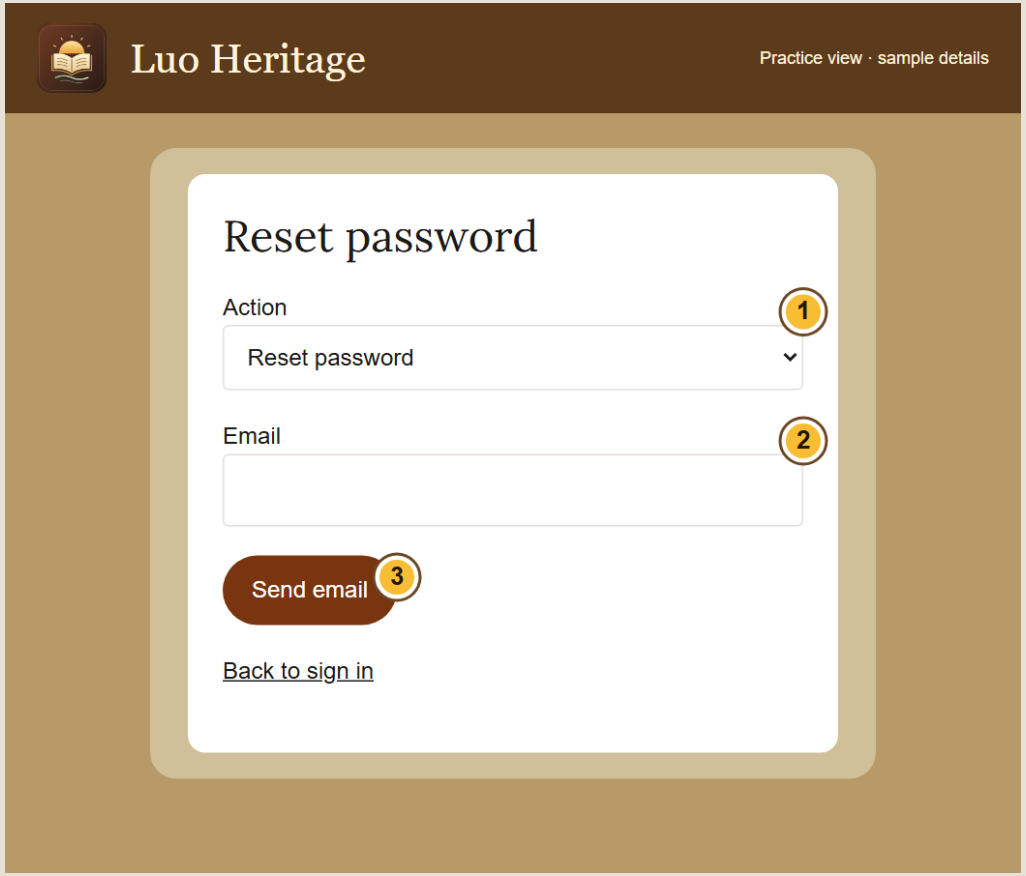

CHECK: Your account or dashboard opens.

Forgot your password?

1. On the sign-in screen, choose Forgotten password? Select Reset password.
2. Enter your account email. Choose Send email, then check your inbox and spam folder.
3. Open the newest reset link within 30 minutes. A link can be used only once.

If no email arrives, contact the person who manages your account. Do not keep requesting links.

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: An account email arrives if the address is eligible and the email service is available.

Choose a new password

1. Open the password reset link from your own inbox.
2. Enter a new password of at least 12 characters. A short phrase with several words is easier to remember.
3. Choose Confirm. Return to sign in and use the new password on each device.

Do not forward the reset link. If it has expired, request a new one.

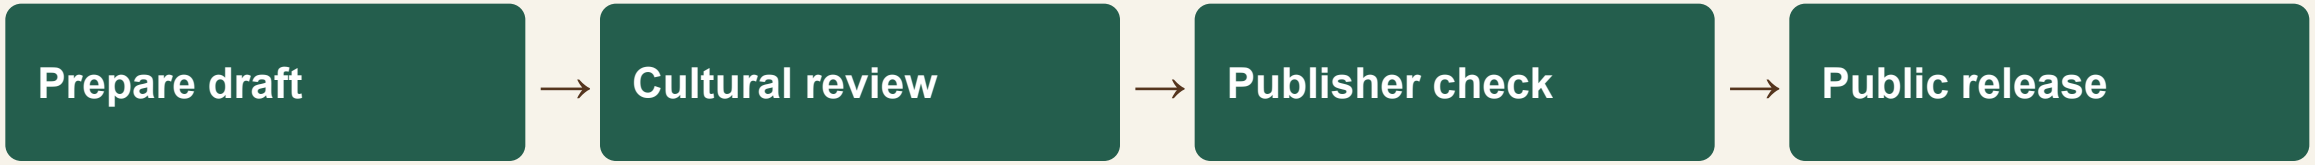

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The password changes and old sign-ins are ended.

How a contribution reaches readers

1. The uploader or contributor prepares a draft and submits it.
2. A cultural reviewer checks accuracy. An editor makes requested corrections and returns the item for review.
3. A publisher checks the final item and permission. Only an approved public release becomes visible to readers.

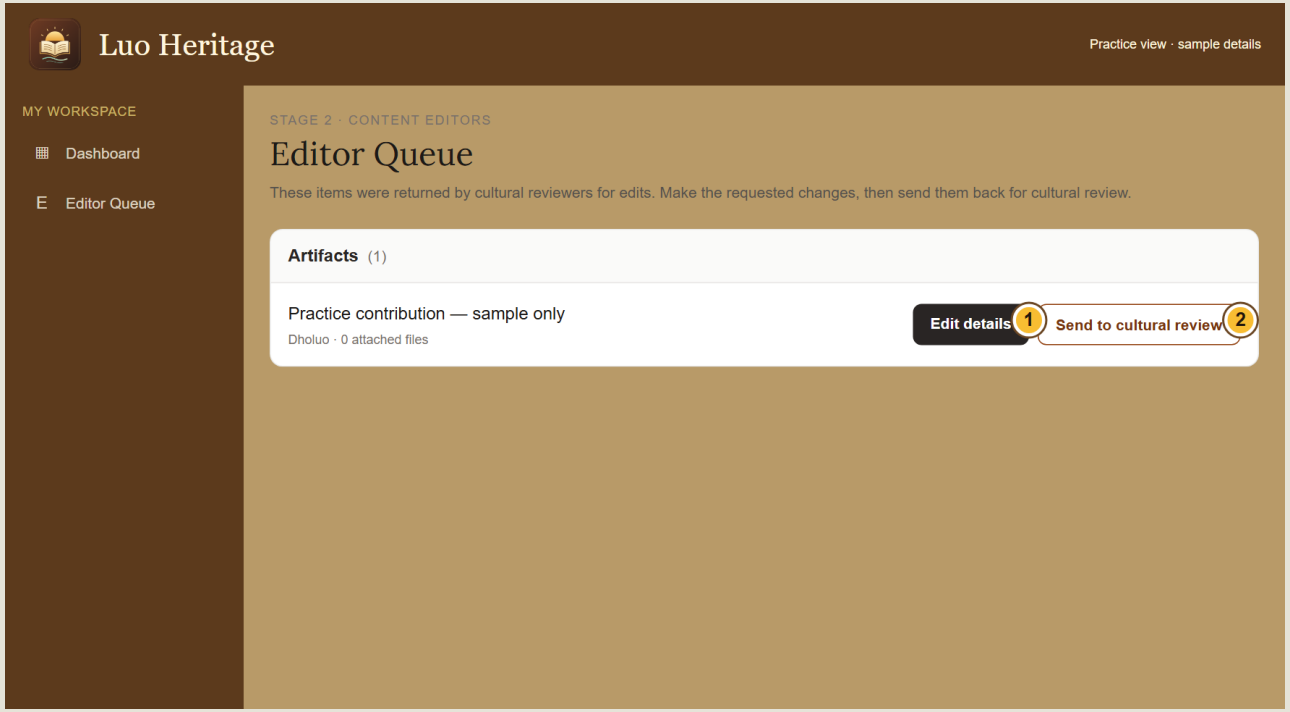

Different people should perform the independent checks. Do not approve your own work.

CHECK: An item may return for changes. Drafts and private approvals are not public publication.

Correct an item returned by a reviewer

1. Open Editor Queue. Find the item and choose Edit details.
2. Read the requested changes. Correct the text or files, then save your changes.
3. Return to the queue and choose Send to cultural review. The reviewer must check the corrected version.

Saving an edit does not publish it. Keep the source’s meaning and credit.

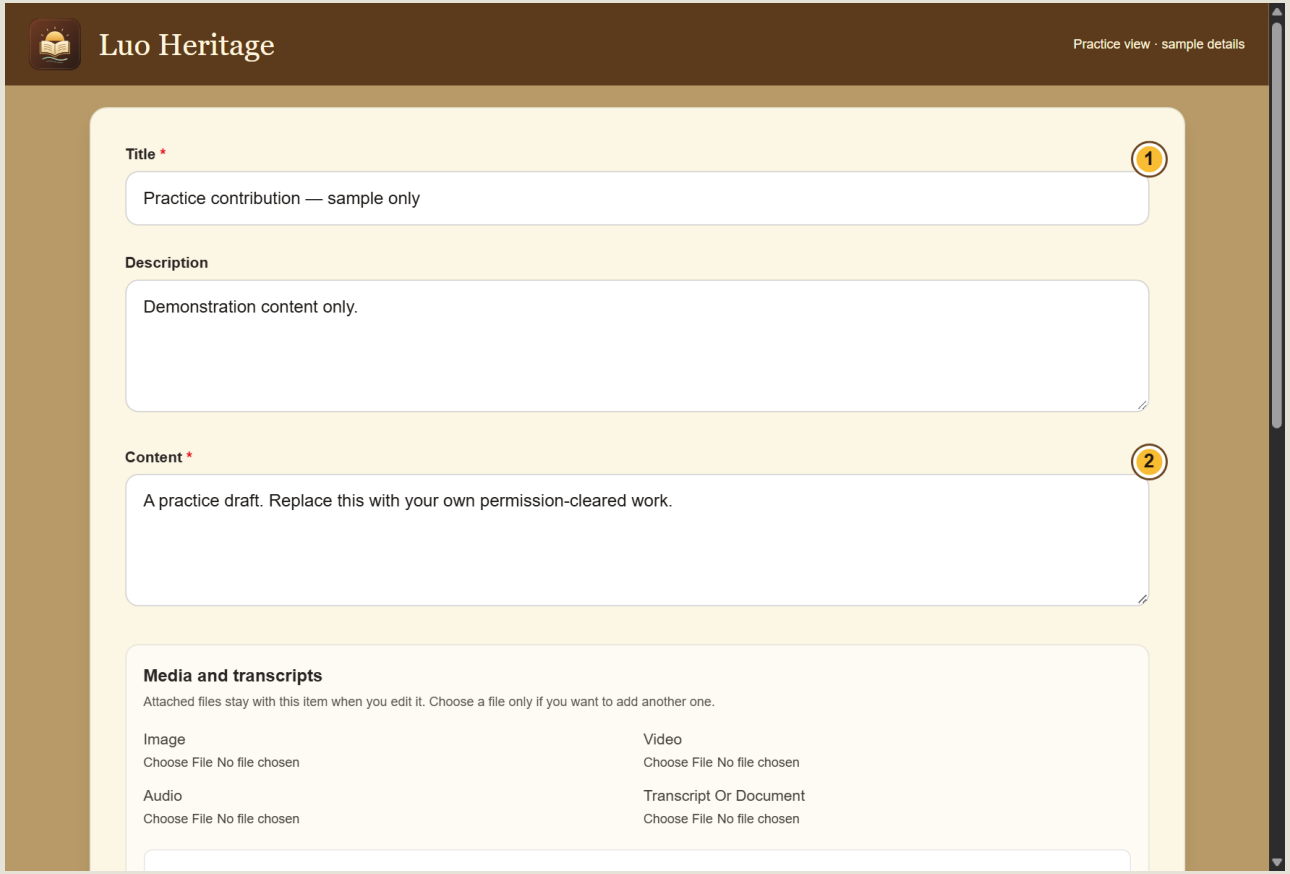

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The corrected item returns to cultural review.

Make a careful edit

1. Read the reviewer’s request before changing the draft. Keep the original meaning.
2. Correct spelling, formatting, descriptions and the requested collection details. Do not invent missing translations.
3. Save changes, reopen the item and check that the corrected version is shown.

For a disputed meaning, ask a cultural reviewer rather than silently replacing it.

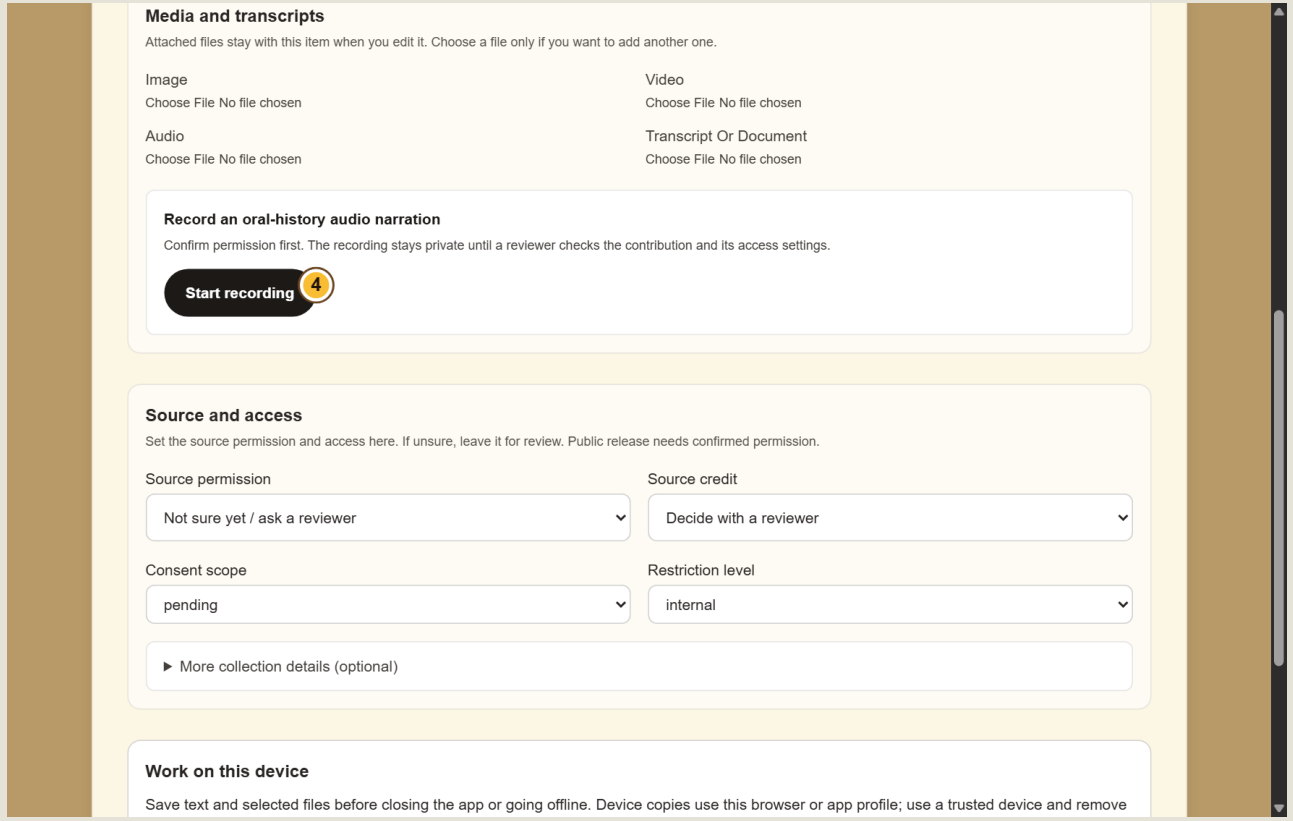

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The saved draft reflects the requested correction.

Add pictures, audio or documents

1. Find Media and transcripts. Choose a file under the matching type.
2. For an oral history, confirm permission before choosing Start recording. Stop when finished.
3. Check that the correct files are selected. Keep the app open while an upload is in progress.

If microphone access is refused, allow it in your device settings or attach an existing recording.

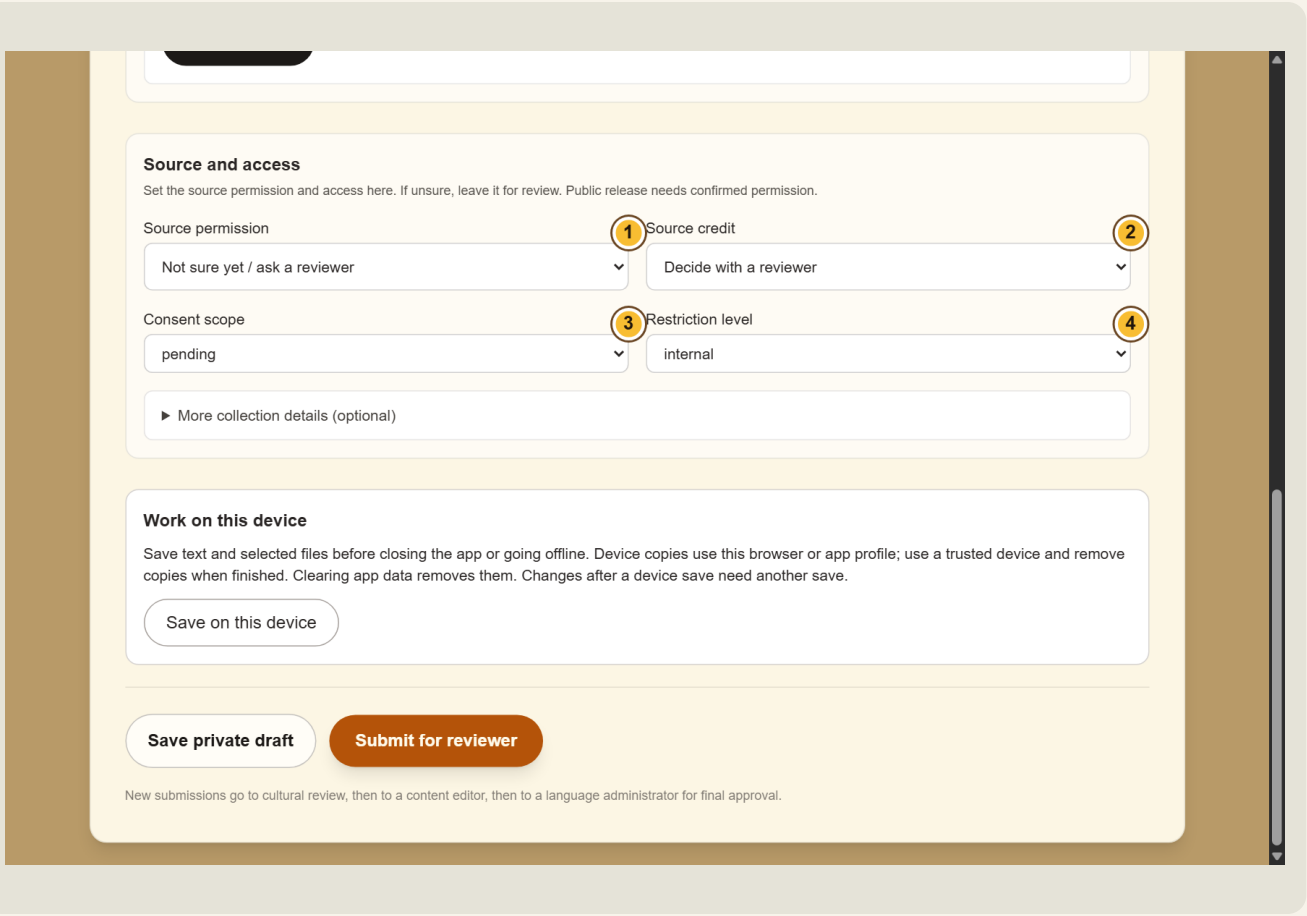

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The selected files stay with the contribution when it is saved successfully.

Check permission before sharing

1. Under Source and access, choose Source permission. If unsure, leave Not sure yet / ask a reviewer.
2. Choose how to credit the source. Use a person’s name only when they agree.
3. Keep restricted, sacred or research-only material private. Ask a reviewer before changing access.

Permission to collect material is not automatically permission to publish it.

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The draft records who may use the material and how the source should be credited.

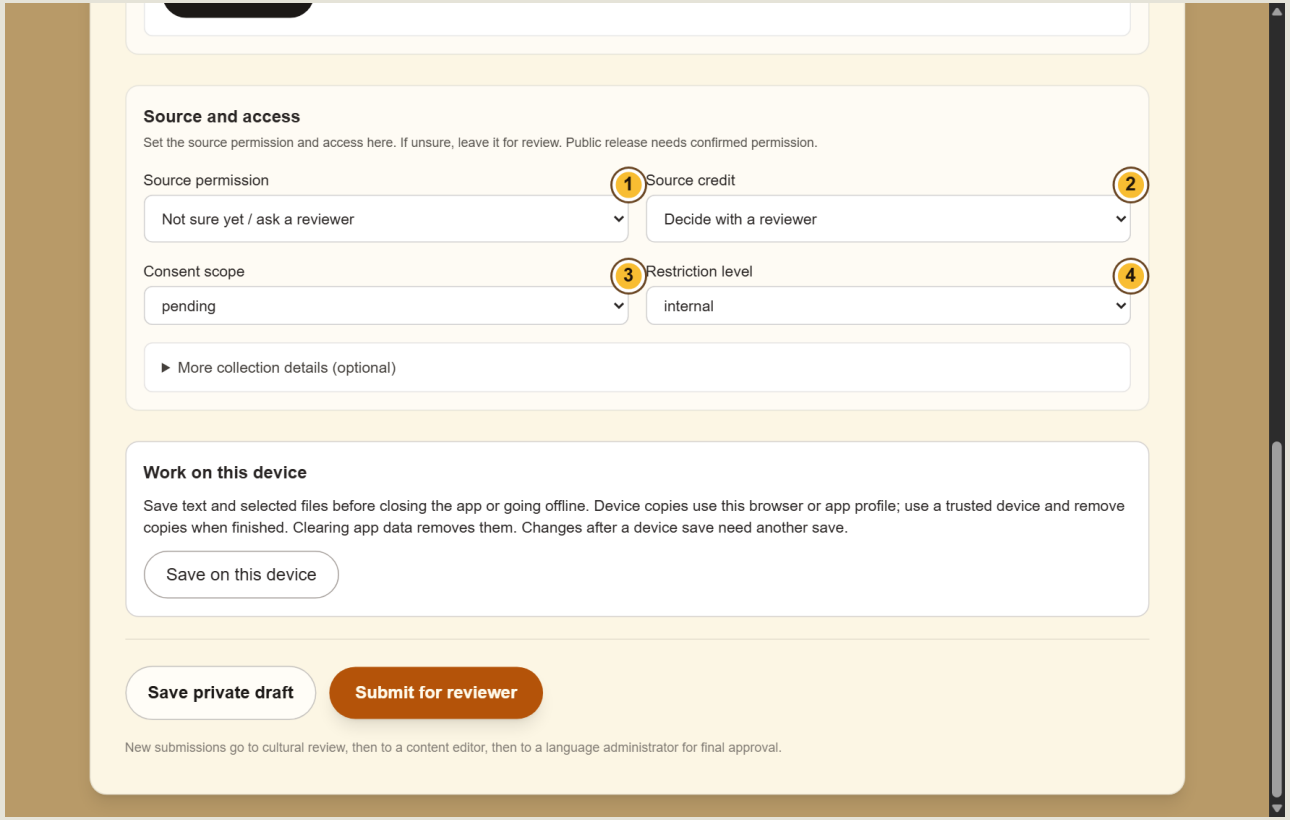

What the permission labels mean

1. Source permission: has the source agreed to the proposed use? Choose Not sure yet when you do not know.

2. Consent scope: what use was agreed? Public excerpt means an approved public part; research only and teaching have different limits.

3. Restriction level: who may see it? Internal and restricted are not public. Sacred material needs the collection owner's special care.

If the permission record is unclear, keep the item private and ask the responsible reviewer.

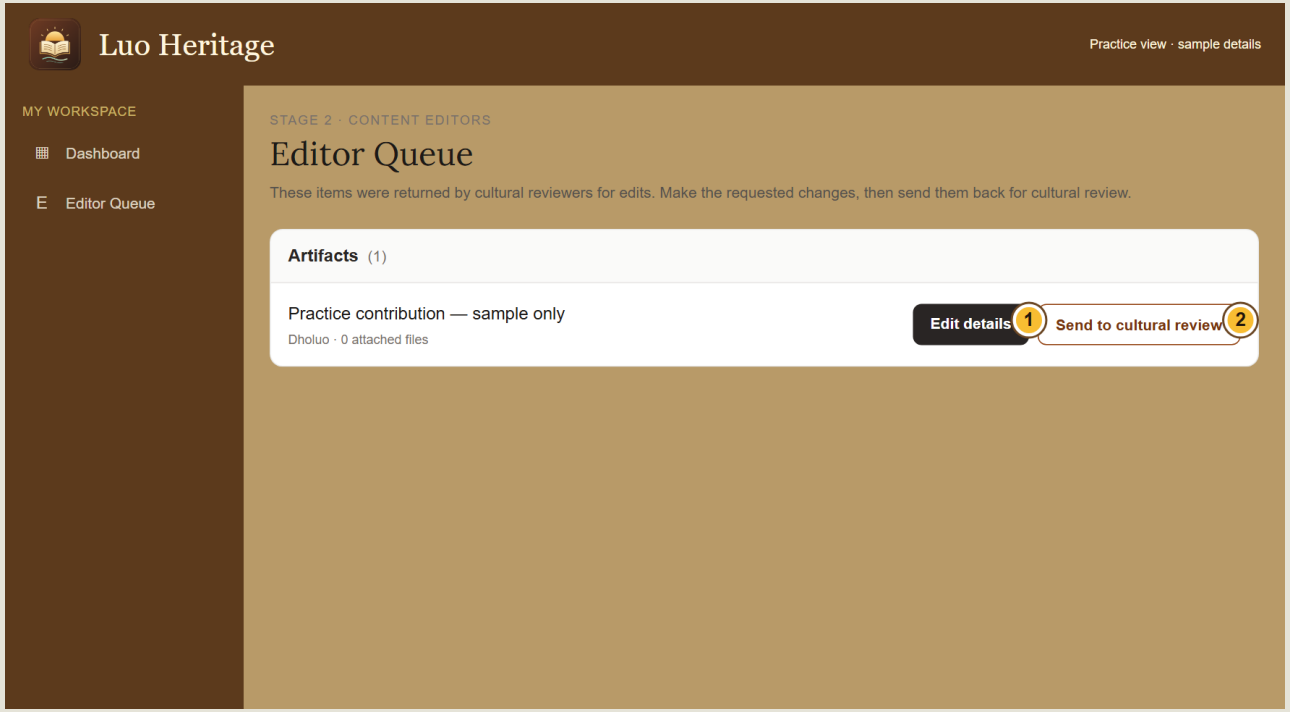

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You understand the labels before you change them.

Return the item to the reviewer

1. Go back to Editor Queue after saving your changes.
2. Choose Send to cultural review beside the intended item.
3. Read the success message. The item should leave the editable queue when the handover succeeds.

If the item has already moved, refresh instead of sending a stale copy.

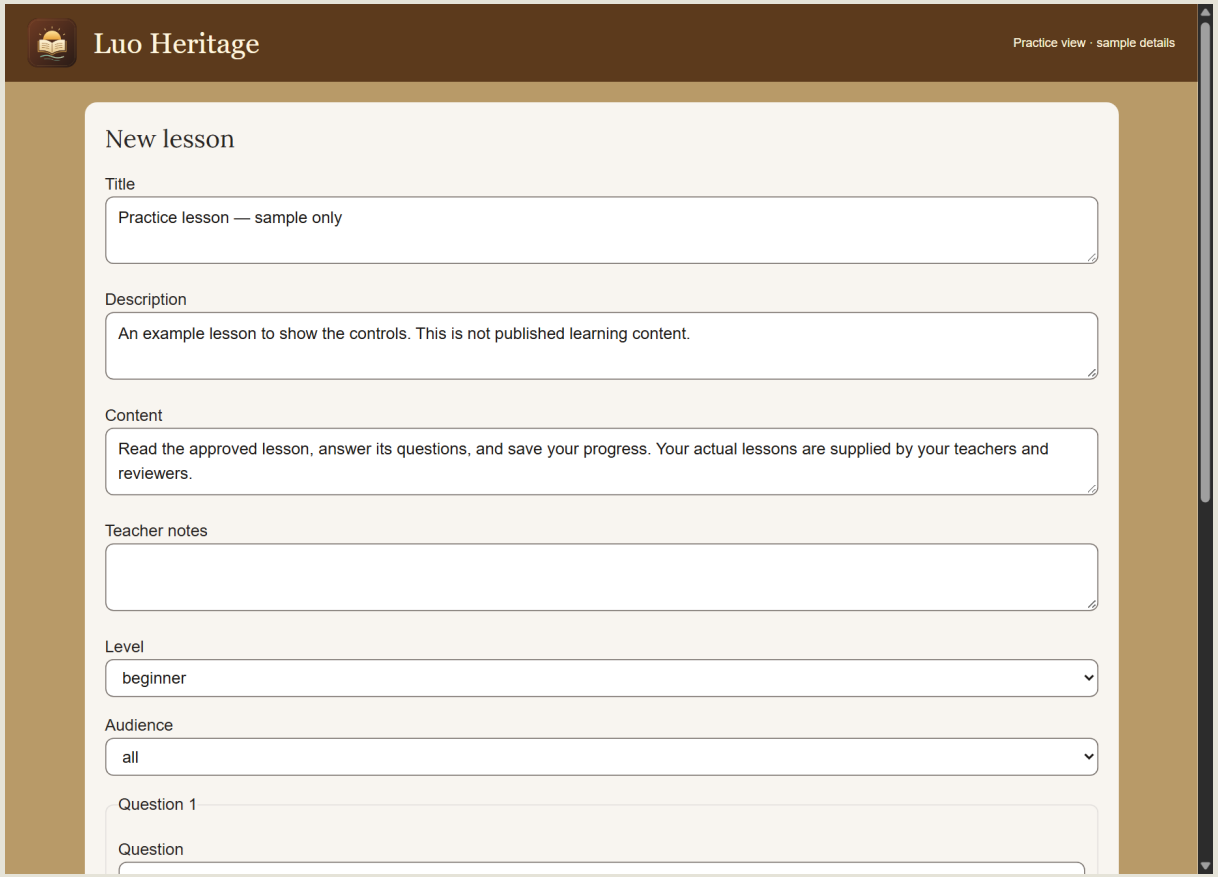

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The current corrected version is ready for cultural review.

Prepare a lesson or game draft

1. Open Lessons, games & calendar and use Content workspace when offered.
2. Choose Create content. Write the title, content, level and audience; add checked questions and answers.
3. Save the private draft and submit for independent review. Do not approve your own resource.

A written question game is different from a live multiplayer game.

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The resource is a draft or submitted item, not automatically public.

Build a course from approved lessons

1. Open Learning pathways & courses and enable Course staff workspace.
2. Choose Create course. Use published lessons from the same language, place them in order and set required scores.
3. Save course draft, open it and submit it for independent course review.

Changing a published course requires another review before publication.

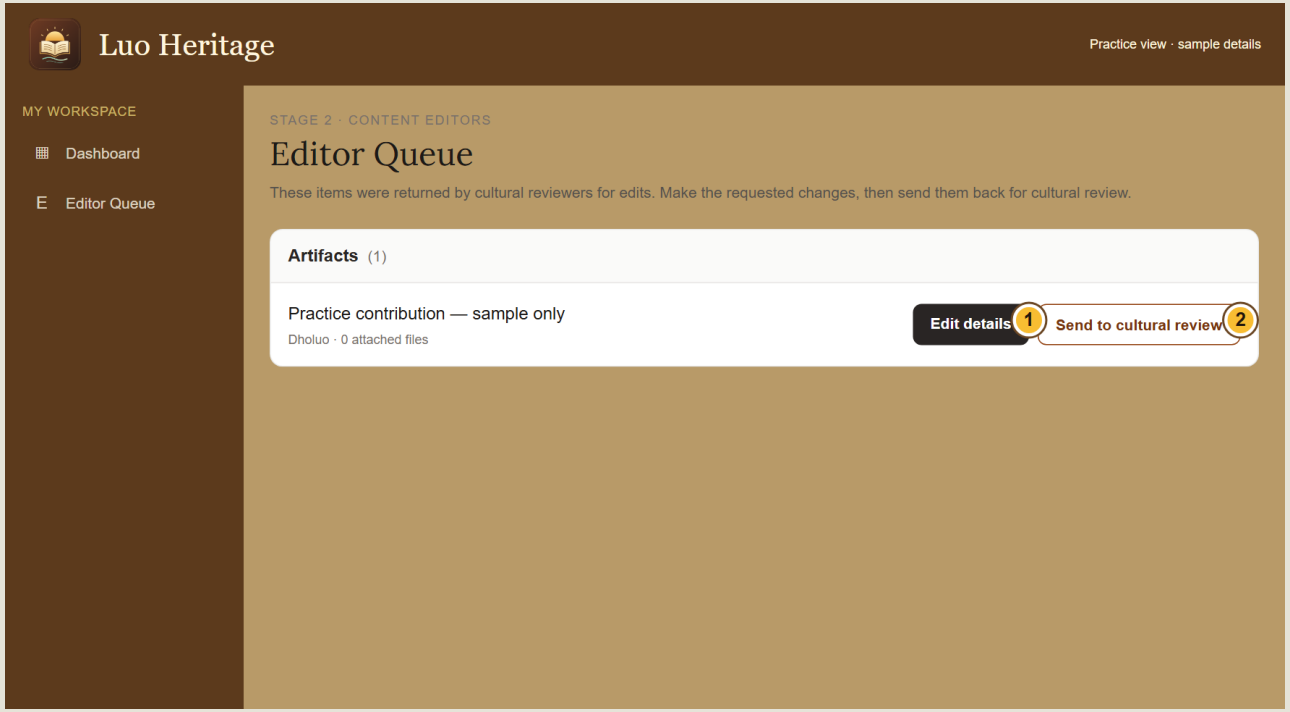

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: The course draft links the intended approved lessons.

Avoid duplicate or unfinished corrections

1. If saving fails, keep the draft open and check the connection.
2. Reopen or refresh only after preserving unsaved text in a trusted place. Check the current item version.
3. If another person has already changed the item, read their changes before trying again.

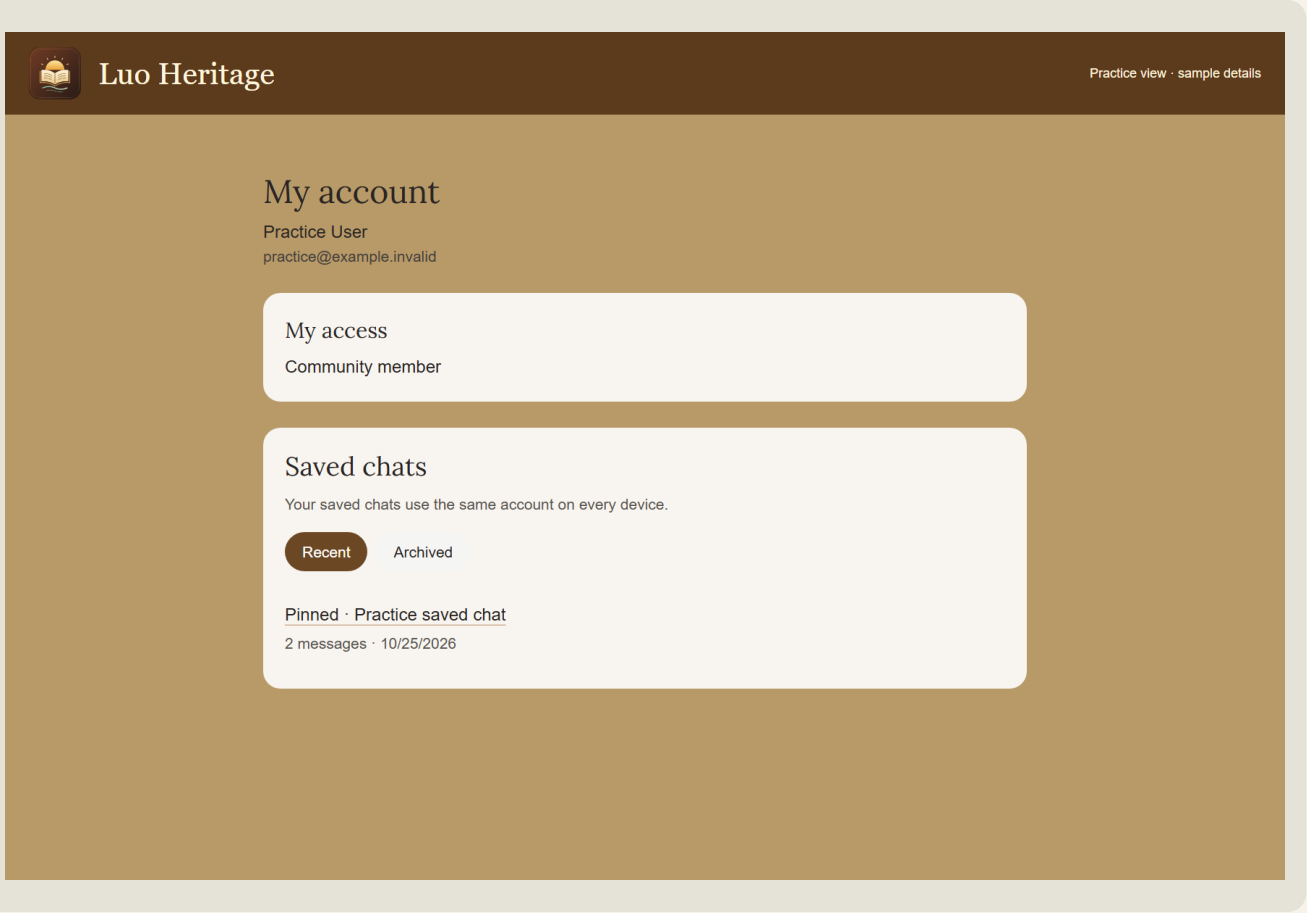

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: You update the intended current version and avoid overwriting another person's work.

Protect your account and other people

1. Use your own account. Sign out on a shared computer or phone.
2. Do not copy private interviews, class results or account lists into public chats or messages.
3. If a screen shows information you should not see, stop and tell the account administrator.

Send support the screen name and error message, never your password or a reset link.

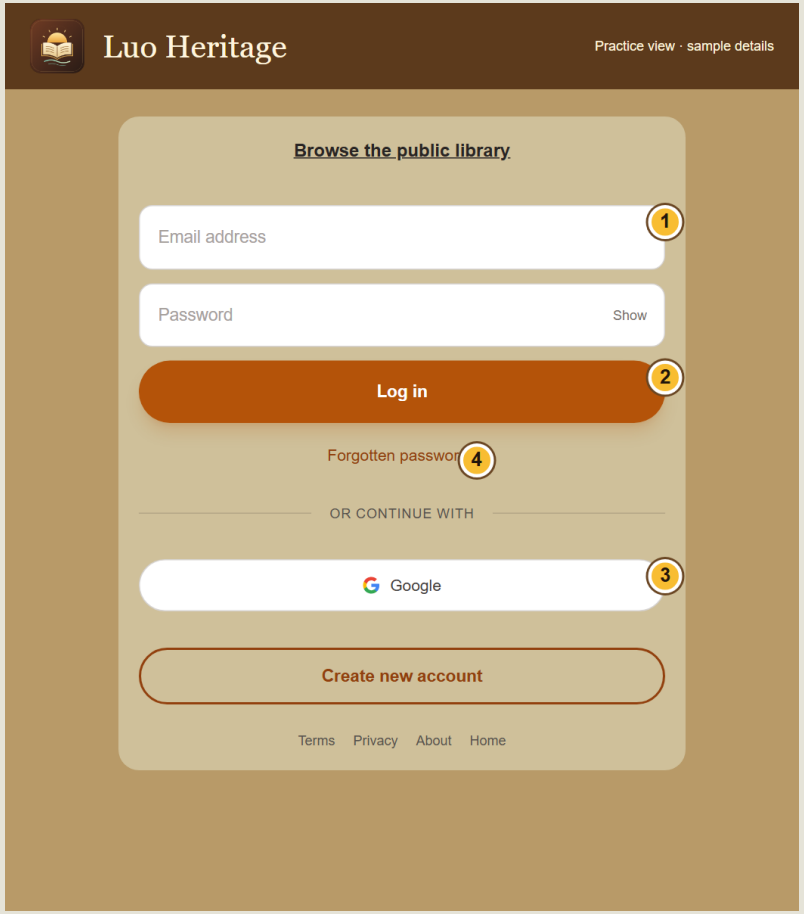

CURRENT INTERFACE • PRACTICE DETAILS

CHECK: Your work remains linked to the right person and private information stays protected.

When something does not work

1. Check your internet connection. Read the message on screen before trying again.
2. If your sign-in has expired, sign in again. If a button is missing, ask which role and language you have.
3. If it still fails, note the time, screen, button and exact message. Send these to your account administrator.

Before repeating an upload or submission, check whether the first attempt was already saved.

CHECK: You can explain the problem clearly without exposing private information.

Try it yourself: your readiness check

1. Find a practice correction and identify the requested change.
2. Save a corrected draft and locate Send to cultural review.
3. Explain why editing, cultural review and publication are separate actions.

Try → **Check** → **Ask if unsure**

Use only approved practice material. Do not publish, delete accounts or change live settings just to practise.

CHECK: You are ready for routine work when you can complete these steps without help.
